Foreword by Professor Dennis Meadows ix
Preface xi

**Part 1** How to Use Management Games

**1 Types, traditions and terminology** **3**
Apparent diversity 3
Common intentions 4
Differentiation by tradition 5
Differentiation by usage 8
Terminology 11

**2 Games and human behaviour** **13**
Recognizing the influence of personal behaviour 13
Games that show us our failings 14
General teaching or personal learning? 17
Ideas for the facilitator 18

**3 Games to promote knowledge** **24**
The decision-making content of certain game types 25
How to 'make a game of it' 27
Gaining knowledge – having fun 30
Lessons from the media 30
Games mechanisms to follow 31
The effect of subject matter 34
Matters of detail 35

**4 Games to increase group effectiveness** **38**
Icebreakers 38
Objectives of problem-solving exercises 39
Ranking exercises 43
Card-sort exercises 44
Puzzles 44
Communication games 46

| | | |
|---|---|---|
| | Other classifications | 47 |
| | Unique material | 47 |
| | The effects of individual use | 48 |
| **5** | **Games about organizations** | **49** |
| | Simulation | 49 |
| | Simulating encounters through role-play | 51 |
| | Simulating a meeting by role-play | 52 |
| | Simulating a customer/supplier interface | 53 |
| | A simulation and a game | 53 |
| | Changing the features of a simulation | 54 |
| | Simulation of a hierarchy by role-play | 54 |
| | Role-play augmented by visible symbols | 55 |
| | Simulating a state of disadvantage | 55 |
| | Simulating futures by role-play | 55 |
| | Simulation with paper and pencil | 56 |
| | Simulating the complexity of machine-based production | 57 |
| | Simulating planning and progress | 58 |
| | Simulation of related groups | 59 |
| | The behavioural aspect | 60 |
| **6** | **Model-based business games** | **61** |
| | Manually-operated business games | 61 |
| | An example of a manually-operated game | 63 |
| | An umpiring model | 65 |
| | Outputs of an umpiring model | 65 |
| | The meaning of interaction | 67 |
| | The mechanistic structure of model-based games | 68 |
| **7** | **Computer-controlled games** | **69** |
| | Competition format | 69 |
| | Interactive game or non-interactive simulation? | 70 |
| | Game objectives | 71 |
| | Playing groups | 73 |
| | Time | 74 |
| | Issues of complexity and realism | 74 |
| | For what uses is the computer appropriate? | 76 |
| **8** | **Game use and game variations** | **80** |
| | Choice | 80 |
| | Personal preparation | 81 |
| | Preliminary work by players | 81 |
| | Introducing the game – motivation | 82 |
| | Introducing the game – practicalities | 84 |
| | Possible interventions during play | 85 |
| | Computer-linked variations | 87 |
| | Variations introducing qualitative elements | 88 |

Variations that reposition the game itself 90
**9 Games and teambuilding** **91**
Bureaucracy and teamwork 91
A vision not yet realized 94
Helping system members to know their system 95
Helping system members to value communication 96
Full and free communication 98
Working together 99
**10 Debriefs, reviews and alternatives** **104**
Different perspectives on the learning process 105
Variations of subject matter 107
Different practices for different approaches 108
Behaviour of staff and observers 110
Future game developments 111

Index to Part 1 113

**Part 2** Directory of Management Games

Introduction to the directory 121
Alphabetical index of games 126
Index of suppliers of games 313
Index of background to games 319
Index of subject areas 324
Index of advertisers 329
