<b>Introduction</b>	3
<b>1. Equilibrium Models Displaying Endogenous Fluctuations and Chaos: A Survey</b> <i>Michele Boldrin and Michael Woodford</i>	8
<b>2. Periodic and Aperiodic Behaviour in Discrete One-Dimensional Dynamical Systems</b> <i>Jean-Michel Grandmont</i>	44
<b>3. A Characterization of Erratic Dynamics in the Overlapping Generations Model</b> <i>Jess Benhabib and Richard H. Day</i>	64
<b>4. On Endogenous Competitive Business Cycles</b> <i>Jean-Michel Grandmont</i>	82
<b>5. Competitive Business Cycles in an Overlapping Generations Economy with Productive Investment</b> <i>Bruno Jullien</i>	138
<b>6. Endogenous Fluctuations in a Two-Sector Overlapping Generations Economy</b> <i>Pietro Reichlin</i>	158
<b>7. Recent Theories of the Business Cycle: The Role of Speculative Inventories</b> <i>Guy Laroque</i>	180
<b>8. Endogenous Cycles with Uncertain Lifespans in Continuous Time</b> <i>William Whitesell</i>	199
<b>9. The Hopf Bifurcation and the Existence and Stability of Closed Orbits in Multisector Models of Optimal Economic Growth</b> <i>Jess Benhabib and Kazuo Nishimura</i>	206
<b>10. Sources of Complex Dynamics in Two-Sector Growth Models</b> <i>Michele Boldrin and Raymond J. Deneckere</i>	228
<b>11. Imperfect Financial Intermediation and Complex Dynamics</b> <i>Michael Woodford</i>	253

<b>12. Dynamical Systems that Solve Continuous-Time Concave Optimization Problems: Anything Goes</b> <i>Luigi Montrucchio</i>	277
<b>13. Stochastic Equilibrium Oscillations</b> <i>Jess Benhabib and Kazuo Nishimura</i>	289
<b>14. Cyclical and Chaotic Behavior in a Dynamic Equilibrium Model, with Implications for Fiscal Policy</b> <i>Raymond J. Deneckere and Kenneth L. Judd</i>	308
<b>15. Endogenous Business Cycles with Self-Fulfilling Optimism: A Model with Entry</b> <i>Allan Drazen</i>	330
<b>16. Keynesian Chaos</b> <i>Richard H. Day and Wayne Shafer</i>	339
<b>17. Feedback Between R&amp;D and Productivity Growth: A Chaos Model</b> <i>William J. Baumol and Edward N. Wolff</i>	355
<b>18. Is the Business Cycle Characterized by Deterministic Chaos?</b> <i>William A. Brock and Chera L. Sayers</i>	374
<b>19. The Statistical Properties of Dimension Calculations Using Small Data Sets: Some Economic Applications</b> <i>James B. Ramsey, Chera L. Sayers, and Philip Rothman</i>	394
<b>20. Some Evidence on the Non-Linearity of Economic Time Series: 1890–1981</b> <i>Bruce McNevin and Salih Neftçi</i>	429
<b>21. Nonlinear Dynamics and Stock Returns</b> <i>José A. Scheinkman and Blake LeBaron</i>	446
