

Jansen: The Case of High- T_c Superconductors	3
---	---

Contents*

Abstract	2
1. Introduction: The discovery of high- T_c superconductors	5
2. An outline of the general approach: Policy networks and their adaption to change	7
3. HTS: Changes in scientific and technological paradigms	12
4. Identification of the superconductivity policy network	18
5. The policy formation: Defining an HTS funding programme	23
5.1 The reaction of the established policy network	23
5.2 The challenge of the established superconductivity network	28
6. The transformation of the policy network: Compromise on the funding priorities and the emergence of an HTS industry consortium	34
7. Summary and perspectives	38
