Introduction: Why a Handbook of Applied Social Research Methods? <i>Leonard Bickman</i> <i>Debra J. Rog</i>	ix
--	----

■ **Part I: Planning Applied Research** **1**

1. Applied Research Design: A Practical Approach <i>Leonard Bickman</i> <i>Debra J. Rog</i> <i>Terry E. Hedrick</i>	5
2. Design Sensitivity: Statistical Power for Applied Experimental Research <i>Mark W. Lipsey</i>	39
3. Designing a Qualitative Study <i>Joseph A. Maxwell</i>	69
4. Practical Sampling <i>Gary T. Henry</i>	101
5. Planning Ethically Responsible Research <i>Joan E. Sieber</i>	127

■ Part II: Applied Research Framework	157
6. Randomized Controlled Experiments for Evaluation and Planning	161
<i>Robert F. Boruch</i>	
7. Quasi-experimentation	193
<i>Charles S. Reichardt</i>	
<i>Melvin M. Mark</i>	
8. The Abridged Version of Case Study Research: Design and Method	229
<i>Robert K. Yin</i>	
9. Need Analysis: Process and Techniques	261
<i>Jack McKillip</i>	
10. Formative Evaluation of Costs, Cost-Effectiveness, and Cost-Benefit: Toward Cost → Procedure → Process → Outcome Analysis	285
<i>Brian T. Yates</i>	
11. Research Synthesis and Meta-analysis	315
<i>Harris M. Cooper</i>	
<i>James J. Lindsay</i>	
■ Part III: Practical Data Collection and Analysis Methods	339
12. Design and Evaluation of Survey Questions	343
<i>Floyd J. Fowler, Jr.</i>	
13. Practical Aspects of Interview Data Collection and Data Management	375
<i>Welmoet Bok van Kammen</i>	
<i>Magda Stouthamer-Loeber</i>	
14. Mail Surveys	399
<i>Thomas W. Mangione</i>	
15. Methods for Sampling and Interviewing in Telephone Surveys	429
<i>Paul J. Lavrakas</i>	
16. Ethnography	473
<i>David M. Fetterman</i>	

17. Focus Group Research: Exploration and Discovery	505
<i>David W. Stewart</i>	
<i>Prem N. Shandasani</i>	
18. Graphing Data	527
<i>Gary T. Henry</i>
