Tables

| | | |
|------|--|-----|
| 2.1 | Administrative terminals in the Netherlands | 24 |
| 2.2 | The installed robots in 18 OECD countries, 1985 | 26 |
| 2.3 | Microelectronics use by industry, 1983 | 30 |
| 2.4 | Adoption of IT affecting manual workers by size of establishment | 33 |
| 2.5 | Adoption of IT affecting non-manual workers by size of establishment | 34 |
| 2.6 | Computer linkage rates by industrial activity: UK services | 36 |
| 2.7 | PC use in German services | 37 |
| 2.8 | Sectoral variations in computer diffusion, use and employment | 38 |
| 3.1 | Network digitalization in EU member states, 1987 | 44 |
| 5.1 | ATM and EFTPoS in Europe, 1988 | 84 |
| 5.2 | EPoS systems in UK, France, West Germany and Italy, 1989 | 86 |
| 5.3 | No. of retail scanning outlets in EU member states, 1991 | 87 |
| 6.1 | Percentages of 16-18 year olds in education and training (full-time and part-time) in Europe, 1986 | 99 |
| 6.2 | Numbers qualifying in engineering and technology, 1985 | 101 |
| 7.1 | Students in IT related degree and postgraduate degree courses in the EU | 120 |
| 7.2 | Women's training and the European Social Fund, 1987 | 122 |
| 7.3 | Task force education and training programmes, 1986-1993 | 123 |
| 8.1 | Regional disparities for member states and Level 2 Regions of the EU | 137 |
| 8.2 | IT workers employed in the Greek civil service | 141 |
| 8.3 | Growth of IT electronics production in Ireland, 1984-1990 | 146 |
| 8.4 | Electronics industry in Ireland: workforce size and occupational distribution, 1985 | 147 |
| 8.5 | Occupational structure of the Irish electronics industry, 1985 | 148 |
| 9.1 | Occupational and industrial constitution of British Labour Force | 160 |
| 9.2a | Occupational distribution of computer use | 161 |
| 9.2b | Computer users by industrial sector | 162 |

Tables

vii

| | | |
|------|--|-----|
| 10.1 | Risks in the working environment, France 1984 | 182 |
| 10.2 | Trends in physical hazards, France 1978-1984 | 183 |
| 10.3 | Research results on technological change and stress | 184 |
| 10.4 | Perceived effects of technological change, 1982 | 187 |
| 10.5 | Comparative data on attitudes to IT, 1985 | 188 |
| 11.1 | Unions and IT in Europe | 200 |
| 11.2 | Intentions on worker involvement | 207 |
| 11.3 | Influences on union involvement in technological decisions | 212 |

Figures

| | | |
|------|--|-----|
| 2.1 | Key features of new information technology | 18 |
| 2.2 | Size of markets for software and computer services | 20 |
| 2.3 | Size of IT markets and IT labour force | 20 |
| 2.4 | Technological change in office activities | 22 |
| 2.5 | Diffusion stages of IT capital goods in manufacturing | 28 |
| 3.1 | The main types of value added services | 47 |
| 3.2 | Private networks | 48 |
| 3.3 | Computer professional work roles | 49 |
| 4.1 | Extent of microelectronics use in products and processes | 56 |
| 4.2 | Adoption of IT in European factories by size of firm | 57 |
| 4.3 | Microelectronics in European industry | 58 |
| 4.4 | Organizational characteristics of implementation and use of AMT | 61 |
| 6.1 | Outline model of the general structure of VET systems | 98 |
| 9.1 | IT and working conditions in Finland, early 1980s | 156 |
| 9.2 | Work organization strategies in three countries, to the early 1980s | 158 |
| 9.3 | Occupational groups and industrial types | 164 |
| 11.1 | Centralization, unionization and the level of bargaining | 197 |
| 11.2 | Modes of participation | 205 |
