	Introduction	1
I	The Emerging Role of Econometrics in Economics	
1	J. N. Keynes The Scope and Method of Political Economy (Macmillan, London, 1891, pp. 313–14, 320–31)	85
2	W. C. Mitchell Business Cycles (California University Memoirs, vol. III, Berkeley, 1913, pp. 19–20, 449–51)	91
3	H. L. Moore Economic Cycles – Their Law and Cause (Macmillan, New York, 1914, pp. 66–8, 84–8 (cut))	95
4	L. Robbins An Essay on the Nature and Significance of Economic Science (Macmillan, London, 1932, pp. 98–105)	98
5	J. A. Schumpeter The Common Sense of Econometrics (<i>Econometrica</i> , vol. 1, 1933, pp. 5–12)	103
II	Early Time-Series Analysis	
6	W. S. Jevons On the Study of Periodic Commercial Fluctuations (Read to the British Association in 1862, and in <i>Investigations in Currency and Finance</i> , Macmillan, 1884, pp. 3–10 and plates)	113
7	R. H. Hooker Correlation of the Marriage-Rate with Trade (<i>Journal of the Royal Statistical Society</i> , vol. 64, 1901, pp. 485–92)	122
8	W. M. Persons The Correlation of Economic Statistics (<i>Journal of the American Statistical Association</i> , vol. 12, 1910, pp. 289–94, 306–17 (cut))	130
9	G. U. Yule Why do we sometimes get Nonsense Correlations between Time-Series? (<i>Journal of the Royal Statistical Society</i> , vol. 89, 1926, pp. 2–9, 30–41)	141

10	G. U. Yule On a Method of Investigating Periodicities in Disturbed Series, with Special Reference to Wolfer's Sunspot Numbers (<i>Philosophical Transactions of the Royal Society of London</i> , A, vol. 226, 1927, pp. 267–73)	159
11	H. Working A Random-Difference Series for Use in the Analysis of Time Series (<i>Journal of the American Statistical Association</i> , vol. 29, 1934, pp. 11–24 (data cut))	166
12*	A. Wald Calculation and Elimination of Seasonal Fluctuations [<i>Berechnung und Ausschaltung von Saisonschwankungen</i>] (Julius Springer, Vienna, 1936, chap. 1)	175
13	A. W. Marget Morgenstern on the Methodology of Economic Forecasting (<i>Journal of Political Economy</i> , vol. 37, 1929, pp. 312–17, 320–3, 326–37 (cut))	180
III Applied Econometrics and the Identification Problem		
14	R. A. Lehfeldt The Elasticity of the Demand for Wheat (<i>Economic Journal</i> , vol. 24, 1914, pp. 212–17)	193
15	H. L. Moore Economic Cycles – Their Law and Cause (Macmillan, New York, 1914, pp. 68–80)	198
16	P. G. Wright Review of Moore, 'Economic Cycles' (<i>Quarterly Journal of Economics</i> , vol. 29, 1915, pp. 631–41 (cut))	206
17*	M. Lenoir Variation of Supply and Demand Curves: Influences on Prices (<i>Etudes sur la Formation et le Mouvement des Prix</i> , Paris, 1913, pp. 56–62)	214
18	H. L. Moore A Moving Equilibrium of Demand and Supply (<i>Quarterly Journal of Economics</i> , vol. 39, 1925, pp. 359–60, 364–71)	218
19	P. G. Wright Review of Schultz, 'Statistical Laws of Demand and Supply' (<i>Journal of the American Statistical Association</i> , vol. 24, 1929, pp. 207–15)	225
20*	J. Tinbergen Determination and Interpretation of Supply Curves: An Example [Bestimmung und Deutung von Angebotskurven. Ein Beispiel] (<i>Zeitschrift für Nationalökonomie</i> , vol. 1, 1930, pp. 669–79)	233
IV The Evolution of Statistical Thinking in Econometrics		
21	H. Schultz Statistical Laws of Demand and Supply with Special Application to Sugar (University of Chicago Press, Chicago, 1928, pp. 27–39)	249
22	'Pitfalls' Debate J. Marschak/W. W. Leontief/R. Frisch/W. W. Leontief J. Marschak (<i>Quarterly Journal of Economics</i> , vol. 48, 1934, pp. 355–61, 749–51, 755–66)	257
23	R. Frisch Statistical Confluence Analysis by Means of Complete Regression Systems (University Institute of Economics, Oslo, 1934, pp. 5–8)	271

24	T. C. Koopmans Linear Regression Analysis of Economic Time Series (Netherlands Economic Institute, Haarlem, 1937, pp. 1–10, 54–63, 129–32)	274
25	J. Tinbergen Statistical Testing of Business Cycle Theories: A Method and Its Application to Investment Activity (League of Nations, Geneva, 1939, vol. I, pp. 27–33)	292
26	O. Reiersøl Residual Variables in Regression and Confluence Analysis (<i>Skandinavisk Aktuarietidskrift</i> , vol. 28, 1945, pp. 201–10)	299

V Dynamic Models

27	I. Fisher Our Unstable Dollar and the So-Called Business Cycle (<i>Journal of the American Statistical Association</i> , vol. 20, 1925, pp. 181–91, 194–8)	309
28	J. Tinbergen The Notions of Horizon and Expectancy in Dynamic Economics (<i>Econometrica</i> , vol. 1, 1933, pp. 247–52, 259–64)	322
29	R. Frisch Propagation Problems and Impulse Problems in Dynamic Economics (in <i>Economic Essays in Honour of Gustav Cassel</i> , Allen & Unwin, London, 1933, pp. 171–3, 181–90, 197–203)	333
30	J. Tinbergen Statistical Testing of Business Cycle Theories: Business Cycles in the United States of America, 1919–1932 (League of Nations, Geneva, 1939, vol. II, pp. 13–20)	347
31	H. O. A. Wold Statistical Estimation of Economic Relationships (read to the International Statistical Conferences, Washington, 1947. Proceedings published as a supplement to <i>Econometrica</i> , vol. 17, 1949, pp. 6–9)	352
32	R. Frisch Prolegomena to a Pressure-Analysis of Economic Phenomena (<i>Metroeconomica</i> , vol. 1, 1949, pp. 135, 139–42)	355

VI The Tinbergen Debate

33	J. Tinbergen Statistical Testing of Business Cycle Theories: A Method and its Application to Investment Activity (League of Nations, Geneva, 1939, vol. I, pp. 34–43, 47–64)	361
34	J. M. Keynes Professor Tinbergen's Method (Review of Tinbergen (1939), vol. I, <i>Economic Journal</i> , vol. 49, 1939, pp. 558–68)	382
35*	J. Marschak and O. Lange Mr Keynes on the Statistical Verification of Business Cycle Theories (unpublished, 1940)	390
36	J. Tinbergen Econometric Business Cycle Research (<i>Review of Economic Studies</i> , vol. 7, 1940, pp. 73–80)	399
37*	R. Frisch Autonomy of Economic Relations (League of Nations Memorandum, 1938) and J. Tinbergen's reply (both unpublished)	407

VII Structure and Simultaneity

- 38 J. Marschak Economic Interdependence and Statistical Analysis
(in *Studies in Mathematical Economics and Econometrics – In Memory
of Henry Schultz, O. Lange et al.* (eds.), University of Chicago Press,
Chicago, 1942, pp. 135–50) 427
- 39 T. Haavelmo The Probability Approach in Econometrics
(Supplement to *Econometrica*, vol. 12, 1944, pp. 12–17, 26–31,
33–9) 440
- 40 T. Haavelmo The Statistical Implications of a System of
Simultaneous Equations (*Econometrica*, vol. 11, 1943, pp. 1–12) 454
- 41 H. O. A. Wold Statistical Estimation of Economic Relationships
(read to the International Statistical Conferences, Washington,
1947. Proceedings published as a supplement to *Econometrica*,
vol. 17, 1949, pp. 9–21) 464

VIII The Probabilistic Revolution

- 42 T. Haavelmo The Probability Approach in Econometrics
(Supplement to *Econometrica*, vol. 12, 1944, pp. iii–iv, 1–11,
49–52, 114–15) 477
- 43 'Measurement without Theory' Debate T. C. Koopmans/R. Vining/
M. Hastay (*Review of Economics and Statistics*, vol. 29, 1947,
pp. 161–72 (cut); vol. 31, 1949, pp. 77–93 (cut); and *Journal of the
American Statistical Association*, vol. 46, 1951, pp. 388–90) 491

IX Exogeneity

- 44 T. C. Koopmans When is an Equation System Complete for
Statistical Purposes? (in *Statistical Inference in Dynamic Economic
Models*, T. C. Koopmans (ed.), Cowles Commission Monograph 10,
Wiley, New York, 1950, pp. 393–409) 527
- 45 G. H. Orcutt/T. C. Koopmans debate Towards Partial Redirection
of Econometrics by Orcutt, Comments by Koopmans and Actions,
Consequences, and Causal Relations by Orcutt (*Review of Economics
and Statistics*, vol. 34, 1952, pp. 196–9, 201–5 (cut), 309–13) 538
- Index* 556

* Previously unpublished, or published here in translation.
