## **Part I Deforestation and unsustainable development** 1

---

<b>1. Central America: Ecological and socio-economic characteristics</b>	<b>1</b>
Deforestation and environmental degradation	6
<b>2. Causes of deforestation: The processes and players involved</b>	<b>14</b>
Deforestation and agro-export development	15
Agrarian frontier colonization	17
The cattle boom	19
Logging	21
The expansion of export crops	23
Infrastructural development	27
Fuelwood and urbanization	28
<b>3. Structural and policy determinants of deforestation</b>	<b>34</b>
Agrarian structure and land tenure	34
Government policy and legislation	37
Deforestation in the 1980s and 1990s: War, agrarian reform, recession and adjustment	41

---

## **Part II The breakdown of traditional resource management systems** 46

---

<b>Overview</b>	<b>46</b>
<b>4. Deforestation and Indian populations</b>	<b>48</b>
Central America's Indian population	48
State policy and Indian rights	50
Encroachment in tropical rainforest areas	52
Indians, graziers and colonization in Costa Rica	52
Indians and logging companies in Nicaragua	54
<b>5. Deforestation and livelihood in Guatemala's western highlands</b>	<b>57</b>
The land tenure system and the demise of communal protection mechanisms	60

The crisis of petty commodity production and subsistence provisioning	71
<b>6. Deforestation and shifting peasant agriculture</b>	<b>82</b>
Deforestation and land colonization in Panama	82
Migratory agriculture in Nicaragua	84
<hr/>	
<b>Part III Forest protection and tree planting initiatives</b>	<b>89</b>
<hr/>	
<b>Overview</b>	<b>89</b>
<b>7. The conservationist approach: National parks and reserves</b>	<b>92</b>
Protected area schemes	93
<b>8. Protected area schemes and social conflict in Costa Rica</b>	<b>105</b>
Two case studies: The Carara biological reserve and the Osa Peninsula	109
<b>9. The project approach: Reforestation, sustainable logging, agroforestry and social forestry schemes</b>	<b>113</b>
Reforestation	113
Sustainable forest management	116
Agroforestry and social forestry schemes	118
<b>10. Programme and project implementation: Concrete experiences from El Salvador, Guatemala and Honduras</b>	<b>131</b>
Community nurseries programme in El Salvador	131
Reforestation and agroforestry projects in Tonicapán, Guatemala	133
The Honduran social forestry system	134
<b>11. Alternative approaches: Revolutionary change and grassroots mobilization</b>	<b>147</b>
Radical structural change: Agrarian reform and human resettlement in Río San Juan, Nicaragua	147
Grassroots mobilization	150
Deforestation and forest protection in Huehuetenango, Guatemala	158
<b>12. Social and political dimensions of forest protection</b>	<b>160</b>
Social and political economy concerns	160
External interventions	161
Social forces and local level structures	167
Grassroots organization and mobilization	169
<i>Annex 1 Case studies, theme papers and researchers</i>	<i>174</i>
<i>Notes</i>	<i>175</i>
<i>Abbreviations and Acronyms</i>	<i>180</i>
<i>Bibliography</i>	<i>183</i>
<i>Index</i>	<i>193</i>

# List of illustrations

## TABLES

1.1	Central America: National, urban and rural population, life expectancy and infant mortality rates	4
1.2	Agrarian structure in Central America (late 1980s)	5
1.3	Central America: Selected socio-economic indicators	6
1.4	Central America: National estimates of forest cover and annual deforestation, 1990	9
2.1	Changes in land use: Selected countries and departments (% of total land area)	20
2.2	Sawnwood production in Central America, selected years	21
2.3	Central America: Forest product exports and imports and trade balance by country, 1970–85	22
2.4	Prices of fuelwood, basic food products and the average wage in Nicaragua, 1982–91	32
3.1	Distribution of rural families by size of holding, 1970	34
3.2	Land concentration in the 1970s	35
4.1	Indian population of Central America (late 1980s)	48
4.2	Costa Rica: Land tenure and forested areas in indigenous reserves, 1990	53
5.1	Agrarian structure in Guatemala and Totonicapán, 1979	59
5.2	Costs of production and revenue in a carpentry enterprise, 1989	76
5.3	Relative prices of selected forest products and other items in Totonicapán, 1980–91	79
7.1	Protected areas in Central America, 1990	92
7.2	Protected areas in Costa Rica, 1990	100
7.3	Costa Rica: Debt-for-nature swaps, 1988–mid 1991	102
9.1	Preliminary financial assessment of selected agroforestry associations in Central America	120

## MAPS

i.1	Research sites in Central America	xii
1.1	Central America: Topographic features	2
1.2	Central America: Macro-ecological zones	3
1.3	Deforestation in Central America: 1950–85	7
1.4	Deforestation in Costa Rica and Panama	8
2.1	Central America: Agro-export zones	24
5.1	Guatemala: Location of Totonicapán and Sololá	58
5.2	Totonicapán: Forest property regimes	61
6.1	Rainfall and topography in Río San Juan, Nicaragua	88
