Preface	ix
Part I. Introduction and overview	1
1. An integrated approach to the design of work <i>E.N. Corlett</i>	3
2. But what are the issues in work redesign? <i>J.R. Wilson and S.M. Grey</i>	7
Part II. Ergonomics practice in industry	17
3. Experience from ergonomics planning of industrial plants <i>J.A.E. Eklund</i>	19
4. How well can ergonomists address problems identified in the workplace? <i>C.M. Haslegrave</i>	22
5. Load-related musculo-skeletal illness: is ergonomic workplace design a sufficient remedy? <i>A. Aarås</i>	30
Part III. Physical and mental components of work	41
6. Hand tools and control of cumulative trauma disorders of the upper limb <i>T.J. Armstrong, S. Ulin and C. Ways</i>	43
7. Influence of cordless rechargeable screwdrivers on upper extremity work load in electrical installation work <i>T. Cederqvist, M. Lindberg, B. Magnusson and R. Örtengren</i>	51
8. Arm suspension balancers in different VDU work conditions <i>M.A. Tuveesson, K. Ekberg, J.A.E. Eklund, H. Noorlind-Brage, P. Odenrick and R. Örtengren</i>	60
9. Evaluation of hand intensive tasks using biomechanical internal load factors <i>R. Wells, A. Moore and D. Ranney</i>	67
10. Factors affecting health in the workplace <i>R. Plette</i>	74

Part IV. Evaluating the workplace	79
(a) Requirements and limitations in CAD systems	
11. Ergonomic CAD systems in work design: an investigation of requirements and limitations in a practical application <i>R. Örtengren, M. Liew, M. Torgnysson, B. Glimskär, G. Mynerts and R. Dandanell</i>	81
12. Limitations in the application of materials handling guidelines <i>I.P.M. Randle, A.S. Nicholson, P.W. Buckle and D.A. Stubbs</i>	90
13. Computer-aided ergonomic design: current status <i>A. Kuusisto</i>	98
(b) Workplace analysis methodology	
14. Job evaluation procedures to identify ergonomic stress <i>W.M. Keyserling and T.J. Armstrong</i>	103
15. Ergonomic design of workplaces with a two-dimensional Micro-CAD system <i>M. Launis and J. Lehtelä</i>	110
16. Applications of the SAMMIE CAD system in workplace design <i>K. Case, M.C. Bonney, J.M. Porter and M.T. Freer</i>	119
Part V. Case studies: ergonomic improvements through workplace design	129
17. Redesign of bridge layout and equipment for fishing vessels <i>J. Stoop</i>	131
18. Effects of changes in delivery of dairy products on physical strain of truck drivers <i>C-H Nygård and J. Ilmarinen</i>	142
19. Application of ergonomic principles to press shop operations in the light engineering industry <i>H.V. Bhasin, K.P. Kothiyal and A. De</i>	149
20. Ergonomic guidelines for adjustment and redesign of sewing machine workplaces <i>N.J. Dellemann and J. Dul</i>	155
21. Precision manual assembly jobs: biomechanical considerations in workplace design <i>K.P. Kothiyal, H.V. Bhasin and A. De</i>	161
Part VI. Work organisation and job design	167
22. Job redesign on the assembly line: some effects on job satisfaction and work behaviour <i>J. Sarić, Z. Raboteg-Sarić and V. Taksić</i>	169

23.	Stress and health in self-paced repetitive work <i>M. Rahman</i>	174
24.	Co-adaptics and transformatics in the methodology and practice of work design <i>V.F. Venda</i>	181
Part VII.	Participative approaches to work design	187
25.	Taking future activity into account at the design stage: participative design in the printing industry <i>F. Daniellou, A. Kerguelen, A. Garrigou and A. Laville</i>	189
26.	Case study: participative design in the prevention of musculoskeletal diseases at work <i>J. Järvinen and S. Herranen</i>	197
27.	Influencing organizational change: evaluation of a university-level educational programme <i>T.A. Heiskanen</i>	202
28.	Participative work design. A systematic approach by the Interactive Delphi Methodology (IDM) <i>H.L. Zanders</i>	207
Part VIII.	New technology issues	219
29.	Knowledge based systems and work design <i>G. Bradley</i>	221
30.	A framework for studying the psychological effects of advanced manufacturing technology <i>R. Martin</i>	230
31.	The effects of 'excessive' computing upon computer dependent people <i>M.A. Shotton</i>	236
32.	Issues of new technology introduction and cross-cultural comparisons <i>F.W. Craven</i>	241
33.	New technology and the quality of work: the organizational factor <i>B. Frytjer and K. ten Have</i>	249
	Author index	259
	Subject index	264
