

Table of Contents

Chapter 1:	Introduction	1
	1.1 Motivation	1
	1.2 Brief review of the literature	4
	1.2.1 Review of the literature on interest rate dynamics and the term structure of interest rates	4
	1.2.2 Review of the macroeconomic literature on fiscal policy, public debt and economic growth	9
	1.2.3 Résumé	11
	1.3 General discussion of the basic model assumptions	12
	1.4 Structure of the thesis	17
	Appendix 1.1	20
	Appendix 1.2	22
	Appendix 1.3	23
Chapter 2:	The basic deterministic macroeconomic model	24
	2.1 Introduction	24
	2.2 Basic structure of the economy and the financial market	25
	2.3 Decision problem of the representative household	26
	2.4 Fiscal policy	30
	2.5 General equilibrium	31
	2.6 Capital accumulation, viability and economic growth	34
	2.7 Public debt and deficit dynamics	41
	2.8 Short summary	44
	Appendix 2.1	46
	Appendix 2.2	48
	Appendix 2.3	50
	Appendix 2.4	56
	Appendix 2.5	58
Chapter 3:	The basic stochastic macroeconomic model and the short-term interest rate dynamics	59
	3.1 Introduction	59
	3.2 Basic structure of the economy and the financial market	60
	3.3 Decision problem of the representative household	62
	3.4 Fiscal policy	65

3.5	Stochastic general equilibrium	66
3.6	Stochastic dynamics and boundary behavior of the short-term interest rate	72
3.7	Transitional and asymptotic analysis of the short-term interest rate	80
3.8	Short summary	89
	Appendix 3.1	90
	Appendix 3.2	95
	Appendix 3.3	97
	Appendix 3.4	98
	Appendix 3.5	99
	Appendix 3.6	100
	Appendix 3.7	101
	Appendix 3.8	104
Chapter 4:	Term structure of interest rates and fiscal policy	105
4.1	Introduction	105
4.2	Derivation and discussion of the bond price valuation equation	106
4.3	Term structure and fiscal policy analysis	111
	4.3.1 The term structure relation	111
	4.3.2 Conditions for the most characteristic term structure slopes	114
	4.3.3 Structural impact of fiscal policy on the term structure	117
4.4	Numerical example	123
4.5	Short summary	127
	Appendix 4.1	128
Chapter 5:	Economic growth and fiscal policy	136
5.1	Introduction	136
5.2	Local and global behavior of the capital output ratio and implications for economic growth	137
5.3	Short and long run effects of fiscal policy and interest rates on capital output and growth	151
	5.3.1 Short run effects	151
	5.3.2 Long run effects	153
5.4	Short summary	156

	Appendix 5.1	158
	Appendix 5.2	163
Chapter 6:	Public debt dynamics	165
	6.1 Introduction	165
	6.2 Local and global behavior of the debt ratio	166
	6.3 Short and long run effects of fiscal policy and interest rates on the debt ratio	175
	6.3.1 Short run effects	176
	6.3.2 Long run effects	178
	6.4 Short summary	181
	Appendix 6.1	183
Chapter 7:	Summary, conclusions and outlook on future research	184
	7.1 Summary of the main results	184
	7.2 Assessment of the model results	188
	7.2.1 A first step to close the gap between macroeconomics and finance literature	188
	7.2.2 Fiscal policy, growth and endogenous financial market reactions	189
	7.3 Outlook on future research	191
	7.3.1 Suggestions for empirical applications	191
	7.3.2 Suggestions for theoretical extensions	192
General Appendix1:	Brownian motion and stochastic integration	194
	1.1 Brownian motion	194
	1.2 Stochastic integration: the Ito integral	195
General Appendix2:	Stochastic differential equations and diffusion processes	200
	2.1 Stochastic differential equations	200
	2.2 Diffusion processes	205
General Appendix3:	Stochastic optimization and dynamic programming	208
	Bibliography	212

List of Plots

Plot 1.1:	Annual deficit per GDP ratio for France, Germany, Luxembourg and the United Kingdom (1980-1989)	20
Plot 1.2:	Annual debt per GDP ratio for France, Germany, Luxembourg and the United Kingdom (1980-1989)	20
Plot 1.3:	Real interest rates in monthly frequency for France, Germany, Luxembourg and the United Kingdom (1980-1989)	21
Plot 1.4:	Real yields to return for the US zero-coupon bond market from January to June 1980	22
Plot 1.5:	Real yields to return for the US zero-coupon bond market from July to December 1980	22
Plot 1.6:	Annual government consumption ratio for France, Germany, Luxembourg and the United Kingdom (1980-1989)	23
Plot 3.1:	Drift and diffusion of interest rate dynamics	82
Plot 3.2:	Temporary versus permanent tax rate decrease: differences between weekly simulated short-term interest rate trajectories	85
Plot 3.3:	Stationary interest rate probability densities for different τ -values	87
Plot 3.4:	Stationary interest rate probability densities for different z -values	87
Plot 4.1:	Yield-to-return surface	113
Plot 4.2:	Cross sections of the yield-to-return surface	114
Plot 4.3:	Plot of function $f(y)$	119
Plot 4.4:	Plot of function $g(y)$	119

Plot 4.5:	Area of feasible fiscal policy	124
Plot 4.6:	Yield-to-return surface	125
Plot 5.1:	Effective dimension for zero-point $r_0 = 3\%$, $k = 50\%$	150
Plot 6.1:	Condition (6.18)	174
Plot 6.2:	Drift function	175
Plot 6.3:	Bracket (6.23)	180
Plot 6.4:	Bracket (6.25)	181

List of Tables

Table 3.1:	Characteristic values of the distributions of plot 3.3	88
Table 3.2:	Characteristic values of the distributions of plot 3.4	88
Table 4.1:	Values of ξ	125
Table 5.1:	Top Lyapunov exponents	150
