| PREFACE | 7 |
| 1. THE OECD MAP EMISSION INVENTORY | 9 |
| 1. <u>Method and Assumptions of Inventory Preparation</u> | 9 |
| 1.1 Pollutants in the Inventory | 9 |
| 1.2 Emission Source Categories | 10 |
| 1.3 Use of Emission Factors | 10 |
| 1.4 Gridded Emission Data | 11 |
| 1.5 Power Plant Data | 11 |
| 1.6 Verification of the Emission Data | 11 |
| 2. <u>Description of the OECD European Emission Data Base for 1980</u> | 11 |
| 2.1 Emissions by Source Sector | 14 |
| 2.2 Spatially Distributed Emissions | 14 |
| 2.3 Emissions from Power Plants | 15 |
| 2. EMISSIONS REDUCTION TECHNOLOGIES AND THEIR COSTS | 17 |
| 1. <u>Method and Assumptions of Cost Calculations</u> | 17 |
| 2. <u>Discussion of Cost-Effectiveness of Available Emissions Reduction Technologies</u> | 20 |
| 3. <u>Limitations of the Cost Analysis and Needs for Further Work</u> | 23 |
| 3. PHOTOCHEMICAL OXIDANT EPISODES | 24 |
| 1. <u>Occurrence of Photochemical Oxidant Episodes in Europe</u> | 24 |
| 2. <u>Characteristics of Large-Scale Photochemical Oxidant Episodes</u> | 24 |
| 3. <u>The OXIDATE Network</u> | 25 |
| 4. <u>Identification of Large-Scale Ozone Episodes Between 1980 and 1987</u> | 25 |
| 5. <u>Description of Photo-Oxidant Episodes Selected for Long-Range Transport Modeling</u> | 27 |
| 5.1 The "PHOXA" Episode (22-26 July 1980) | 28 |
| 5.2 The "CEC" Episode (29 May - 2 June 1982) | 28 |
| 5.3 The "OECD" Episode (3-6 June 1982) | 29 |
| 5.4 Comparison and Representativeness of the Three Episodes | 29 |
| 4. LONG-RANGE TRANSPORT MODELS FOR PHOTOCHEMICAL OXIDANTS | 30 |
| 1. <u>Description of Available Long-Range Transport Models</u> | 30 |
| 1.1 The SAI RTM III Episodic Model | 30 |
| 1.2 The Norwegian Trajectory Model | 31 |
| 1.3 The UK Trajectory Model | 32 |
| 2. <u>Model Comparison and Their Limitations</u> | 33 |
| 5. METEOROLOGICAL DATA | 34 |
| 1. <u>Meteorological Observations in Europe and Long-Range Transport Model Requirements</u> | 34 |
| 2. <u>Preparation of Meteorological Model Input Data</u> | 34 |
| 3. <u>Description of the Meteorological RTM III Model Input Data for the "OECD" Episode (3-6 June 1982)</u> | 35 |

| | |
|---|----|
| 6. ASSESSMENT OF MODEL PERFORMANCE | 37 |
| 1. <u>Definition of Terms</u> | 37 |
| 2. <u>Sensitivity Analyses and Verification of Different Submodels</u> | 37 |
| 3. <u>Model Evaluation</u> | 40 |
| 3.1 Evaluation of the SAI RTM III | 41 |
| 3.2 Evaluation of the Norwegian Trajectory Model | 43 |
| 4. <u>Confidence in Model Results</u> | 43 |
| 7. CONSTRUCTION OF EUROPEAN-SCALE EMISSIONS REDUCTION SCENARIOS | 44 |
| 1. <u>Selection of Emissions Reduction Scenarios and Their Representativeness</u> | 44 |
| 2. <u>Description of Different Emissions Reduction Scenarios and Their Costs</u> | 45 |
| 3. <u>Comparison of the Costs and Cost-Effectiveness of Emissions Reduction Scenarios</u> .. | 49 |
| 8. EVALUATION OF EMISSION REDUCTION SCENARIOS IN LONG-RANGE TRANSPORT MODELS | 51 |
| 1. <u>Method of Scenario Evaluation</u> | 51 |
| 2. <u>The SAI RTM III Episodic Model</u> | 51 |
| 2.1 Preparation of Model Input Data for the Control Scenarios Run with the SAI RTM III | 52 |
| 2.2 Results of Scenario Evaluation with the SAI RTM III | 53 |
| 3. <u>The Norwegian Trajectory Model</u> | 54 |
| 3.1 Preparation of Model Input Data for the Control Scenarios Run with the Norwegian Trajectory Model | 54 |
| 3.2 Results of Scenario Evaluation with the Norwegian Trajectory Model | 55 |
| 4. <u>The UK Trajectory Model</u> | 57 |
| 4.1 Preparation of Model Input Data for the Control Scenarios Run with the UK Trajectory Model | 57 |
| 4.2 Results of Scenario Evaluation with the UK Trajectory Model | 57 |
| 5. <u>General Conclusions from the Model Experiments</u> | 58 |
| 9. PHOTOCHEMICAL OXIDANTS IN A WIDER CONTEXT | 61 |
| 1. <u>Effects of Ground-Level Ozone on Human Health and the Environment</u> | 61 |
| 2. <u>Relationship of Large-Scale Ozone Episodes with Other Ozone Problems</u> | 62 |
| 2.1 Free Tropospheric Ozone | 62 |
| 2.2 Stratospheric Ozone | 62 |
| 2.3 Local Formation of Ozone | 63 |
| 3. <u>Relationship of Ozone with Other Atmospheric Problems</u> | 63 |
| 3.1 Climatic Effects | 63 |
| 3.2 Effects on the Atmosphere's Oxidation Capacity | 63 |
| 3.3 Effects on Acid Deposition | 64 |
| 10. CONCLUSIONS AND RECOMMENDATIONS | 65 |
| 1. <u>Technical and Policy Conclusions</u> | 65 |
| 2. <u>Recommendations for Further Study</u> | 67 |
| NOTES | 68 |
| BIBLIOGRAPHY | 69 |
| ANNEX - TABLES AND FIGURES | 79 |
