Foreword	vii
Preface	viii
Acknowledgments	ix
<b>SECTION 1 Human Tendons: Basic Science</b>	<b>1</b>
<b>PART I Tendon Anatomy and Physiology</b>	<b>3</b>
Chapter 1 Anatomical Location of Human Tendons	4
<i>Tendons in the Upper Part of the Body</i>	5
<i>Tendons in the Lower Part of the Body</i>	27
Chapter 2 Structure and Metabolism of Normal Tendons	46
<i>Construction of Human Tendons</i>	46
<i>Collagen Fibers and Other Intercellular Substances</i>	68
<i>Tenoblasts and Tenocytes</i>	76
<i>Blood Supply and Lymphatic Drainage of Tendons</i>	81
<i>Innervation and Mechanoreceptors of Tendons</i>	87
<i>References</i>	90
<b>PART II Biomechanics, Function, and Development of Tendons</b>	<b>97</b>
Chapter 3 Functional and Mechanical Behavior of Tendons	98
<i>Tendon Function</i>	98
<i>Mechanical Properties of Tendons</i>	100
<i>Storage of Elastic Energy in Tendons</i>	106
<i>Contraction and Relaxation of Tendons</i>	106
<i>Biomechanics of Tendon Strains and Ruptures</i>	107
<i>References</i>	111
Chapter 4 Embryonal and Postnatal Development of Tendons and Their Disturbance	114
<i>Embryonal Differentiation and the Development of Tendons</i>	114
<i>Postnatal Differentiation and the Development of Tendons</i>	116
<i>Congenital Anomalies of Tendons</i>	119
<i>References</i>	124
Chapter 5 Effects of Activity and Inactivity on Tendons	127
<i>Effect of Training and Physical Activity on Tendons</i>	127
<i>Effect of Disuse and Immobilization on Tendons</i>	130

<i>Effect of Remobilization and Reconditioning on Tendons</i>	139
<i>Prevention of Immobilization Atrophy</i>	143
<i>Effect of Aging on Tendons</i>	146
<i>Tendon Contracture</i>	149
<i>Paralytic Tendons</i>	151
<i>References</i>	156

<b>SECTION 2 Tendon Pathology: Injuries, Diseases, and Other Disorders</b>	<b>161</b>
<b>PART III Tendon Injuries</b>	<b>163</b>
Chapter 6 Overuse Injuries of Tendons	164
<i>History of Tendon Overuse Injuries</i>	164
<i>Epidemiology of Tendon Overuse Injuries</i>	165
<i>Etiology of Tendon Overuse Injuries</i>	167
<i>Pathophysiology of Tendon Overuse Injuries</i>	178
<i>Clinical Entities and Histological Findings in Tendon Overuse Injuries</i>	184
<i>References</i>	244
Chapter 7 Spontaneous Rupture of Tendons	254
<i>History of Spontaneous Tendon Rupture</i>	254
<i>Epidemiology of Spontaneous Tendon Rupture</i>	255
<i>Anatomic Sites of Spontaneous Tendon Rupture</i>	262
<i>Basic Etiology of Spontaneous Tendon Rupture</i>	273
<i>Histopathological Changes Preceding Spontaneous Rupture of a Tendon</i>	282
<i>Tendon Rupture From External Violence (Nonspontaneous Rupture)</i>	312
<i>References</i>	316
Chapter 8 Effect of Tendon Rupture on Attached Muscles	326
<i>Muscle Atrophy and Intramuscular Fibrosis</i>	326
<i>Alterations in the Myotendinous Junction</i>	334
<i>Muscular Recovery After Tendon Repair</i>	336
<i>References</i>	337
Chapter 9 Tendon Rupture in Animals	340
<i>Tendon Rupture in Wild Animals</i>	340
<i>Tendon Rupture in Domestic Animals</i>	340
<i>References</i>	342
Chapter 10 Short History of Tenotomy	344
<i>Tenotomy in the Domestication of Animals</i>	344
<i>Tenotomy as Penalty</i>	345
<i>Tenotomy in Mythology</i>	345
<i>Tenotomy in Suicides</i>	348
<i>References</i>	348
Chapter 11 Tendon Dislocation	350
<i>Acute Traumatic Dislocation of a Tendon</i>	350
<i>Habitual Dislocation of a Tendon</i>	353
<i>References</i>	353
Chapter 12 Thermal Injuries of Tendons	355
<i>Burn Injuries of Tendons</i>	355
<i>Cold Injuries of Tendons</i>	358
<i>References</i>	358

**Chapter 13 Other Injuries of Tendons** 360

- Tendon Avulsions* 360
- Tendon Strains and Partial Tendon Ruptures* 361
- High Pressure Injection Gun Injuries in Tendons* 367
- Tendon Lacerations* 367
- Tendon Division* 368
- Bite Injuries and Acupuncture-Induced Tendon Complications* 370
- Foreign Bodies in Tendons* 371
- Iatrogenic Injuries of Tendons* 375
- Tendon Injuries in Drug Addicts* 380
- Gunshot Injuries of Tendons* 381
- References* 382

**PART IV Tendon Diseases and Other Tendon Disorders** 389

**Chapter 14 Tendon Alterations in Inherited Diseases** 390

- Ochronosis* 390
- Aspartylglycosaminuria* 391
- Hemochromatosis* 392
- Menke's Kinky Hair Syndrome* 392
- Larsen's Syndrome* 392
- Mucopolysaccharidoses* 393
- Marfan's Syndrome* 393
- Ehlers-Danlos Syndrome* 394
- Osteogenesis Imperfecta* 395
- Glycogenoses* 395
- Lipid Storage Diseases* 396
- Congenital Myopathies and Muscle Dystrophies* 399
- References* 400

**Chapter 15 Tendon Alterations in Endocrinologic and Metabolic Diseases** 403

- Tendon Alterations in Diabetes Mellitus* 403
- Tendon Alterations in Disorders of Adrenocorticotrophic and Adrenocortical Hormone Systems* 404
- Tendon Alterations in Thyroidal and Parathyroidal Diseases* 405
- Tendon Alterations in Amyloidosis* 406
- Tendon Alterations in Renal Diseases* 407
- References* 409

**Chapter 16 Tendon Alterations in Rheumatoid Diseases** 412

- Rheumatoid Arthritis and Tendon Involvement* 412
- Seronegative Spondyloarthropathies* 416
- Primary Fibromyalgia* 418
- Gout* 419
- Pseudogout (Calcium Pyrophosphate Tendinitis)* 420
- Eosinophilic Fasciitis* 421
- L-tryptophan Associated Eosinophilia Myalgia Syndrome* 421
- Other Rheumatoid (Collagen) Diseases With Tendon Affection* 423
- Sarcoidosis* 426
- References* 426

**Chapter 17 Tendon Infections** 430

- Bacterial Infections of Tendons* 430
- Fungal Infections of Tendons* 434
- Viral Infections of Tendons* 435
- Parasitic Infections of Tendons* 436

	<i>Insect Bites and Tendons</i>	437	
	<i>References</i>	438	
Chapter 18	<b>Tumors and Tumorlike Lesions in Tendons</b>		440
	<i>Benign Tumors</i>	440	
	<i>Malignant Tumors</i>	442	
	<i>Metastatic Tumors</i>	443	
	<i>Tumorlike Lesions</i>	447	
	<i>References</i>	448	
Chapter 19	<b>Diseases of Tendons With Unknown Etiologies</b>		450
	<i>Ossifying Tendinopathy</i>	450	
	<i>Generalized Myotendinous Ossification</i>	451	
	<i>Acute Tendinous and Peritendinous Calcification</i>	451	
	<i>Retropharyngeal Calcifying Tendinitis</i>	453	
	<i>References</i>	454	
<b>PART V</b>	<b>Diagnostic and Treatment Principles in Tendon Problems and Tendon Healing</b>		<b>455</b>
Chapter 20	<b>Diagnostic Principles of Tendon Injuries and Other Tendon Disorders</b>		457
	<i>History and Clinical Examination</i>	457	
	<i>Laboratory Findings</i>	460	
	<i>Radiological Methods</i>	461	
	<i>Arthroscopy and Surgery</i>	478	
	<i>Histopathological Methods</i>	478	
	<i>References</i>	483	
Chapter 21	<b>Treatment Principles in Tendon Injuries and Other Tendon Disorders</b>		491
	<i>Treatment of Acute Tendinitis, Peritendinitis, and Tenosynovitis</i>	491	
	<i>Treatment of Acute Insertitis and Bursitis</i>	495	
	<i>Treatment of Chronic Tendinitis, Peritendinitis, and Tenosynovitis</i>	495	
	<i>Treatment of Chronic Insertitis and Bursitis</i>	508	
	<i>Treatment of Tendinosis or Tendon Degeneration</i>	508	
	<i>Treatment of Apophysitis</i>	511	
	<i>Treatment of Complete Tendon Ruptures</i>	512	
	<i>Treatment of Tendon Strains and Partial Tendon Ruptures</i>	514	
	<i>Treatment of Tendon Dislocations</i>	517	
	<i>Treatment of Tendon Infections</i>	520	
	<i>Treatment of Tendon Tumors</i>	520	
	<i>References</i>	521	
Chapter 22	<b>Healing and Regeneration of Tendons</b>		526
	<i>Healing of Tendons</i>	526	
	<i>Autologous Tendon Transplantation (Autografts)</i>	535	
	<i>Homologous Tendon Transplantation (Allografts)</i>	537	
	<i>Heterologous Tendon Transplantation</i>	545	
	<i>Reconstruction of a Tendon With Nonbiological Material (Artificial Tendon)</i>	546	
	<i>Transplantation of Tendon-Tendon Sheath Complexes (Composite Grafts)</i>	547	
	<i>References</i>	548
