# List of Figures and Tables

---

Figure 4.1	Simplified model of data and assumptions necessary to meet requirements	49
Figure 5.1	Managerial age structure – numbers in five-year age groups	63
Figure 5.2	Ageing management population	64
Figure 5.3	Management age distribution in a fast-growing young organization	64
Figure 5.4	Age and grade distribution – note the lack of younger men in the middle grades indicates potential succession problems	66
Figure 5.5	Age/grade analysis	67
Figure 5.6	Management age distribution by levels, showing promotion flows	68
Figure 5.7	Age and salary distribution, showing loss analysis	69
Figure 6.1	Ratio-trend graph: ratio of supervisors to field sales force	89
Figure 6.2	Ratio-trend graph: ratio of service engineers to machines in the field	91
Figure 6.3	Ratio-trend graph: ratio of service engineers to machines in the field, by district – note that the variations of ratios are due partly to the length of time the district has been established (i.e. the numbers of older machines) and partly to the spread of the territory and the density of machines	92
Figure 6.4	Ratio-trend graph: ratio of operatives to production	93
Figure 8.1	Current organization – note, clerical and secretarial grades are excluded	127

**viii** *List of Figures and Tables*

Figure 8.2	Organization in two years' time	130
Figure 8.3	Organization in five years' time	131
Figure 8.4	Organization in ten-year projection	132
Figure 9.1	Requirements for managers with indication of sources	149
Figure 9.2	Notes on detailed phasing of forecast	151
Figure 9.3	Extract from a senior management requirement plan prepared as at 1 December 1988	156
Figure 9.4	Industrial engineering inventory of people in three departments	157
Figure 10.1	General view of flows up through an organization	172
Figure 10.2	Flow structure through an apprenticeship scheme	174
Figure 10.3	Career flow structure in research and development	175
Figure 10.4	Flow structure to scale – areas are proportional to numbers	176
Figure 10.5	Internal career flow structure through technical and production	177
Figure 10.6	Age distribution of shift management at grades 4/5	178
Figure 10.7	Age distribution of production managers at grades 8/9	178
Figure 10.8	Flow through levels, from graduate intake to senior management – the high potential stream	186
Figure 13.1	Management training structure	236
Figure 14.1	Retention of graduate intake cohorts	243
Figure 14.2	Deteriorating retention of cohorts of young accountants	244
Figure 16.1	Stratified succession chart	266
Table 6.1	Average sales per salesman	94
Table 10.1	Analysis of manpower movement in an engineering department	179

# List of Examples

---

Example 4.1(a)	Comparison of one candidate against competency specification of a vacancy – prepared using <i>Executive TRACK</i>	46
Example 4.1(b)	Comparison of competency matches – prepared using <i>Executive TRACK</i>	47
Example 5.1	Extract from a monthly head count analysis of a marketing division – prepared using <i>HR/View</i> with data held in <i>Executive TRACK</i> management development planning system	57
Example 5.2	Extract from a qualifications inventory – prepared using <i>HR/View</i> with data held in <i>Executive TRACK</i> management development planning system	59
Example 5.3	Extracts from an analysis of staff turnover	70
Example 8.1	Manpower requirement analysis summarizing the staff required each month for each position in a rapidly growing unit – prepared using <i>HR/View Spreadsheet</i> with forecast data from the business plan	118
Example 8.2	Extract from a divisional manpower requirement forecast – prepared using <i>HR/View Spreadsheet</i> with forecast data from the business plan	119
Example 8.3	Departmental one-year manpower requirement forecast – prepared using <i>HR/View Spreadsheet</i> with forecast data from the business plan	121
Example 8.4	Summary of building group manpower requirements – prepared using <i>HR/View Spreadsheet</i> with forecast data from the business plan	122

x *List of Examples*

Example 8.5	Business plan summary of manpower requirements and remuneration – prepared using <i>HR/View</i> Spreadsheet with forecast data from the business plan	123
Example 8.6	Summary of forecasted management and specialist staff requirements in a construction group – prepared using <i>HR/View</i> Spreadsheet with forecast data from the business plan	134
Example 9.1	Five-year manpower inventory projections of a civil engineering group – prepared using <i>HR/View</i> Spreadsheet with data from the business plan	153
Example 9.2	Extract covering part of a manufacturing unit affected by product and technology change – prepared using <i>HR/View</i> Spreadsheet with forecast data from the business plan	154
Example 9.3	Manpower plan covering skills shift – prepared using <i>HR/View</i> Spreadsheet with forecast data from the business plan	160
Example 9.4	Mid-term revision of manpower plan in example 9.3 – prepared using <i>HR/View</i> Spreadsheet with forecast data from the business plan	161
Example 9.5	Planned shift to higher specifications in a sales team – prepared using <i>HR/View</i> Spreadsheet with forecast data from the business plan	163
Example 9.6	Growth of the sales force in a rapidly expanding company	165
Example 9.7	Forecasts of manpower requirements by grade in a rapidly growing company – prepared using <i>HR/View</i> Spreadsheet with forecast data from the business plan	167
Example 9.8	Analysis of grade distributions within the HQ and divisional legal departments of a group for career planning – prepared using <i>HR/View</i> with data held in <i>Executive TRACK</i> management development planning system	168
Example 10.1	Promotion probability analysis for engineer I level – prepared using <i>HR/View</i> with data held in <i>Executive TRACK</i> management development planning system	180

<b>Example 10.2</b>	<b>Analysis of flows through a research and development department over two years</b>	<b>183</b>
<b>Example 10.3</b>	<b>Analysis of flows through a research and development department showing the impact of career blockage</b>	<b>184</b>
<b>Example 16.1</b>	<b>Management succession plan</b>	<b>270</b>
