

CONTENTS

Preface, xv

Acknowledgments, xix

Introduction, xxiii

Part One—Introducing Enterprise Information Portals: Definition and Evolution

1

INTRODUCTION: DEFINING THE ENTERPRISE INFORMATION PORTAL 3

EIP definition is a political process, 3
EIP definitions, 4
Types of definition and synthesis, 8
EIP technology and e-business, 10
Conclusion, 11
References, 12

2

THE ORIGIN AND EVOLUTION OF ENTERPRISE INFORMATION PORTALS 13

Enterprise information portals (EIPs), 13
Structured data/information/knowledge management, 14

- Content management, 23
- EIPs: managing the structured/unstructured content relationship, 27
- Integrating EIP-based systems, 28
- Further EIP evolution, 30
- References, 31

Part Two—Benefits of Enterprise Information Portals and Corporate Goals

3

BENEFITS OF ENTERPRISE INFORMATION PORTALS 35

- Enterprise innovation and justification, 35
- EIP benefits, 35
- Conclusion, 41
- References, 41

4

ESTIMATING BENEFITS OF ENTERPRISE INFORMATION PORTALS: CONCEPTS, METHODOLOGY, AND TOOLS 43

- Enterprise information portal benefits and corporate goals, 43
- A framework for EIP benefit estimates, 44
- Methodology and tools for estimating the benefits and costs of EIPs, 49
- Summary, 58
- References, 58

Part Three—Architecture of Enterprise Information Portals and Enterprise Artificial Systems Integration

5

EIP ARCHITECTURAL QUESTIONS AND APPROACHES: EASI AND THE TWO PROBLEMS OF IT 63

- Introduction, 63
- Definition of enterprise artificial systems integration (EASI), 63

Types of EASI, 64	
The DIMS solution to the “islands of information” problem, 70	
The DIMS, federations, and the enterprise information portal, 80	
Solving the “islands of automation” problem, 80	
EIP integration and architecture, 82	
Summary, 89	
References, 90	

6 THE ROLE OF INTELLIGENT AGENTS IN EIPs 93

Introduction, 93	
Some definitions, 93	
Agents in PAI architecture, 94	
Agents as intelligent scaled-down business process engines, 99	
Conclusion: agents, EIPs, and the virtual enterprise, 100	
References, 101	

Part Four—On Knowledge and Knowledge Management

7 ON KNOWLEDGE 105

Introduction, 105	
On definition, 105	
Definitions of knowledge, 107	
World 2 definitions, 108	
World 3 definitions, 109	
World 2 data, information, and knowledge, 111	
Business process hierarchies, decision cycles, and knowledge processing, 112	
A knowledge life cycle (KLC) framework, 114	
Tacit knowledge and explicit knowledge, 119	
Polanyi, implicit knowledge, and Popper, 121	
Individual level world 2 knowledge and motivational hierarchies, 123	
Knowledge and culture, 124	
Modes of conversion and the KLC view, 130	
References, 135	

8 KNOWLEDGE LIFE CYCLE SUBPROCESSES 137

- Introduction, 137
- Information acquisition, 137
- Individual and group (I&G) learning, 141
- Knowledge claim formulation, 141
- Knowledge claim validation or evaluation, 149
- Knowledge broadcasting, 153
- Knowledge-related searching and retrieving, 156
- Teaching, 158
- Knowledge sharing, 160
- Accelerated innovation, 162
- References, 162

9 ON KNOWLEDGE MANAGEMENT 165

- Introduction: Approach to KM, 165
- Some definitions of knowledge management, 167
- Information management and knowledge management, 171
- Definition and specification of knowledge management and information management processes, 172
- More on how information management differs from knowledge management, 189
- How does culture relate to KM?, 189
- KM Impact and innovation, 190
- Conclusion, 196
- References, 196

Part Five—Artificial Knowledge Management Systems and the Role of XML

10 KNOWLEDGE MANAGEMENT AND THE AKMS/DKMS 201

- Introduction, 201
- The NKMS and the AKMS, 201

- Knowledge and knowledge management processes, use cases,
and the AKMS, 202
- The AKMS and the distributed knowledge management
system (DKMS), 204
- Conclusion, 212
- References, 213

11

THE ROLE OF XML IN ENTERPRISE INFORMATION PORTALS

215

-
- Introduction, 215
 - XML in PAI architecture for EIPs, 217
 - XML for messaging and connectivity in
portal systems, 218
 - XML in clients, 220
 - XML in databases and content stores, 220
 - XML and agents, 221
 - XML resource description framework (RDF),
XML topic maps (XTM), and Meaning Definition
Language (MDL), 221
 - Conclusion, 224
 - References, 225

Part Six—EIP Frameworks, Portal Product Case Studies, and Applications to E-Business

12

A FORWARD LOOKING EIP SEGMENTATION FRAMEWORK

229

-
- Introduction: The first EIP product segmentation, 229
 - A forward-looking EIP product segmentation framework, 230
 - The special importance of knowledge-processing and
knowledge-management portals, 242
 - Conclusion: A forward-looking EIP segmentation, 243
 - References, 249

13

**THE ENTERPRISE KNOWLEDGE PORTAL AND
ITS ARCHITECTURE**

251

-
- Introduction: Enter the enterprise knowledge portal, 251
 - A story about desktops, EIPs, and EKPs, 252
 - What is the EKP?, 255
 - EKP architecture and components, 257
 - The essence of the EKP, 262
 - The EKP, the AKMS/DKMS, and EKP functional requirements, 262
 - EKPs, knowledge sharing, and corporate culture, 263
 - E-business knowledge portals, 263
 - Are there any enterprise knowledge portals?, 264
 - Types of knowledge portals, 266
 - Conclusion, 266
 - References, 267

14

DECISION PROCESSING PORTAL PRODUCTS

269

-
- Introduction, 269
 - Business Objects InfoView, 269
 - Cognos UpFront, 271
 - Conclusion, 272
 - References, 272

15

CONTENT MANAGEMENT PORTAL PRODUCTS

275

-
- Introduction, 275
 - Plumtree, 275
 - Autonomy, 279
 - Oracle⁹iAS portal, 283
 - Enfish Enterprise Portal (KnowledgeTrack) product, 287
 - Netegrity Interaction Server, 290
 - Citrix (formerly Sequoia) XML Portal Server (XPS), 294
 - Verity Portal OneTM, 297
 - Sun ONE Portal Server, 300
 - Corechange Coreport portal, 305
 - Conclusion, 308
 - References, 309

16 COLLABORATIVE PORTAL PRODUCTS 313

- Introduction, 313
- TheBrain enterprise knowledge platform (BrainEKP), 313
- Open Text myLivelink, 318
- Intraspect, 325
- IBM/Lotus, 332
- Conclusion, 335
- References, 336

17 DECISION PROCESSING/CONTENT MANAGEMENT AND ADVANCED PORTAL PRODUCTS 339

- Introduction, 339
- Decision processing/content management
 - portal products, 339
- Hummingbird EIP, 339
- Viador E-Portal 6.4, 346
- Computer Associates CleverPath Portal 3.5, 350
- Brio.Portal, 355
- Sybase Enterprise Portal (EP) 2.5, 359
- TIBCO Active Portal™, 363
- Hyperwave eKnowledge Infrastructure, 365
- Additional considerations, 376
- Conclusion, 377
- References, 378

18 PORTAL TECHNOLOGY, E-BUSINESS, KNOWLEDGE PROCESSING, AND KNOWLEDGE MANAGEMENT 381

- Introduction: The migration of EIP technology into e-business, 381
- Information portals and e-business applications, 382
- Knowledge portals and e-business applications, 383
- Conclusion: Portal applications and the future of e-business, 387
- References, 387

Part Seven—The Future of the EIP

19

EIP DEVELOPMENT: PATHWAYS TO THE FUTURE 391

- Introduction: pathways of EIP evolution, 391
- Increasing vendor consolidation, 394
- Increasing multifunctionality, 394
- Verticalization of EIPs/EKPs/eKPs, 395
- More comprehensive integration of EIP systems, 395
- Collaborative commerce and e-business “workplace” applications, 396
- Conclusion: knowledge processing, KM, and the EIP future, 396
- References, 398

Appendix: List of Acronyms, 399

Index, 407

About the Author
