

# Contents

## Chapter 1:

INTRODUCTION . . . . .	9
1.1. Background . . . . .	9
1.2. The social costs of transport . . . . .	10
1.3. Intervention on environmental grounds . . . . .	10
1.4. Scope of the study . . . . .	12

## Chapter 2:

THE IMPACT OF TRANSPORT ON THE ENVIRONMENT . . . . .	13
2.1. The Issues . . . . .	13
2.2. The Importance of transport and trends in transport use . . . . .	13
2.3. The physical impact of transport on the environment . . . . .	16
2.4. The environmental costs of transport . . . . .	20

## Chapter 3:

THE THEORY OF MARKET AND INTERVENTION FAILURES . . . . .	25
3.1. Background . . . . .	25
3.2. The basic idea of market failures . . . . .	25
3.2.1. Internal market failures . . . . .	26
3.2.2. External market failures . . . . .	27
3.3. The definition of intervention failures . . . . .	28

## Chapter 4:

POLICY TOOLS TO CONTAIN MARKET FAILURES . . . . .	31
4.1. Overview of policy instruments . . . . .	31
4.2. Fiscal measures . . . . .	31
4.2.1. Subsidies . . . . .	32
4.2.2. Taxation . . . . .	33
4.2.3. Fees and charges . . . . .	34
4.2.4. Fiscal concessions . . . . .	36
4.2.5. Rate and fare controls . . . . .	36
4.3. Controls and regulations ('command and control' instruments) . . . . .	37
4.3.1. Quantity entry controls . . . . .	37
4.3.2. Quality entry controls . . . . .	38
4.3.3. Operational controls . . . . .	39
4.3.4. Direct government ownership . . . . .	40
4.4. Allocation of property rights . . . . .	40
4.5. Policies with regard to complementary and competing sectors . . . . .	41

4.5.1. Land use planning . . . . .	42
4.5.2. Industrial policy . . . . .	42
4.5.3. Factor market regulations . . . . .	42
4.6. Policy packages . . . . .	43

*Chapter 5:*

<b>THE NATURE OF INTERVENTION FAILURES IN PRACTICE . . . . .</b>	<b>45</b>
5.1. The Basic problems . . . . .	45
5.1.1. Regulatory capture . . . . .	45
5.1.2. Inadequacy of analytical tools . . . . .	47
5.1.3. Policy inertia . . . . .	47
5.1.4. Classification of intervention failures . . . . .	48
5.2. Economic intervention failures . . . . .	48
5.2.1. Road provision and user charges . . . . .	48
5.2.2. Fuel taxation differentials . . . . .	53
5.2.3. Fiscal concessions . . . . .	54
5.2.4. Transport subsidies . . . . .	57
5.3. Regulation and control failures . . . . .	59
5.3.1. Market entry . . . . .	59
5.3.2. Mode availability . . . . .	59
5.3.3. Route choice and traffic direction . . . . .	60
5.3.4. Vehicle design . . . . .	61
5.4. Administrative failures . . . . .	61
5.4.1. Division of responsibility . . . . .	61
5.4.2. Enforcement and monitoring . . . . .	64
5.4.3. Flexibility and responsiveness . . . . .	65

*Chapter 6:*

<b>KEY ISSUES IN RESTRICTING ECONOMIC FAILURES . . . . .</b>	<b>67</b>
6.1. The basic problems . . . . .	67
6.2. Outstanding analytical issues . . . . .	67
6.3. Policy issues . . . . .	69
6.4. International issues and policy . . . . .	72
6.5. Conclusions . . . . .	74

*Annexes*

A1 The Concept of "Social Cost" . . . . .	75
A2 Theoretical examples of intervention failure . . . . .	77
A3 The Relevance of economic instruments where there exists uncertainty about optimal emissions levels . . . . .	83

<b>BIBLIOGRAPHY . . . . .</b>	<b>85</b>
