Local autonomy, revenues, and cross-regional equity	169
A basic norm for assistance?	171
Notes	176

Chapter 7

Summary and Conclusions

Labour market policies and unemployment benefits	180
Pensions	181
Family allowances	183
The safety net	183
Conclusion	185
Bibliography	187

List of Tables

Chapter 1

1.1. Composition of social expenditures as a percentage of GDP, Hungary and selected OECD countries	14
1.2. Revenues by type of taxation, Hungary and selected OECD countries	21
1.3. Population by sex and age group, 1960-2020	27

1.4.	Minimum subsistence level for different household types	30
1.5.	Various measures of poverty in Hungary	31

Chapter 2

2.1	Recent economic developments and labour market indicators	39
2.2a	Participation rates in Hungary, 1970-90	41
2.2b	Participation rates in Hungary and selected OECD countries	42
2.3	Labour force and employment changes in the transition, 1989-93	43
2.4	Employment adjustments in industry	45
2.5	Structural change in employment, 1992-93	47
2.6	Indicators of growth in the number of enterprises in Hungary	48
2.7	Unemployment trends in Hungary	51
2.8	Unemployment characteristics of vulnerable groups in Hungary	54
2.9	Exit probabilities for the unemployed, 1992	58
2.10	Imbalances among local labour markets	60
2.11	The turnover of the unemployment pool in Hungary and selected OECD countries, 1993	62
2.12	Labour market transitions	63
2.13	Labour market transitions for those who changed their status	64

Chapter 3

3.1	The unemployment benefit system in Hungary, 1990-93	77
3.2	Replacement rates for different levels of previous earnings and lengths of unemployment spell, Hungary and selected OECD countries	78
3.3	Employment office networks, staff members, and indicators of work load	82
3.4	Expenditures for labour market policies, 1990-93	84

Chapter 4

4.1	Expenditures on old-age, survivor and disability pensions in Hungary and selected OECD countries, 1980-93	98
4.2	The composition of changes in pension expenditures, 1970-93	101
4.3	Developments in pension expenditures, 1970-93	103
4.4	Old-age pension rules in brief, 1994	105
4.5	Age of entitlement to full pension benefits in OECD countries, by sex, 1994	106
4.6	Life expectancy at selected ages, 1970 and 1991	107
4.7a	Number of new pensioners, 1990-93	109
4.7b	Disability pension inflows, by sector, 1968-91	109
4.8	Estimated actuarial reductions for early retirement in Hungary	112
4.9	Trends in years of service among new pensioners, by sex, 1980-92	114
4.10	Changes in the replacement factors in the benefit formula in 1993	120
4.11	Average pension amounts: new entrants compared to the stock of pensioners, 1991 and 1992	122
4.12a	Distribution of pensioners by benefit amount, July 1992	126
4.12b	Distribution of pensioners by benefit amount, March 1994	126

Chapter 5

5.1	Expenditures (actual to 1993, budgeted for 1994) on various transfers relating to children and child care	137
5.2	Family allowances and child care subsidies, 1970-94	138
5.3	Structure of family allowances, 1980-93	139
5.4	Family allowances as a percentage of average full-time earnings, Hungary and selected OECD countries	140
5.5	Share of family allowances in total household income by decile, 1992/93	142
5.6	Distribution of households by number of children and income decile, 1992/93	143

Chapter 6

6.1	Eligibility criteria and benefits levels, as laid down in the Social Act	163
6.2	Normative support of local government social expenditure	172
6.3	Normative state support of non-government institutions	174
