# Contents

2.6 Summary  
Appendix  

3 The Houthakker Addilog Utility Function  
3.1 Additivity and its Consequences  
3.2 The Direct Addilog Utility Function and the  
Expenditure Share Functions  
3.3 Indirect Addilog Utility Function and the  
Expenditure Share Functions  
3.4 Elasticities  
3.5 Empirical Remarks  
3.6 Summary  

4 The Rotterdam System of Demand Functions  
4.1 General Features of the Utility Function  
4.2 The "Fundamental Matrix Equation of the Theory  
of Consumer Demand" under "Almost" Additive  
Preferences  
4.3 Demand Equations in Infinitesimal Changes  
4.4 Empirical Remarks  
4.5 Summary  

5 The Constant-Elasticity-of-Substitution Utility Function  
and Its Generalization  
5.1 The Constant-Elasticity-of-Substitution Utility  
Function and its Properties  
5.2 The S-Branch Utility Function and its Properties  
5.3 Empirical Remarks  
5.4 Summary  

6 The Transcendental Logarithmic Utility Function  
6.1 Direct and Indirect Utility Functions and  
Expenditure Shares  
6.2 Properties of the Indirect Utility Function  
6.3 Elasticities  
6.4 The Almost Ideal Demand System  
6.5 Empirical Remarks  
6.6 Summary  
Appendix  

7 The Constant-Elasticity-of-Substitution-Translog Utility  
Function

Contents

7.1 The Function and its Properties 82
7.2 Expenditure Share Functions and Elasticities 84
7.3 Empirical Remarks 85
7.4 Summary 86
Appendix 86

Part II Production Functions 91

8 The Cobb–Douglas Production Function 93
8.1 The Function and its Properties 94
8.2 Factor Intensity 98
8.3 Derived Demand for Productive Factors 102
8.4 Output–Cost Duality and Allen–Uzawa Partial Elasticities of Substitution 104
8.5 The Price Equation 106
8.6 Empirical Remarks 106
8.7 Summary 107

9 The Constant-Elasticity-of-Substitution Production Function 110
9.1 The Function and its Properties 111
9.2 Productivity, Factor Shares of Output, and Factor Intensity 113
9.3 Demand for Inputs 115
9.4 Dual Approach to Production 117
9.5 Empirical Remarks 118
9.6 Summary 120
Appendix 121

10 The Generalized Constant-Elasticity-of-Substitution Production Function 125
10.1 The Partial Elasticity of Substitution 126
10.2 The Unit Cost Function and the Allen–Uzawa Partial Elasticity of Substitution 127
10.3 The $n$-Factor Constant-Elasticity-of-Substitution Production Function, Elasticities of Substitution, and Factor Shares 128
10.4 Empirical Remarks 129
10.5 Summary 130

11 The Two-Level Constant-Elasticity-of-Substitution Production Function 132
Contents

11.1 The Function and its Properties 133
11.2 Intra-class and Inter-class Elasticities of Substitution 134
11.3 Factor-Share Functions 136
11.4 Empirical Remarks 137
11.5 Summary 137

12 The Transcendental Logarithmic Production Function 139
12.1 The Function and its Properties 141
12.2 Duality, Translog Cost Function, Factor-Share Functions, and Elasticities 144
12.3 Empirical Remarks 147
12.4 Summary 151
Appendix 151

13 The Constant-Elasticity-of-Substitution–Translog Production Function 155
13.1 Limitations of the Translog Production Function 155
13.2 The Constant-Elasticity-of-Substitution–Translog Cost Function 157
13.3 Factor-Share Functions and Elasticities 157
13.4 Empirical Remarks 158
13.5 Summary 160
Appendix 160

14 The Leontief Production Function 164
14.1 Input–Output Table 165
14.2 The Output Frontier and the Factor–Price Frontier 168
14.3 The Leontief Production Function 171
14.4 The Leontief Cost Function 173
14.5 Empirical Remarks 174
14.6 Summary 174

15 The Generalized Leontief Production Function 176
15.1 Differences between the Leontief Production Function and the Diewert Production Function 177
15.2 Factor-Share Functions and Elasticities 179
15.3 The Constant-Elasticity-of-Substitution–Generalized Leontief Production Function 179
15.4 Empirical Remarks 180
15.5 Summary 182
Appendices

Appendix A  Monotonicity  185
Appendix B  Concavity and Convexity  185
Appendix C  Homogeneity and Homotheticity  187
Appendix D  Additivity and Separability  188
Appendix E  Four Classical Properties of Consumer Demand  189
Appendix F  The Slutsky Equation: Derivation and Implications  192
Appendix G  Duality between Direct Utility Function and Indirect Utility Function  197
Appendix H  Roy's Identity  199
Appendix I  The Shephard–Samuelson Theorem  200
Appendix J  Shephard's Duality  201
Appendix K  Shephard's Lemma  202
Appendix L  Allen–Uzawa Partial Elasticity of Substitution  203

Epilogue  206

Index  219
List of Figures

1.1 Concave utility function and indifference curve
1.2 Income elasticity
1.3 Engel curves
8.1 Constant returns to scale
8.2 Capital–labor ratios and wage–rental ratios
8.3 Factor intensity (1)
8.4 Factor intensity (2)
8.5 Factor–price ratios and factor intensities
8.6 Relationship between commodity–price ratio and factor–price ratio
9.1 Factor intensity
14.1 Output frontier
14.2 Factor–price frontier
14.3 Leontief isoquant
15.1 Generalized Leontief isoquant
