Foreword	xiii
Preface	xv
Acknowledgments	xvii
Introduction	xix

Part I

Total Quality Management overview

1	What Total Quality Management is	3
	TQM background	4
	The Total Quality Management definition	6
	The TQM philosophy	7
	TQM guiding principles	7
	The TQM umbrella	8
	A comparison: traditional management versus TQM	9
	The Total Quality Management process	10
	The Victory-C TQM model	11
	Key points	11
2	Why Total Quality Management?	13
	Today's world	13
	Tomorrow's world	15
	It works	16
	TQM at work: 1990 Malcolm Baldrige Award winners	16
	Results of TQM	20
	Key points	21

Part II

Making TQM work to achieve victory

3 What it takes to achieve victory 25

- The TQM environment 25
- Vision and leadership 26
- Involvement of everyone and everything 26
- Continuous improvement 29
- Training and education 29
- Ownership 30
- Reward and recognition 30
- Years of commitment and support 30
- Focus on the customer 31
- Road maps for victory 32
 - Are you ready? 32
 - Which approach should you use? 32
- Key points 33

4 How to achieve victory 35

- Action planning 36
 - Strategic Total Quality Management planning 36
 - The six phases of the STQM cycle 38
- Support system 41
 - Members of the support system 42
- Training 44
- Putting it all together 44
- Continuous improvement system 45
- Focus on customer satisfaction 47
 - Know yourself 48
 - Know your product 48
 - Know the competition 49
 - Know your customer 49
- Key points 50

Part III

Improvement methodology, its tools and techniques

5 Improvement methodology tools and techniques 55

- Basic improvement methodology 56
- Basic improvement methodology steps 56
- Using the basic improvement
methodology for process improvement 56

- The process 57
- Improvement methodology for process improvement steps 60
- Improvement tools and techniques 63
 - People involvement 63
 - Process understanding 64
 - Selection 65
 - Analysis 65
 - System improvement 66
- Use of tools and techniques 67
 - Tools and techniques for specific uses 67
- Key points 68

6 People involvement tools and techniques 71

- Individual involvement 71
 - Individual involvement steps 72
- Teams 73
 - Team types 73
 - Team tasks 73
 - Team stages 73
 - Teamwork 74
- Communication 74
 - Improving communication 75
 - Listening 75
- Focus setting 76
 - Mission 76
 - Goal 76
 - Focus-setting steps 77
- Meetings 77
 - Initial meeting actions 79
 - Rules of conduct 79
 - Before the meeting 79
 - At the meeting—speaking 79
 - At the meeting—cooperate 80
 - After the meeting 80
- Brainstorming 80
 - Rules 80
 - Procedures 80
- Nominal group technique 82
 - Nominal group technique steps 82
- Presentation 82
 - Presentation steps 82
- Key points 84

7 Process understanding tools and techniques 85

- Benchmarking 85
 - Benchmarking steps 86
- Process diagram 86
 - Top-level process diagram 87

Top-down process diagram	88
Detailed process diagram	89
Input/output analysis	92
Input analysis	92
Output analysis	92
Supplier/customer analysis	94
Supplier analysis	94
Customer analysis	94
Key points	96

8 Selection tools and techniques 99

Selection techniques steps	100
Selection techniques criteria	100
Voting	100
Rank order voting	100
Multivoting	101
Selection matrix	101
Selection grid	102
Decision making	104
Consensus	104
Decision by the majority or the leader	104
Decision by management	105
Key points	105

9 Analysis tools and techniques 107

Process analysis	107
Process analysis steps	107
Cause-and-effect analysis	108
Cause-and-effect analysis example	108
Cause-and-effect steps	108
Data/statistical analysis	110
Data collection	110
Data sorting and charting	111
Analyzing the data	116
Force field analysis	117
Force field analysis steps	118
Force field analysis example	118
Key points	119

10 System improvement tools and techniques 121

System improvement	122
Concurrent engineering	123
Quality function deployment	124
Robust design	126
Statistical process control	130
Cost of poor quality	131
Key points	131

Part IV

The final campaign

11 The final campaign

135

- The TQM campaign 135
 - Mission 135
 - Objective 136
 - Strategy 136
 - Tactics 136
 - Operations 136
- Weapon systems 136
 - Just-in-time 138
 - Total production maintenance 138
 - Mistake proofing 138
 - Total customer service 138
 - Manufacturing resource planning 138
 - Computer-aided design, engineering, and manufacturing 138
 - Computer integrated manufacturing 138
 - Computer systems 139
 - Information systems 139
 - Total integrated logistics 139
- Total integrated logistics 139
 - Total integrated logistics definition 140
- Logistics elements 142
- Key points 144

12 TQM in the Department of Defense

147

- What Total Quality Management is to DoD 148
 - DoD TQM definition 148
 - DoD TQM philosophy 148
 - DoD TQM principles 148
- Why Total Quality Management exists in the DoD 151
- What DoD is doing to achieve victory 151
 - Focusing on the customer 151
 - Creating the TQM environment 151
- How DoD is achieving victory 153
 - DoD master plan 153
 - Master plan goals 153
 - Support system 154
 - TQM topics, methods, and tools 157
- Continuous improvement system 160
- Customer satisfaction 160
- Improvement methodology 160
- DoD TQM tools and techniques 164
- DoD system improvement 165
 - System improvement example 166
 - Introduction for TQM critical path template 166

Area of risk	166
Outline of reducing risk	168
TQM is used throughout the product life cycle	169
TQM weapon systems within the DoD	170
Computer-Aided Acquisition and Logistics Support	170
In-Plant Quality Evaluation	170
Reliability and Maintainability 2000	171
Value Engineering	171
Key points	171

Appendices

A Total Quality Management approaches	175
B Malcolm Baldrige Award	181
C The Total Quality Management action plan	189
D Lessons learned	195
E Ethics: The foundation of Total Quality Management	199
F Fundamental statistics concepts for Total Quality Management	201
Glossary	211
Abbreviations and acronyms	221
Sources of information	223
Index	229
