1 INTRODUCTION AND RESEARCH QUESTION.....	1
2 COMPETING LABOR MARKET THEORIES	7
2.1 Human Capital Theory	7
2.1.1 <i>The Investment Process</i>	7
2.1.2 <i>Types of Human Capital</i>	12
2.1.2.1 General Human Capital.....	12
2.1.2.2 Specific Human Human Capital	17
2.1.2.3 The Mincer Earnings Equation.....	21
2.1.2.4 Determinants and Implications of General and Specific Training.....	23
2.2 Matching Theory	28
2.2.1 <i>Matching and the Theory of Turnover</i>	32
2.2.1.1 Turnover and Age-Earnings Profiles.....	36
2.2.1.2 Job Shopping.....	39
2.2.2 <i>Worker Heterogeneity in the Matching Model</i>	41
2.3 Deferred Compensation Theory	47
2.4 Literature Review	57
2.4.1 <i>Evidence on the Human Capital Theory</i>	57
2.4.2 <i>Evidence on the Matching Theory</i>	62
2.4.3 <i>Evidence on the Deferred Compensation Theory</i>	67
2.5 Recap	71
3 THE US-TEAM SPORT INDUSTRY AND THE NBA	74
3.1 Business and the US-Team Sport Industry	74
3.2 The History and Some Institutional Characteristics of the NBA	77
3.3 The Organization of the League	82

4	HYPOTHESES DERIVED FROM THE THEORIES.....	85
4.1	Hypotheses Regarding General Human Capital.....	85
4.2	Hypotheses Regarding Specific Human Capital.....	86
4.3	Hypotheses Regarding Deferred Compensation.....	87
4.4	Hypotheses Regarding Matching Theory.....	88
5	EMPIRICAL ANALYSIS.....	90
5.1	Data Acquisition.....	90
5.2	Descriptive Statistics.....	91
5.2.1	<i>Performance Statistics</i>	91
5.2.2	<i>Player Characteristics</i>	94
5.2.3	<i>Salary and Contract Information</i>	98
5.2.4	<i>Job Turnover</i>	105
5.3	Estimation Design.....	110
5.3.1	<i>Testing the Human Capital Model</i>	111
5.3.1.1	Preliminary Diagnosis.....	111
5.3.1.2	Superior Models: Regression Analysis of Productivity and Earnings Growth with Different Player Populations.....	127
5.3.1.3	Recap.....	140
5.3.2	<i>Testing the Deferred Compensation Model</i>	142
5.3.3	<i>Testing the Matching Theory</i>	157
5.3.3.1	The Direct Match Effect Model.....	160
5.3.3.2	The Hazard Rate Model.....	172
5.3.3.3	Important Unanswered Questions of the Matching Theory.....	192
6	SUMMARY AND FINAL THOUGHTS.....	203
	LITERATURE.....	209

TABLES

Table 1:	The Labor Market Consequences of Different Types of Human Capital.....	27
Table 2:	Competing Theories and their different Consequences towards the Labor Market.....	73
Table 3:	Cap Development and Actual Team Payrolls 1984-2000.....	80
Table 4:	Available NBA Player Information for the 1990/91-1999/2000 Seasons	90
Table 5:	Number of NBA Players being X-Years in the League.....	91
Table 6:	Players' Descriptive Performance Statistics 1990/91-1999/00 NBA Season .	93
Table 7:	Descriptive Statistics of Player Characteristics 1990/91-1999/2000.....	97
Table 8:	Descriptive Statistics on Salaries and Contract Length.....	98
Table 9:	Minimum Player Salaries	100
Table 10:	Contract Duration and Player Salaries in the 1999/2000 Season.....	101
Table 11:	Player Salary Development in the NBA 1990/91-1999/2000.....	102
Table 12:	Descriptive Statistics of Movers and Stayers over the 10 Year Period.....	107
Table 13:	Transition Probabilities	108
Table 14:	Difference of Player Migration Groups in the NBA 1990/91-1999/00	110
Table 15:	The Determinants of Player Salaries in the NBA 1990/91-1999/2000.....	117
Table 16:	The Effects on Higher Order Terms on Player Salaries in the NBA	119
Table 17:	Advanced Panel Analysis of Player Salaries in the NBA 1990-2000.....	125
Table 18:	Determinants of Productivity and Wage Changes for Stayers and Movers in the NBA 1990/91-1999/2000	132
Table 19:	Determinants of Productivity and Wage Changes for Stayers in the NBA 1990/91-1999-2000	136
Table 20:	Mean Comparison	137
Table 21:	Determinants of Productivity and Wage Changes for Movers in the NBA 1990/91-1999-2000.....	139

Table 22: Slope Comparison of Productivity and Pay to Tenure for NBA Players.....	145
Table 23: Chow Test of Parameter Stability.....	148
Table 24: Comparison of Salary Determinacy and Salary Growth Models with and without Productivity.....	151
Table 25: Comparison of Salary Determinacy and Salary Growth Models with and without Productivity for Stayers	153
Table 26: Correlation among the Match Variable and “Raw Performance” Measures	167
Table 27: Determinants of the Probability of Migration for NBA Players 1990-2000.....	171
Table 28: League Hazard: The Determinants of Career Longevity in the NBA.....	183
Table 29: Team Hazard: The Determinants of Moving to a New Team	189
Table 30: Matching or Specific Human Capital?	194
Table 31: “All-Inclusive”: Which Model is finally Best? Beck., Jov. or Laz.? -The Application of the Altonji/Shakotko IV Estimator: Testing for the Bias in OLS.....	200

FIGURES

Figure 1: Earnings Streams faced by College and Non-College Graduates..... 10

Figure 2: Investment, Productivity and Income in the General Human Capital Model 15

Figure 3: OJT and the Age-Earnings Profiles in the Human Capital Model..... 16

Figure 4: Age-Earnings Profiles in the Specific Human Capital Model. Worker and Firm Co-Finance Investment Costs..... 21

Figure 5: The Adjustment of Earnings in the Job-Match-Process 31

Figure 6: The Impact of Tenure on Job Turnover..... 36

Figure 7: The Impact of Job Mobility on Age-Earnings Profiles..... 38

Figure 8: Job Shopping and Tenure early and later in the Worker’s Life..... 40

Figure 9: Upward Sloping Wage-Tenure Profiles in the Matching Theory 45

Figure 10: Worker Heterogeneity and the Impact of Seniority on the Age-Earnings- Profiles..... 47
