<i>Preface</i>	xi
1 INTRODUCTION	1
<i>Kinds of rubber</i>	2
<i>Historical developments</i>	7
<i>The economic framework</i>	14
<i>Institutions and technology</i>	15
<i>The present book</i>	17
2 THE HISTORY OF NATURAL RUBBER	19
<i>Technical developments</i>	19
<i>The practical setting</i>	30
3 THE HISTORY OF SYNTHETIC RUBBER	63
<i>Technical developments</i>	63
<i>The practical setting</i>	69
<i>Synthetic and natural rubbers</i>	91
4 THE PRODUCTION OF SYNTHETIC RUBBER	95
<i>Characteristics</i>	95
<i>The supply of monomers</i>	97
<i>Carbon black</i>	101
<i>Emulsion polymer production</i>	102
<i>Solution polymer production</i>	104
<i>Costs of production</i>	107
<i>Changes in SR supply</i>	111
5 OTHER ASPECTS OF SYNTHETIC RUBBER	115
<i>Geographical location</i>	115
<i>Organizational structure</i>	118
<i>Government intervention</i>	120

FIGURES

1.1	World locations of oil and natural gas production, and of rubber production and manufacturing, early 1990s	3
1.2	Index numbers of natural rubber, synthetic rubber, crude (petroleum) oil and combined commodities prices, 1900-92	10
1.3	World production and stocks of natural and synthetic rubber, 1900-92	11
1.4	The economic framework of the rubber industry	15
3.1	Synthetic rubber feedstock prices, and natural rubber and synthetic rubber prices and production, 1970-92	87
4.1	Emulsion styrene-butadiene plant	103
4.2	Solution polybutadiene plant	105
6.1	Mature rubber tree with tapping panel; and budgrafting a young seedling	145
6.2	Tapping a budgrafted tree	148
6.3	Crumb natural rubber plant	151
6.4	Ribbed smoked sheet plant	153
8.1	An internal mixer	198
8.2	A calender	200
8.3	A screw extruder	201
8.4	Moulds	202
8.5	A radial-ply tubeless tyre	204
8.6	Moulding tyres	211
11.1	Daily prices of natural rubber grades, Kuala Lumpur, January-March, 1992	268
11.2	Price bands, reference price, and quarterly average DMIPs, 1980-92	274

TABLES

1.1	Uses of rubber	1
1.2	Per capita rubber consumption, 1990	2
1.3	Major rubbers and their production, 1990	6
1.4	Vehicles in use and production of tyres, 1910–90	8
1.5	SR and NR consumption by the tyre and general rubber goods sectors, selected countries, 1950–91	12
2.1	Specifications of significant NRs	24
2.2	Features of the principal rubbers	26
2.3	Production of NR, 1900–91	31
2.4	Planted areas of NR, 1910–89	34
2.5	Consumption of NR and SR, 1900–91	40
2.6	Wages of estate and rural workers in Malaysia, Indonesia, and Thailand, 1920–90	44
2.7	Shares of chief rubbers in total world production, 1963–90	49
2.8	Major grades of NR consumed by world regions, 1981–90	54
2.9	Major grades of NR exported by principal producing countries, 1985–90	57
2.10	NR and SR trade of selected NR-producing countries, 1960–90	59
3.1	Properties and world production capacities of TPEs and small-tonnage special purpose SRs, 1976–90	64
3.2	Production of the major SRs, 1940–50	71
3.3	Production of SR, 1940–91	75
3.4	Productive capacities of the major SRs, 1963–90	76
3.5	SR trade of selected SR-producing countries, 1950–90	80
3.6	Measures protecting SR and tyres in selected countries, 1960–91	83
3.7	Shares of the chief SRs in total world production capacity, 1963–90	85
4.1	Co-product yields from thermal cracking	98
4.2	Costs of producing major SRs, Western Europe, early 1990s	108
4.3	Average annual unit values of principal rubbers, France, 1980–91	109
4.4	Average annual list prices of SBR and BR, Germany, 1980–90	109

TABLES

5.1	Interest rates and labour and energy costs, selected countries, 1980-89	116
5.2	Crude petroleum and natural gas position, major regions, 1986-88	122
5.3	Structure of the SR sector, Western Europe, 1990	124
5.4	Gross exports and net imports of SR, 1950-90	128
6.1	Costs of making NR, early 1990s	155
6.2	Average annual prices of TSR 20 and RSS 3, London, 1980-91	158
7.1	General economic situation of selected rubber-producing countries, 1990	168
7.2	Activities of Malaysian plantation companies, 1991-92	170
7.3	NR trade of selected countries, 1990	176
8.1	Rubber contents of tyres	206
9.1	Regional shares of rubber consumption, 1900-91	215
9.2	GNP and motor vehicle details, selected countries, 1990	217
9.3	Production of motor vehicles, 1990	218
9.4	The six leading tyre manufacturers of the world, 1979-91	222
9.5	Global operations of the tyre multinationals, 1990	223
9.6	Share of the United States in world tyre production	225
9.7	Exports and imports of tyres and tubes, selected countries, 1980-90	226
9.8	Ranking of the top tyre exporting countries, 1964-89	229
9.9	Ranking of the top tyre importing countries, 1964-89	230
9.10	Relative export orientation of tyre-producing countries, selected years	231
9.11	Indices of participation in intra-industry tyre trade, selected countries, 1965-89	232
9.12	Consumption of rubber in the general rubber products sector, selected countries, 1960-91	238
9.13	Production of tyres in selected countries, 1980-90	239
10.1	Ranking of the top SR exporting countries	245
10.2	Ranking of the top SR importing countries	246
10.3	Exports of SR and NR, 1970-92	248
10.4	Indices of participation in intra-industry SR trade, selected countries, 1960-90	249
10.5	United States SR trade, 1978-90	250
10.6	Directions of NR exports from major exporting countries, 1965-90	253
10.7	Indices of NR import unit values of tyre-producing countries, 1965-89	257
11.1	INRA buffer stock costs, 1980/81-1991	276
A.1	Production, consumption and stocks of SR and NR, 1960-91	298
A.2	Annual average exchange rates of selected countries, 1950-91	300
A.3	Production of NR, 1900-91	302
A.4	Production of SR, 1933-91	309
