Author Biographies xi
Preface xxiii

Part I  Artificial Intelligence in Trading, Investing, and Portfolio Management

1. What Artificial Intelligence Brings to Trading and Portfolio Management 3
   John W. Loofbourrow, Chairman, Neural Trading Systems, Inc.
   Tod H. Loofbourrow, President and CEO,
   Foundation Technologies, Inc.

2. Leveraging Quantitative Trading with Artificial Intelligence: From Vaporware to Commercial Success 29
   David J. Leinweber, Director of Research, First Quadrant Corp.
   Yossi Beinart, Senior Vice President, Investment Technology Group

3. Information Animation: Applications in the Securities Industry 45
   William Wright, Chairman, Visible Decisions, Inc.

4. Economic Modeling and Artificial Intelligence 63
   Ross M. Miller, Senior Member of the Technical Staff,
   G.E. Corporate Research & Development Center

5. Global Trading Utilizing Neural Networks: A Synergistic Approach 79
   Lou Mendelsohn, President, Mendelsohn Enterprises, Inc.
6. Forecasting Foreign Exchange Rates Subject to De-volatization  
Bin Zhou, Sloan School of Management, MIT

Chau-Chen Yang, Department of Finance  
Seng-cho Timothy Chou, Department of Information Management  
Wo-Huei Chu, Department of Electrical Engineering  
Feipei Lai, Department of Electrical Engineering  
National Taiwan University

8. Use of Neural Networks for Hedge-Fund Portfolio Management  
James W. O’Sullivan, President, OBIL Capital Management, Inc.

9. Assessing the Credit Quality of Municipal Bonds  
Roy S. Freedman, President, Inductive Solutions, Inc.  
William P. Stahl, President and CEO, AI Systems, Inc.

10. Confronting Uncertainty: Intelligent Risk Management with Futures  
Robert M. Tamiso, Tamiso & Company  
Roy S. Freedman, President, Inductive Solutions, Inc.

11. New Directions in Risk Management  
Robert M. Mark, Executive Vice President, Canadian Imperial Bank of Commerce

12. An Integrative Approach for Intelligent Reasoning with Heterogenous Knowledge in Risk Management  
Michel Benaroch, School of Management, Syracuse University
   Roy S. Freedman, President, Inductive Solutions, Inc.
   Joseph Mathai, Director of Research, Instinet Corporation

14. Stock Market Laboratories 327
   Nai-kuan Huang, Deputy Director, Information Technology, The Taiwan Stock Exchange

15. Improving Trading Results by Applying Chaos Theory to a Neural Network 339
   Joe Shepard, RaceCom, Inc.

16. The Holographic Neural Technique 345
   John Sutherland, President, AND Corporation

Part II The Role of Artificial Intelligence in Credit and Finance

17. Overview of the Role of Artificial Intelligence in Credit and Finance 365
   Rex Beach, President, Financial Proformas, Inc.

18. Artificial Intelligence Approaches to Bankruptcy Prediction 373
   David T. Cadden, Management Department, Quinnipiac College

   William E. Stansifer, Senior Vice President and Credit Policy Officer, Norwest Corporation
20. *Leveraging Your Hidden Data Assets to Improve ROI: A Case Study in the Credit Card Business*  411

Mario O. Bourgoin, Senior Scientist  
Stephen J. Smith, Product Development Manager,  
Thinking Machines Corporation

21. *Neural Network Fraud Control in the Bank Card Industry*  437

Douglas L. Reilly, Vice President, Nestor, Inc.

22. *Artificial Intelligence and Mortgage Underwriting*  469

Patricia A. Mikel, Vice President, Customer Technology  
John V. Ryan, Account/Product Manager,  
Customer Technology, PMI Mortgage Insurance Co.

23. *Artificial Intelligence in Appraisal*  483

Michael H. Jackman, Vice President, Lender Systems,  
HNC Software, Inc.

24. *Artificial Intelligence and Commercial Real Estate Lending*  503

R. Joe Okoneski, President, Underwriting Automation, Inc.

25. *Credit Evaluation Systems*  533

Raymond J. Beshinske, Vice President and System Scientist  
Walter C. McCarthy, Credit Administration Manager,  
Merrill Lynch

Harvey Gers, Manager of Marketing Research and Analysis  
Kurt Ruhlin, Division Operation Manager  
Emery Saladin, Vice President and Director of Special Projects and Insurance, ITT Commercial Finance Corp.  
Karl Mate, Senior Staff Knowledge Engineer, CIBA-Corning Diagnostics
# Part III  Systems, Data Processing, Auditing, and Management

## SECTION ONE: SYSTEMS

27. *Intelligent Infrastructure for the Distributed Front Office*  
Yuval Lirov, Vice President  
Aaron J. Goldberg, Project Leader, Lehman Brothers  
Arie Tzvieli, Consultant

28. *Intelligent Multimedia Office Systems*  
Daniel Schutzer, Vice President and Director of Advanced Technology, Citibank

## SECTION TWO: DATA ANALYSIS

29. *Selecting, Extracting, and Preparing Data with Machine Learning*  
Peter N. Johnson, Vice President, Mellon Bank

30. *Advanced Technological Directions in the Processing of News*  
Edwin R. Addison, CEO, ConQuest Software, Inc.  
Tom J. Schwartz, The Schwartz Associates

## SECTION THREE: AUDITING AND MANAGEMENT

31. *Cost Justification of Strategic Artificial Intelligence Systems*  
Neal M. Goldsmith, President, Tribeca Research, Inc.

32. *Financial Applications of Artificial Intelligence: Making It Happen*  
Kenneth A. Kleinberg, Research Director, Advanced Technology Research Center, Gartner Group
33. Reengineering and Artificial Intelligence Systems Management
Neal M. Goldsmith, President, Tribeca Research, Inc.

34. Auditing with Artificial Intelligence
Olivier Curet, Deloitte Touche Tohmatsu International
Jonathan Killin, Quality System Manager, Touche Ross Management Consultants

35. Intelligent Security Systems
John R. Davies
Stephen V. Coggeshall
Roger D. Jones, Los Alamos National Laboratory
Daniel Schutzer, Vice President and Director of Advanced Technology, Citibank

Appendix Signal: Real-Time Market Quotations for the Serious Investor
