Part I

UNIVERSAL SERVICE IN EUROPEAN TELECOMMUNICATIONS

I. SUMMARY	21
II. DISCUSSION OF THE ISSUES	23
1. Introduction	23
2. The concept of "universal service"	25
3. What is "universal service"?	25
4. The nature and quality of "universal service" provision	27
5. Existing definitions of "universal service"	27
6. Universal service and public service	28
7. The impact of liberalisation on "universal service": an overview	30
8. Distributional issues	34
9. Universal service and penetration rates	40
10. Geographical variation	42
III. UNIVERSAL SERVICE: COUNTRY SURVEYS	43
1. Belgium	43
2. France	44
3. Germany	49
4. Ireland	52
5. Italy	54
6. The Netherlands	56
7. Portugal	57
8. Spain	59
9. Sweden	63
10. United Kingdom	68

IV. QUALITY OF SERVICE	70
1. Introduction	70
2. Belgium	72
3. Denmark	72
4. France	72
5. Germany	73
6. Greece	74
7. Ireland	75
8. Italy	75
9. The Netherlands	75
10. Norway	76
11. Portugal	76
12. Spain	77
13. Sweden	80
14. United Kingdom	81
V. CONCLUSION	83
1. Universal service, public service and basic service	83
2. Universal service, what is it and how can its delivery be monitored?	84
3. The impact of liberalisation	85
4. The protection of universal service	85
5. Monitoring quality of service	86
6. Universal service and new telecommunication services	86
APPENDIX I.A - Extract from British Telecom licence	88
APPENDIX I.B - Universal service in telecommunications in Japan	96
I. Introduction	96
II. Regulatory framework	97
III. NTT's role as a nationwide service provider	98
IV. Problems of rebalancing the tariff structure	99
V. Conclusions	100
NOTES AND REFERENCES	103

**TELECOMMUNICATION RATE RESTRUCTURING:
ISSUES, PATTERNS AND POLICY PROBLEMS FOR OECD COUNTRIES**

I. SUMMARY	109
II. INTRODUCTION	111
III. RATE RESTRUCTURING: DIVERGENT NETWORKING AND POLICY PRIORITIES	114
A. Telecommunication pricing concepts	115
B. Rate rebalancing in selected OECD countries	119
1. U.S.	119
2. Canada	123
3. Japan	128
4. European Community	129
i) UK	134
ii) Italy	136
IV. RATE RESTRUCTURING: PATTERNS OF CHANGE	139
A. Rate restructuring analysis: methodology	141
B. Rate restructuring: overall trends	143
C. Tariff structuring by service class	149
1. Telephone service	149
2. Telex service	154
3. Leased circuits	157
D. Variations in rate restructuring by country	159
E. Summary	161
V. CONCLUSION: TELECOMMUNICATION PRICING AND THE POLICY AGENDA	168

LIST OF TABLES

PART I

Table 1	Telephone Main Lines per 100 Inhabitants	32
Table 2	Waiting List for Telephone Main Lines as Percentage of Total Main Lines	33
Table 3	Regional Variations in Telephone Subscribers per 100 Population (1980 and 1981 data)	35
Table 4	OECD Country Main Telephone Penetration Rates by City, 1983	36
Table 5	Share of National Network Terminating Points Accounted for by the Largest Region, 1979	37
Table 6	Distribution of Welfare Gains from Cost-based Pricing	37
Table 7	Telephone Penetration under Alternative Rates: Status Quo, Cost-based Pricing and Income-based Access Charges	38
Table 8	Italy: Number of Subscribers per 100 Inhabitants and Income per Capita (December 1983)	39
Table 9	Italy: Growth of Selected High Technology Products (1960-87)	40
Table 10	Telephone Penetration Rates, 1985	41
Table 11	Telephone Connections per 100 Inhabitants: Austria and Selected Regions	42
Table 12	France: Penetration of Equipment by Region at 1st January 1989	47
Table 13	France: Distribution of Lines by Category of Client and by Region	48
Table 14	France: Penetration of Equipment by Household (in thousands) by Socio-professional Categories	49
Table 15	France: Penetration of Equipment by Category of Subscriber (1985)	50
Table 16	France: Penetration of Telex Equipment by Establishment	51
Table 17	Italy: Index of Telephone Diffusion (1983)	58
Table 18	Spain: Telephone Lines per 100 Inhabitants in Autonomous Regions (1985)	63
Table 19	Spain: Provincial Distribution by Rate of Service Penetration (December 1987)	64
Table 20	Regulatory Framework for Universal Service	98
Table 21	Japan: Diffusion Rate of Telephones per 100 Inhabitants	100

PART II

Table 1	Bell Canada and United States Telephone System Growth	127
Table 2	NTT's Balance Sheet for Telephone Services, 1987	130
Table 3	British Telecom Price Changes Controlled by Licence Condition 24, 1984-87	135
Table 4	Italian Telecom Price Changes and Consumer Price Index, 1980-88	137
Table 5	Italy: Changes in Telephone Tariffs, 1980-87	138
Table 6	Telephone, Exchange Line Rental Charges, 1980-87	149
Table 7	Telephone, Inland Dialed Call Charges, Current Prices, 1980-87	151
Table 8	Telephone, Inland Dialed Call Charges, 1980 Prices, 1980-87	152
Table 9	Telephone, International Dialed Call Charges, 1980-87	153
Table 10	Telex, Connection/Rental Charges, 1980-87	154
Table 11	Telex, Inland Dialed Call Charges, Current Prices, 1980-87	155
Table 12	Telex, Inland Dialed Call Charges, 1980 Prices, 1980-87	156
Table 13	Telex, International Dialed Call Charges, 1980-87	157
Table 14	Voiceband Private Circuits, 1980-87	158
Table 15	Narrowband Private Circuits, 1980-87	159
Table 16	Wideband Private Circuits, 1980-87	160

APPENDIX II.A

Table II-1	British Telecom and Mercury Communications Ltd: Cost of a Three Minute Call, 1988	180
Table II-2	AT&T International Message Toll Service Development Calls and Minutes, 1975-84	181

LIST OF FIGURES

PART I

Figure I-1 Demand and Supply for Telephone Subscription	101
Figure I-2 Connections between Telephone Subscribers, NTT and New Common Carriers	102

PART II

Figure II-1 Percentage Change in Fixed Charges, 1980-1987	146
Figure II-2 Percentage Change in National Call Charges, 1980-1987	146
Figure II-3 Percentage Change in International Call Charges, 1980-1987	147
Figure II-4 Percentage Change in Telex Charges, 1980-1987	147
Figure II-5 Percentage Change in Leased Circuit Rental Charges, Voiceband (1980-87) and Wideband (1983-87)	148
Figure II-6 Exchange Line Charges, Cost/Month Rental, Current and 1980 Prices	162
Figure II-7 Inland Telephone, Cost/Minute Percentage Change, 1980-87	165
