The Ecological City: Introduction and Overview

Rutherford H. Platt 1

I Perspectives on Nature in Cities

From Commons to Commons: Evolving Concepts of Open Space in
North American Cities • *Rutherford H. Platt* 21

Design with City Nature: An Overview of Some Issues • *Michael Hough* 40

Sustainability in Urban Ecosystems: Beyond an Object of Study
Orie L. Loucks 49

II Urbanization and Riparian/Aquatic Ecosystems

Sustainability of Urban Wetlands • *Marjorie M. Holland
and Raymond W. Prach* 69

The Des Plaines River Wetlands Demonstration Project: Restoring an
Urban Wetland • *Donald L. Hey* 83

Lake Tahoe: A Microcosm for the Study of the Impact of Urbanization on
Fragile Ecosystems • *Charles R. Goldman* 93

Wetlands in the Urban Landscape of the United States • *James A. Schmid* 106

III Urbanization and Terrestrial Ecosystems

The Deep Significance of Urban Trees and Forests • *John F. Dwyer,
Herbert W. Schroeder, and Paul H. Gobster* 137

Cooling Urban Heat Islands with Sustainable Landscapes

E. Gregory McPherson 151

Wildflower Meadows as Sustainable Landscapes

Jack Ahern and Jestena Boughton 172

The Indiana Dunes: Applications of Landscape Ecology to Urban Park

Management • *Richard Whitman, Daniel B. Fagre, Noel B. Pavlovic,
and Kenneth L. Cole* 188

Rethinking the Urban Park: Rediscovering Urban Solutions

Annaliese Bischoff 203

IV Collaborative Efforts

The Greening of Federal Flood-Control Policies: The Wildcat-San

Pablo Creeks Case • *Ann L. Riley* 217

Reconciling Urban Growth and Endangered Species: The Coachella

Valley Habitat Conservation Plan • *Timothy Beatley* 231

The Metropolitan Portland Urban Natural Resource Program

Joseph Poracsky and Michael C. Houck 251

Ecology Education for City Children • *Karen S. Hollweg* 268

Conclusion

Crosscutting Themes and Recommendations • *Rutherford H. Platt* 277

Notes on the Editors and Authors 287
