<i>Foreword</i>	xi
<i>Preface</i>	xv

1

The Time-to-Market Race 1

The Benefits of a Short Cycle	3
Which Products Justify Acceleration?	6
Putting the Time Factor into Context	9
Shifting from a Cost to Time Mindset	12
Building a Holistic Approach	13
Are We Hitting the Mark?	15
Suggested Reading	16

2

Wrapping It in Numbers 17

The Four Key Objectives	18
The Six Trade-Offs	20

Creating the Model	28
Developing Trade-Off Rules	38
Doing It	40

3

The Fuzzy Front End 43

Fuzziness Consumes Time	45
Why Time Vanishes	46
How Time Vanishes	50
How to Deal with Fuzziness	53
Suggested Reading	59

4

Innovating Incrementally 61

The Megaproject Trap	62
Techniques of Incremental Innovation	69
Suggested Reading	79

5

Product Specifications 81

Why Specifications Matter	81
Writing Specifications for Speedy Development	87
How to Write Specifications Jointly	94
Suggested Reading	97

6

The Subtle Role of Product
Architecture 99

The Key Architectural Decisions	100
Concentrating Functionality	100

Locating Functions	102
Module Performance Margins	103
The Design of Interfaces	104
Degree of Technical Risk	106
Contingency Plans	108
Related Issues	109
Management's Role	110
Suggested Reading	110

7

Staffing and Motivating the Team 111

The Team Leader	112
Team Members	118
Gray Areas of Team Membership	123
Managing Team Staffing	126
Suggested Reading	131

8

Organizing the Team for Action 133

Forms of Organization	134
Co-Location	145
Suggested Reading	150

9

Achieving Overlapping Activities 153

From Phases to Continuous Flow	154
Creating Opportunities for Overlapping	161
Suggested Reading	167

10

Monitoring and Controlling
Progress 169

The Product Development Process	170
The Primacy of the Schedule	171
Soft Controls	173
Hard Controls	178
Suggested Reading	186

11

Capacity Planning and
Resource Allocation 189

Buying Time	189
Project Overload	193
Work in Process	203
The Cost of Speed	204
Suggested Reading	205

12

Managing Risk 207

Kinds of Risk	208
Techniques for Controlling Risk	214
Suggested Reading	221

13

The Product–Process Duo 223

The Opportunities and the Difficulties	224
Fostering Interplay	231
Planning for Production	236
The Broader Context	239
Suggested Reading	240

14

The Role of Top Management 241

Top-Management Leadership	241
Supporting an Accelerated Project	247
Using Sharp Tools	254
Suggested Reading	255

15

Getting Started 257

Just Do It	258
Avoid the Immunization Effect	258
Stack the Deck	259
Select the Right Pilot Project	259
Get the Right Leader	260
Teach the Team New Skills	261
Let the Team Run the Team	262
Search the Experience Base	264
Cloning the Process	265
When Do We Stop?	266
The Use of Consultants	267
Get Going	268
Suggested Reading	269

APPENDIX A The Role of Computerized Developmental Tools 271

APPENDIX B Development Speed and World-Class Manufacturing 279

Index 289
