
Contents in Brief

1	Managerial Accounting—A Perspective	1
---	-------------------------------------	---

PART I

THE FOUNDATION Cost Terms, Cost Behavior, and Systems Design

2	Cost Terms, Concepts, and Classifications	24
3	Systems Design: Job-Order Costing	64
4	Systems Design: Process Costing	127
5	Cost Behavior: Analysis and Use	164

PART II

THE CENTRAL THEME Planning and Control

6	Cost-Volume-Profit Relationships	206
7	Segmented Reporting and the Contribution Approach to Costing	252
8	Profit Planning	304
9	Standard Costs and JIT/FMS Performance Measures	359
10	Flexible Budgets and Overhead Analysis	408
11	Control of Decentralized Operations	451

PART III
THE CAPSTONE
Using Cost Data in Decision Making
.....

12	Pricing of Products and Services	504
13	Relevant Costs for Decision Making	543
14	Capital Budgeting Decisions	593
15	Further Aspects of Investment Decisions	655

PART IV
SELECTED TOPICS FOR FURTHER STUDY
.....

16	Service Department Cost Allocations	690
17	“How Well Am I Doing?” Statement of Cash Flows	720
18	“How Well Am I Doing?” Financial Statement Analysis	764
	Index	807

1 Managerial Accounting—A Perspective

Organizations and Their Objectives	2
Setting Objectives	2
Strategic Planning	3
The Work of Management	4
The Planning and Control Cycle	5
Organizational Structure	6
Decentralization	6
Line and Staff Relationships	7
The Controller	8
Basic Similarities among Organizations	10
The Manager's Need for Information	10
Accounting Information	11
Information Must Be in Summary Form	12

PA

THE FOU

Cost Terms, Cost Beha

2 Cost Terms, Concepts, and Classification

General Cost Classifications	25
Manufacturing Costs	25
Nonmanufacturing Costs	27
Period Costs	28
Product Costs	29
Cost Classifications on Financial Statements	29
The Income Statement	30

Comparison of Financial and Managerial Accounting	12
Differences between Financial and Managerial Accounting	12
Similarities between Financial and Managerial Accounting	15
Expanding Role of Managerial Accounting	15
Increased Needs for Information	15
The Certified Management Accountant (CMA)	17
Summary	17
Key Terms for Review	18
Questions	19
Problems	20

PART I

FOUNDATION

Behavior, and Systems Design

.....	24
.....	
The Balance Sheet	31
Product Costs—A Closer Look	31
Just-In-Time (JIT) Inventory Systems	35
The JIT Concept	35
Key Elements in a JIT System	36
Benefits of a JIT System	37
Expansion of the JIT Concept	37

Flexible Manufacturing Systems and JIT	38
Costs for Planning, Control, and Decision Making	39
Variable and Fixed Costs	39
Direct and Indirect Costs	41
Controllable and Noncontrollable Costs	42
Differential Costs	42
Opportunity Costs	43

3 Systems Design: Job-Order Costing

The Need for Unit Cost Data	65
Types of Costing Systems	66
Process Costing	66
Job-Order Costing	66
Summary of Costing Methods	67
Job-Order Costing—An Overview	67
Measuring Direct Materials Cost	67
Job Cost Sheet	68
Measuring Direct Labor Cost	69
Application of Manufacturing Overhead	70
What Drives Overhead Cost?	72
Computation of Unit Costs	73
Summary of Document Flows	73
Job-Order Costing—The Flow of Costs	73
The Purchase and Issue of Materials	75
Labor Cost	76
Manufacturing Overhead Costs	77
The Application of Manufacturing Overhead	78
Nonmanufacturing Costs	80
Cost of Goods Manufactured	81
Cost of Goods Sold	82
Summary of Cost Flows	82
Problems of Overhead Application	85

4 Systems Design: Process Costing

Comparison of Job-Order and Process Costing	128
Similarities between Job-Order and Process Costing	128
Differences between Job-Order and Process Costing	129
A Perspective of Process Cost Flows	129

Sunk Costs	44
Summary	44
Review Problem on Cost Terms	45
Key Terms for Review	46
Appendix Further Classification of Labor Costs	47
Questions	49
Exercises	50
Problems	53
Cases	61

64

The Concept of Underapplied and Overapplied Overhead	85
Disposition of Under- or Overapplied Overhead Balances	86
A General Model of Product Cost Flows	88
Job-Order Costing in Service Companies	88
Activity-Based Costing	90
Level One: Plantwide Overhead Rate	90
Level Two: Departmental Overhead Rates	91
Level Three: Activity-Based Costing	91
An Example of Activity-Based Costing	92
Summary of Activity-Based Costing	95
The Impact of JIT Inventory Methods	95
Summary	96
Key Terms for Review	96
Appendix Cost Flows in a JIT System	97
Key Terms for Review (Appendix)	99
Questions	100
Exercises	101
Problems	106
Cases	122

127

Processing Departments	129
The Flow of Materials, Labor, and Overhead Costs	130
Equivalent Units of Production	131
Weighted-Average Method	133
FIFO Method	134
Comparison of the Weighted-Average and FIFO Methods	135

Visual Perspective of Equivalent Units	136
Production Report—	
Weighted-Average Method	136
Step 1: Prepare a Quantity Schedule and Compute the Equivalent Units	138
Step 2: Compute the Unit Costs	139
Step 3: Prepare a Cost Reconciliation	139
Production Report—FIFO Method	142
Step 1: Prepare a Quantity Schedule and Compute the Equivalent Units	142
Step 2: Compute the Unit Costs	143
Step 3: Prepare a Cost Reconciliation	143

5 Cost Behavior: Analysis and Use

Types of Cost Behavior Patterns	165
Variable Costs	165
True Variable versus Step-Variable Costs	167
The Linearity Assumption and the Relevant Range	169
Fixed Costs	170
The Trend toward Fixed Costs	171
Types of Fixed Costs	171
Fixed Costs and the Relevant Range	173
Mixed Costs	174
The Analysis of Mixed Costs	175
The High-Low Method	176
The Scattergraph Method	177
The Least-Squares Method	180
The Use of Judgment in Cost Analysis	183

6 Cost-Volume-Profit Relationships

The Basics of Cost-Volume-Profit (CVP) Analysis	207
Contribution Margin	207
Contribution Margin Ratio (CM Ratio)	209

A Comparison of Production Report Content	145
Evaluation of the Weighted-Average and FIFO Methods	145
A Comparison of Costing Methods	146
JIT Inventory Methods and Process Costing	146
Innovations in Costing Systems	148
Operation Costing	148
Flexible Manufacturing Systems	149
Summary	149
Key Terms for Review	150
Questions	151
Exercises	152
Problems	155
Cases	163

164

Multiple Regression Analysis	183
Engineering Approach to Cost Study	183
The Contribution Format	184
Why a New Income Statement Format?	184
The Contribution Approach	185
Summary	185
Review Problem on Cost Behavior	186
Key Terms for Review	187
Appendix Alternative Approach to Least Squares	188
Questions	189
Exercises	190
Problems	193
Cases	200

PART II

GENERAL THEME and Control

.....

206

Cost Structure	210
Operating Leverage	212
Some Applications of CVP Concepts	213

Importance of the Contribution Margin	217
Break-Even Analysis	218
Break-Even Computations	218
CVP Relationships in Graphic Form	219
Target Net Profit Analysis	224
The Margin of Safety (MS)	225
Automation and CVP Analysis	226
Structuring Sales Commissions	226
The Concept of Sales Mix	228
The Definition of Sales Mix	228

7 Segmented Reporting and the Contribution

Segmented Reporting	253
Differing Levels of Segmented Statements	254
Assigning Costs to Segments	254
Sales and Contribution Margin	254
The Importance of Fixed Costs	256
Traceable and Common Fixed Costs	256
Identifying Traceable Fixed Costs	257
Traceable Costs Can Become Common Costs	257
Segment Margin	258
Breakdown of Traceable Fixed Costs	260
Common Fixed Costs	260
Varying Breakdowns of Total Sales	261
Sales Segmented by Products and Territories	261
Inventory Valuation under the Contribution Approach—Direct Costing	264
Direct Costing	265
Absorption Costing	265
Unit Cost Computations	265

8 Profit Planning

The Basic Framework of Budgeting	305
Definition of Budgeting	305
Personal Budgets	305
Difference between Planning and Control	306
Advantages of Budgeting	306
Responsibility Accounting	307
Choosing a Budget Period	308
The Self-Imposed Budget	308

Sales Mix and Break-Even Analysis	228
Sales Mix and per Unit Contribution Margin	230
Limiting Assumptions in CVP Analysis	230
Summary	231
Key Terms for Review	231
Questions	232
Exercises	233
Problems	236
Cases	248

Contribution Approach to Costing **252**

The Controversy over Fixed Overhead Cost	267
Comparison of Absorption and Direct Costing	267
The Definition of an Asset	269
Extended Comparison of Income Data	271
Sales Constant, Production Fluctuates	273
CVP Analysis and Absorption Costing	275
External Reporting and Income Taxes	276
Advantages of the Contribution Approach	276
Impact of JIT Inventory Methods	277
Summary	278
Review Problem on Absorption and Direct Costing	278
Key Terms for Review	280
Questions	280
Exercises	281
Problems	286
Cases	301

304

The Matter of Human Relations	310
The Budget Committee	311
The Master Budget—A Network of Interrelationships	311
Sales Forecasting—A Critical Step	312
Preparing the Master Budget	313
The Sales Budget	313
The Production Budget	314

Inventory Purchases—Merchandising Firm	315
The Direct Materials Budget	315
The Direct Labor Budget	317
The Manufacturing Overhead Budget	317
Ending Finished Goods Inventory Budget	318
The Selling and Administrative Expense Budget	318
The Cash Budget	319
The Budgeted Income Statement	320
The Budgeted Balance Sheet	322

9 Standard Costs and JIT/FMS Performance

Standard Costs—Management by Exception	360
Who Uses Standard Costs?	360
Setting Standard Costs	361
Ideal versus Practical Standards	361
Setting Direct Materials Standards	362
Setting Direct Labor Standards	363
Setting Variable Overhead Standards	364
Are Standards the Same as Budgets?	364
A General Model for Variance Analysis	364
Price and Quantity Variances	365
Using Standard Costs—Direct Material Variances	366
Materials Price Variance—A Closer Look	366
Materials Quantity Variance—A Closer Look	368
Using Standard Costs—Direct Labor Variances	369
Labor Rate Variance—A Closer Look	370
Labor Efficiency Variance—A Closer Look	371
Using Standard Costs—Variable Overhead Variances	371

10 Flexible Budgets and Overhead Analysis

Flexible Budgets	409
Characteristics of a Flexible Budget	409

Expanding the Budgeted Income Statement	323
JIT Purchasing	324
Zero-Base Budgeting	326
The Need for Further Budgeting Material	327
Key Terms for Review	327
Appendix Economic Order Quantity and the Reorder Point	328
Key Terms for Review (Appendix)	335
Questions	335
Exercises	336
Problems	339
Cases	354
Performance Measures	359
Overhead Variances—A Closer Look	372
Variance Analysis and Management by Exception	373
Performance Measures in an Automated Environment	375
Standard Costs and Automation	375
New Performance Measures	375
Quality Control Measures	377
Material Control Measures	377
Inventory Control Measures	377
Machine Performance Measures	378
Delivery Performance Measures	378
Use in a Nonautomated Environment	380
Summary	381
Review Problem on Standard Costs	382
Key Terms for Review	383
Appendix General Ledger Entries to Record Variances	385
Questions	386
Exercises	387
Problems	391
Cases	404
	408
Deficiencies of the Static Budget	409
How the Flexible Budget Works	411

The Measure of Activity—A Critical Choice	413
The Overhead Performance Report—A Closer Look	414
The Problem of Budget Allowances	414
Spending Variance Alone	415
Both Spending and Efficiency Variances	416
Fixed Costs and the Flexible Budget	418
Fixed Overhead Analysis	419
Flexible Budgets and Overhead Rates	419
Overhead Application in a Standard Cost System	421
The Fixed Overhead Variances	421
11 Control of Decentralized Operations	
Responsibility Accounting	452
The Functioning of the System	452
The Flow of Information	453
Expanding the Responsibility Accounting Idea	455
The Benefits of Decentralization	457
Investment, Profit, and Cost Centers	458
Measuring Management Performance	460
Rate of Return for Measuring Managerial Performance	460
The Return on Investment (ROI) Formula	461
Net Operating Income and Operating Assets Defined	462
Plant and Equipment: Net Book Value or Gross Cost?	463
Controlling the Rate of Return	464
Increase Sales	465
Reduce Expenses	465
Reduce Operating Assets	466
The Problem of Allocated Expenses and Assets	467
Criticisms of ROI	467
The Concept of Residual Income	468

The Budget Variance—A Closer Look	422
The Volume Variance—A Closer Look	423
Graphic Analysis of Fixed Overhead Variances	424
Cautions in Fixed Overhead Analysis	425
Presentation of Variances on the Income Statement	425
Review Problem on Overhead Analysis	427
Key Terms for Review	429
Questions	429
Exercises	430
Problems	434
Cases	448

451

Motivation and Residual Income	468
Divisional Comparison and Residual Income	469
Transfer Pricing	470
The Need for Transfer Prices	470
Transfer Prices at Cost	471
A General Formula for Computing Transfer Prices	473
Transfers at Market Price: General Considerations	474
Transfers at Market Price: Well-Defined Intermediate Market	475
Transfers at Market Price: Price Changes in the Intermediate Market	477
Transfers at Negotiated Market Price	479
Divisional Autonomy and Suboptimization	480
Summary	480
Review Problem on Transfer Pricing	481
Key Terms for Review	483
Questions	484
Exercises	485
Problems	487
Cases	497

12 Pricing of Products and Services

The Economic Framework for Pricing	505
Total Revenue and Total Cost Curves	505
Marginal Revenue and Marginal Cost Curves	507
Elasticity of Demand	508
Limitations of the General Models	508
Pricing Standard Products	509
Cost-Plus Pricing Formulas	509
The Absorption Approach	510
The Contribution Approach	511
Determining the Markup Percentage	513
Adjusting Prices to Market Conditions	514
Why Use Cost Data in Pricing?	516
Time and Material Pricing	517
Time Component	517

13 Relevant Costs for Decision Making

Cost Concepts for Decision Making	544
Identifying Relevant Costs	544
Different Costs for Different Purposes	545
Sunk Costs Are Not Relevant Costs	545
Book Value of Old Equipment	545
Future Costs that Do Not Differ Are Not Relevant Costs	547
An Example of Irrelevant Future Costs	547
Why Isolate Relevant Costs?	548
Adding and Dropping Product Lines	549
An Illustration of Cost Analysis	550
A Comparative Format	552
Beware of Allocated Fixed Costs	552
The Make or Buy Decision	554

Questions	568
Exercises	569
Problems	574
Cases	589

14 Capital Budgeting Decisions

- Capital Budgeting—An Investment Concept 594
- Typical Capital Budgeting Decisions 594
- Characteristics of Business Investments 595
- Discounted Cash Flows—The Net Present Value Method 596
- The Net Present Value Method Illustrated 596
- Emphasis on Cash Flows 597
- Recovery of the Original Investment 599
- Limiting Assumptions 600
- Choosing a Discount Rate 600
- An Extended Example of the Net Present Value Method 601
- Discounted Cash Flows—The Time-Adjusted Rate of Return Method 602
- The Time-Adjusted Rate of Return Method Illustrated 602
- The Problem of Uneven Cash Flows 603
- The Process of Interpolation 604
- Using the Time-Adjusted Rate of Return 604
- The Cost of Capital as a Screening Tool 605
- Comparison of the Net Present Value and the Time-Adjusted Rate of Return Methods 606
- Capital Budgeting and Nonprofit Organizations 606
- Investments in Automated Equipment 607
- Cost of Automation 607
- Long-Term Objectives and Automation 608

15 Further Aspects of Investment Decisions

- Income Taxes and Capital Budgeting 656
- The Concept of After-Tax Cost 656
- The Concept of Depreciation Tax Shield 658
- Accelerated Cost Recovery System (ACRS) 659
- The Choice of a Depreciation Method 664
- Example of Income Taxes and Capital Budgeting 665

- Benefits from Automation 608
- Decision Framework for Automated Equipment 610
- Expanding the Net Present Value Approach 611
- The Total-Cost Approach 611
- The Incremental-Cost Approach 613
- Least-Cost Decisions 614
- Other Approaches to Capital Budgeting Decisions 615
- The Payback Method 615
- Evaluation of the Payback Method 616
- An Extended Example of Payback 617
- Payback and Uneven Cash Flows 618
- The Simple Rate of Return Method 619
- Criticisms of the Simple Rate of Return 620
- The Choice of an Investment Base 621
- Postaudit of Investment Projects 621
- Summary 622
- Key Terms for Review 623
- Appendix A** The Concept of Present Value 624
- Key Terms for Review (Appendix A) 628
- Appendix B** Inflation and Capital Budgeting 628
- Appendix C** Future Value and Present Value Tables 631
- Questions 634
- Exercises 635
- Problems 640
- Cases 651

- The Total-Cost Approach and Income Taxes 666
- Preference Decisions—The Ranking of Investment Projects 669
- Time-Adjusted Rate of Return Method 671
- Net Present Value Method 671
- Comparing the Preference Rules 672
