

## TABLE OF CONTENTS

	<u>Page</u>
<b>Chapter I</b>	
INTRODUCTION .....	13
I.1. Problem identification .....	13
I.2. Scope and purpose .....	16
I.3. Road safety of urban transport and traffic systems .....	18
I.3.1. A descriptive framework for the road safety of transport and traffic systems in urban areas .....	18
I.3.2. Effects on traffic safety of changes in the layout and design of a road network .....	21
I.3.3. Effects on traffic safety of changes in traffic flows .....	22
I.3.4. Summary .....	23
I.4. Structure of the report .....	24
References .....	25
<b>Chapter II</b>	
THE CONCEPT OF INTEGRATION .....	29
II.1. An outline .....	29
II.2. From initiative to decisions .....	31
II.2.1. Local policy and decision-making .....	31
II.2.2. Assessment of traffic safety targets .....	32
II.2.3. Goal setting .....	34
II.3. From planning to reality .....	35
II.3.1. Design of an integrated programme .....	35
II.3.2. Operations and implementation .....	36
II.3.3. Evaluation .....	36
References .....	36
<b>Chapter III</b>	
CURRENT PRACTICE .....	39
III.1. Introduction .....	39
III.2. Summaries of case studies .....	39
III.2.1. Individual schemes .....	39
III.2.2. Classification of schemes .....	43
III.3. Evidence of integration process in current practice ..	45
III.3.1. Initiation of schemes .....	45
III.3.2. Integrated diagnosis .....	47
III.3.3. Defining objectives .....	48

III.3.4. Design of integrated programmes .....	49
III.3.5. Operations and implementation .....	52
III.3.6. Evaluation .....	52
III.4. General evaluation .....	53
III.4.1. Between stages of process .....	53
III.4.2. Extent and effect of integration .....	53
III.4.3. General conclusions .....	54
References .....	56

## Chapter IV

CONDITIONS FOR INTEGRATION .....	57
IV.1. Introduction .....	57
IV.2. Difference between integrated and non-integrated structures .....	57
IV.3. Who might be involved in the integrated process? .....	60
IV.3.1. Description of actors .....	60
IV.3.2. Description of sectors .....	60
IV.3.3. Description of the task-actor-activity matrix ..	61
IV.4. Types of linkages required to support integrated planning .....	61
IV.5. Other conditions likely to effect the integrated process .....	66
IV.6. Conclusions .....	67

## Chapter V

INFORMATION TRANSFER .....	69
V.1. The needs for information .....	69
V.2. The possible sources of information .....	70
V.3. The channels for information transfer .....	71
V.4. Conclusions .....	74
References .....	74

## Chapter VI

METHODOLOGIES AND TECHNICAL TOOLS .....	75
VI.1. Introduction .....	75
VI.2. Triggering problem analysis and action .....	76
VI.3. Diagnosis .....	77
VI.4. Goal setting .....	78
VI.5. Programme design and implementation .....	79
VI.6. Evaluation .....	80
VI.6.1. Evaluation of integrated programmes .....	80
VI.6.2. Evaluation of the integration procedure .....	82
VI.7. Conclusions .....	83
References .....	84

Chapter VII

CONCLUSIONS AND RECOMMENDATIONS .....	89
VII.1. Conclusions .....	89
VII.2. Recommendations .....	91

Appendix:

Expanded accounts of a sample of case studies .....	93
Illustrations of principles .....	107
LIST OF GROUP MEMBERS .....	119
