Figures

1.1	Dynamics in the environment of firms	11
1.2	An extended causal scheme	23
3.1	Organisation overlap and reachability digraph	55
3.2	Social fabric digraph of corporate director deliveries	59
3.3	Social fabric digraph of the Nebraska central planning core director deliveries, 1988-89	63
3.4	Social fabric digraph of the Nebraska central planning core director deliveries to include the University of Nebraska, 1988-89	65
3.5	Freeman's closeness centrality measures for Matrix Z	86
3.6	Calculating secondary corporate translocks	87
3.7	Calculating tertiary corporate translocks	87
3.8	Stephenson and Zelen's sample network	90
6.1	Companies in which the <i>Société Générale</i> held an interest (as of 31 December 1987)	146

Tables

1.1	Comparison between TCE and IMP	13
2.1	Distribution of pricing procedures reported in Appendix 2.2	32
3.1	Social fabric matrix of corporate direct deliveries	57
3.2	Ranking of Nebraska corporations by director overlap sets, 1988-89	61
3.3	Social fabric matrix of Nebraska central core director deliveries, 1988-89	62
3.4	Social fabric matrix of Nebraska central planning core director deliveries to include the University of Nebraska, 1988-89	66
3.5	Nebraska groups of reachable corporations	70
3.6	Minimum distances between Nebraska CPC corporations and University of Nebraska that can be reached on a primary, secondary and tertiary basis	73
3.7	Comparison of centrality rankings for Nebraska's CPC (without NU)	77
3.8	Scores for five of the centrality measures (without NU)	78
3.9	Scores for five of the centrality measures (with NU)	80
4.1	'Kinyo' and 'sangyo keiretsu' in Japan	99
4.2	Share-ownership by type of investors, all listed companies (per cent)	106
4.3	Major bank equity holdings in its industrial group	106
5.1	Markets in the electronics sector (\$ billion)	116
5.2	Market and production of the electronics industry per region in 1990 (\$ billion)	117
5.3	Major competitors per electronics subsector and region (1990)	117

5.4	Changes in portfolios of electronics companies in percentages of relevant turnovers	128
5.5	Geographical imbalance of Philips activities in percentages	129
6.1	The nine largest European conglomerates	142
6.2	Capital increase of the SG	151
