List of Tables	9
List of Figures	11
Acknowledgments	13
Introduction	15
Outline of Chapters	17
I. Theoretical Explanations of Persistent Unemployment	21
I.1. Basic Facts about Unemployment in West Germany	22
A Brief Look at Time Series	24
The Structure of Unemployment	26
The Increasing Burden of Long-Term Unemployment	29
I.2. The Inflation-Unemployment Relation	33
A Natural Rate of Unemployment	33
Unemployment and Constant Inflation	35
NAIRU Estimates for Germany	39
I.3. Hysteresis and Channels of Persistence	45
Four Papers on Hysteresis	46
How Shall One Deal with Hysteresis?	51
Channels of Persistence	53

I.4.	Long-Term Unemployment and the Human Capital Approach	59
	Depreciation of Human Capital	59
	Long-Term Unemployment and Persistence	63
	Empirical Evidence	67
I.5.	Summary: Persistence and Policy Implications	70
II.	Micro-Econometric Analyses of German Unemployment	74
II.1.	Theoretical Aspects of the Analysis of Unemployment Histories	76
	Micro-Economic Models: the Job-Search Approach	77
	Individual Characteristics and Unemployment	82
	Data on Unemployment Histories	86
II.2.	Evidence on Driving Forces Behind Individual Unemployment	89
	The Concept of State Dependence	90
	Duration Analysis	94
	Discrete Transition Models	101
	The Influence of Covariates	106
II.3.	The Socio-Economic Panel: A Suitable Data Set?	109
	The German SOEP: Fundamentals and Selection Rule	110
	Unemployment Data	115
	Demographic and Other Socio-Economic Characteristics	122
	Wages and Other Income	128
II.4.	Summary: An Estimation Outline	131

III. The Concept of Simulation Estimation	133
III.1. The Basic Problem	134
Multi-Dimensional Integrals	135
Introducing the Normal Distribution	139
III.2. The Concept of Monte-Carlo Integration	142
Discrete Methods of Approximating Multi-Dimensional Integrals	143
Smooth Simulators	146
Comparing NIS and GHK	151
III.3. The Use of Simulators in Maximum-Likelihood Procedures	157
Replacing Likelihoods: SML and MSS	158
MSM and the Keane Approach	160
Practical Aspects of the SML/GHK Estimator	166
Panel Estimators	171
III.4. Summary: The Case for Simulation Estimation	173
IV. Simulation Estimation of Persistence Effects in Individual Unemployment	175
IV.1. Repeated Choice Between Discrete Alternatives	176
A Model of Transitions Between States of Employment and Unemployment	177
An Econometric Specification	180
Correcting for Unobserved Heterogeneity and Initial Conditions	182
Choice Based Sampling	185

IV.2. State Dependence Effects in Quarterly Unemployment Histories	187
Quarterly Labour Market Histories	188
Estimation Results for State Dependence	194
Other Income, Benefits, and the Reservation Wage	200
The Decline in Employment Probabilities	207
IV.3. Long-Term Unemployment and Human Capital Decay	212
Semi-Annual and Annual Data	214
Estimation Results for Semi-Annual Data	215
Estimation Results for Annual Data	223
Quantitative Evaluation of Human Capital Decay During Unemployment	226
IV.4. Summary: How Can Persistence Be Explained?	234
V. Conclusion	237
Literature	244

List of Tables

I.1	OECD Standardized Unemployment Rates 1960-1989	27
I.2	NAIRU Estimates for the Federal Republic of Germany 1960-1988	40
II.1	Realisations of Independent Trials Bernoulli Models with Variable Mean	92
II.2	Sample Units of SOEP (1984)	110
II.3	Average Duration of Unemployment Spells	117
II.4	Group-Specific Sample Sizes and Unemployment Rates	118
II.5	Consistency of Unemployment Data and Benefits	120
II.6	Group-Specific Demographic and Labour Market Characteristics	124
II.7	Definition and Construction of Main Covariates	126
II.8	Last Month's Net Wages by Groups	130
II.9	Last Month's Other Income by Groups	130
III.1	Simulation Estimation of a Simple MNP Model (1)	169
III.2	Simulation Estimation of a Simple MNP Model (2)	170
III.3	Simulation Estimation of a Small Panel Model	173
IV.1	Quarterly Labour Market Transitions	190
IV.2	Descriptive Statistics for Constant Quarterly Variables	193
IV.3	Empirical Means for Time-Varying Quarterly Variables	193
IV.4	The Role of Lagged Unemployment Duration	196

IV.5	Reduced Form on Demographics and Covariance Parameters	199
IV.6	Augmented Demographics: Checking Other Income and Unemployment Sector	203
IV.7	Augmented Demographics (allowing for initial conditions)	205
IV.8	Benefits/Duration and Age Dynamic Specifications	205
IV.9	Semi-Annual and Annual Labour Market Transitions	216
IV.10	Constant Variables in the Semi-Annual and Annual Sample	217
IV.11	Time-Varying Variables in the Semi-Annual and Annual Sample	218
IV.12	Augmented Demographic Specification (semi-annual sample)	219
IV.13	Augmented Demographics (semi-annual sample, allowing for initial conditions)	221
IV.14	Other Specifications for Semi-Annual Data	222
IV.15	Augmented Demographic Specification (annual sample)	225
IV.16	Other Specifications for Annual Data	227
IV.17	Summary of Declining Re-Employment Chances During Unemployment	233

List of Figures

I.1	Monthly Unemployment in West Germany	25
I.2	Unemployment and GDP Growth Rates	25
I.3	Gender, Nationality and Age Proportions in Unemployment	27
I.4	Share of Long-Term Unemployment in Total Unemployment	30
I.5	Average Duration of Completed Unemployment Spells	30
I.6	NAIRU Estimates, Actual Unemployment, and Inflation	43
I.7	Unemployment Effects of Human Capital Decay	65
I.8	Persistence and Human Capital Decay	67
II.1	Two Fictive Sequences of Unemployment Spells	87
II.2	Point Sampling and Calendar Data	113
II.3	The Sampling Scheme	114
II.4	Duration of All Reported Spells of Unemployment	116
II.5	Duration of Uncensored Spells of Unemployment	116
II.6	Total Duration of Unemployment Spells between 1974-1984	122
III.1	Importance Sampling with Exponential Distribution	149
III.2	Simulated Response Probabilities - Comparison between Importance Sampling and Smooth Recursive Conditioning	153

IV.1	Constructed Spells of Unemployment	191
IV.2	The Course of $Prob(d_{it} = 1)$ During a Spell of Unemployment	209
IV.3	A Comparison of Unemployment Odds	211
IV.4	The Impact of Lagged Duration Dependence	211
IV.5	Unemployment and Age	213
IV.6	Unemployment Odds for Semi-Annual Data	229
IV.7	Unemployment Odds for Annual Data	230
IV.8	The Impact of Other Income for Semi-Annual Data	231
IV.9	Changes in Other Income and Labour Market Transitions	232
