## Part I: Introduction

<b>Introduction: In Search of Useful Theories for Cooperation and Process Redesign</b> . . . . .	3
<b>1. Cooperation and Strategic Alliances: Empirical Evidence and Theoretical Explanations</b> . . . . .	13
1.1 Basic Notions and Definitions for Cooperative Projects . . . . .	13
1.2 Empirical Evidence for Increases and Changes in Cooperative Investment Activity . . . . .	20
1.3 "Classical" Explanations for Cooperation . . . . .	26
1.3.1 The Argument of Investment Size . . . . .	29
1.3.2 The Argument of Risk-Sharing . . . . .	31
1.3.3 The Argument of Synergy . . . . .	32
1.4 Sustainable Differentiation through Alternative Modes of Organisation . . . . .	34
1.4.1 Case I: Integration Superior . . . . .	34
1.4.2 Case II: Market Solution Superior . . . . .	37
1.4.3 Case III. Collaboration Superior . . . . .	38
1.5 Summary . . . . .	41

## Part II: Theoretical Building Blocs

<b>2. Strategy, Process Redesign and Organization</b> . . . . .	47
2.1 Economic Theory and Strategic Investment Decisions . . . . .	47
2.2 Wide-Scope vs. Narrow-Scope Economics . . . . .	51
2.3 The Relationship between Strategic Objectives and Processes . . . . .	55
2.3.1 Strategic Objectives as a Starting-Point . . . . .	55
2.3.2 Relationship between Objectives and Process Characteristics . . . . .	57
2.3.3 Implications on Organizational Structure . . . . .	61
2.4 The Relationship between Processes and Organizational Structure . . . . .	62

2.4.1	Process and Task Analysis . . . . .	64
2.4.2	Resource Specification and Ownership . . . . .	66
2.5	Contract Specification and Endogenous Design of Institutional Structures . . . . .	70
<b>3.</b>	<b>Capital, Time, and Cooperative Contractive Modes . . . . .</b>	<b>77</b>
3.1	The Time-Profile of Project-Related Assets . . . . .	78
3.1.1	Some Basic Characteristics of Capital Goods . . . . .	78
3.1.2	The Consideration of Time in Capital Theory . . . . .	80
3.1.3	Entry Time and Entry Cost . . . . .	82
3.1.4	Exit Time and Exit Cost . . . . .	85
3.2	Asset Specificity and Asset Complementarity . . . . .	87
3.2.1	Asset Specificity . . . . .	87
3.2.2	Asset Complementarity . . . . .	91
3.3	Generic Contract Modes and Institutional Arrangements . . . . .	93
3.3.1	A Capital Theoretical Interpretation of Generic Contract Modes . . . . .	94
3.3.2	A Capital Theoretical Interpretation of Institutions . . . . .	96
3.3.3	The Role of "Quoad Usum" and "Quoad Sortem" Contracts . . . . .	99
3.4	A Capital Theoretical Interpretation of the Business Firm . . . . .	101
3.5	A New Interpretation of Cooperation as an Option . . . . .	105
<b>4.</b>	<b>Neo-Institutional Explanations for Cooperative Projects and Networks . . . . .</b>	<b>111</b>
4.1	Entry Times and Exit Times and their Relevance for the Analysis of Institutions . . . . .	112
4.2	Advantages and Limits of Integration . . . . .	119
4.3	Extensions of Neo-Institutional Economics to Hybrid Modes of Organization . . . . .	125
4.3.1	Appropriability Regimes . . . . .	127
4.3.2	Formation of a Dominant Design . . . . .	129
4.3.3	Complementary Assets . . . . .	132
4.3.4	Organizational Choices . . . . .	136
4.4	The Network Model of Collaboration . . . . .	138
 <b>Part III: Project Structuring and Cooperation Design</b>		
<b>5.</b>	<b>A Model for Structuring Cooperative Investment Projects . . . . .</b>	<b>147</b>
5.1	Outline of the Model . . . . .	147

5.2	Specification of Goals and Tasks of Independent Agents . . . . .	152
5.3	Distribution of Resources between Independent Agents . . . . .	161
5.4	The Formation of Appropriate Institutional Structures . . . . .	167
5.4.1	Superiority of Markets . . . . .	169
5.4.2	Superiority of Integrated Solutions . . . . .	170
5.4.3	Superiority of Cooperative Solutions . . . . .	172
5.5	Distributed Ownership and Task-Specific Contractual Arrangements . . . . .	175
5.5.1	Decomposition of Tasks and Activities . . . . .	175
5.5.2	"Open" Collaboration for High-Technology Related Tasks . . . . .	177
5.5.3	"Close" Internal Control of Critical Tasks and Resources . . . . .	180
<b>6.</b>	<b>Strategic Alliances and Restructuring in the Telecommunication Satellite Industry . . . . .</b>	<b>183</b>
6.1	Telecommunication Satellite Technology and its Evolution . . . . .	183
6.2	Decomposing Satellite-Related Business Processes and Industry Restructuring . . . . .	187
6.3	Cooperative Associations for European Satellite Projects . . . . .	193
6.3.1	Economic and Political Reasons for Cooperation . . . . .	193
6.3.2	The German TV-Sat Project . . . . .	195
6.3.3	The Astra Satellite Project . . . . .	200
6.3.4	The German DFS-Kopernikus Project . . . . .	203
6.3.5	Comparisons and Conclusions . . . . .	205
6.4	Governance Modes for Competitive International Satellite Programs . . . . .	206
6.4.1	Integration Within Large Satellite Systems Firms . . . . .	208
6.4.2	Upstream Networking with Specialized Suppliers . . . . .	210
6.4.3	Downstream Diversification into Satellite Operation and Services . . . . .	214
6.5	An Industry in Transition: The Case of the German Telecommunication Satellite Industry . . . . .	217
<b>7.</b>	<b>Structuring Financial Arrangements for Start-Up Projects . . . . .</b>	<b>223</b>
7.1	Theoretical Reasons for Multilateral Finance . . . . .	225
7.2	Project Finance for Start-Up Companies . . . . .	230
7.2.1	Institutional Arrangements in the Venture Capital Business . . . . .	233
7.2.2	Fund-Mediated vs. Direct Investment in Start-up Firms . . . . .	236
7.2.3	Two Venture-Capital (VC) Firms . . . . .	239
7.2.4	A VC Firm and a Second Finance Institution . . . . .	240
7.2.5	A VC Firm and an Industrial Corporation . . . . .	242

7.3	Syndicated Venturing as Special Form of Multilateral Finance . . . .	243
7.3.1	Reasons for Syndicated Venturing and its Importance . . . .	243
7.3.2	Syndicated Venturing in the United States . . . . .	245
7.3.3	Syndicated Venturing in Western Europe and Germany . . . .	249
7.4	Projects Involving Government as Financier . . . . .	251
7.4.1	Reasons for Government Involvement in the Venturing Process . . . . .	251
7.4.2	Government as Source of Subsidies: The German TOU-Program . . . . .	255
7.4.3	Government as Co-Investor: The BJTU-Program . . . . .	259
7.5	Conclusions for Multilateral Finance . . . . .	262

#### **Part IV: Policy Implications**

<b>8.</b>	<b>New Cooperative Solutions and Public-Private Partnership . . . .</b>	<b>267</b>
8.1	The Need for New Cooperative Solutions . . . . .	267
8.2	The Social Dilemma for "Public" Investment and Finance . . . . .	272
8.3	How to Design Complex Collaborative Projects . . . . .	276
8.4	Effective Management of Public — Private Partnerships . . . . .	279
8.5	New Forms of Financing Public — Private Partnerships . . . . .	284
8.6	Some Concluding Principles . . . . .	289
	References . . . . .	293
	Index . . . . .	307
