<i>List of Figures</i>	vii
<i>List of Tables</i>	viii
<i>Foreword by Christopher Freeman</i>	x
<i>Acknowledgements</i>	xii
<i>List Abbreviations</i>	xv
<b>1 Introduction</b>	<b>1</b>
1.1 Limitations of the Study	7
1.2 Structure of the Book	9
<b>2 The Concept of Competence Building</b>	<b>11</b>
2.1 Neo-Schumpeterian Theory	11
2.2 Relevance of Competence in Strategic Management	14
2.3 Features of Competences	18
2.4 Factors Affecting the Rate and Direction of Competence Building	25
2.5 Conclusion	37
<b>3 Optoelectronics – a Leading Core Technology</b>	<b>39</b>
3.1 Overview of the Industry	39
3.2 International Comparisons	45
3.3 The Technologies of Optoelectronics	49
3.4 Technological Interdependencies in Optoelectronics	64
3.5 Conclusion	66
<b>4 Building Optoelectronic Competence in Firms</b>	<b>68</b>
4.1 Brief Histories of the Selected Firms	68
4.2 Core Businesses and Links with Customers	71
4.3 Strategy and the Evolution of the R&D Organization	75
4.4 Patterns of Competence Building	90
4.5 The Role of Government Policy	98
4.6 Conclusion	102
<b>5 Empirical Results – the Classification of Competences</b>	<b>104</b>
5.1 Previous Empirical Studies and the Methodology Proposed	104

5.2	Nature and Sources of Data	106
5.3	Empirical Results – the Analysis of Competences	116
5.4	Tests of Consistency of the Various Measures	125
5.5	Measuring Firm Competences	131
5.6	Grouping Firms by Their Competences	137
5.7	Conclusion	144
<b>6</b>	<b>Learning, Interlinkages and Shifting Trajectories</b>	<b>146</b>
6.1	Search Trajectories	146
6.2	Convergence in Competences	154
6.3	The Role of Key Components	188
6.4	Shifting Trajectories: Key Components and Economies of Scope	190
6.5	Conclusion	193
<b>7</b>	<b>Conclusions</b>	<b>195</b>
7.1	Main Findings	196
7.2	Implications and Suggestions for Future Research	203
	<i>Appendix A: Systemic Concept Used at Hitachi</i>	206
	<i>Appendix B.1: Optoelectronics-related Production in Japan (million yen)</i>	207
	<i>Appendix B.2: Optoelectronics-related Production in Japan (% of value)</i>	209
	<i>Appendix C: Trend of Liquid Crystal Displays</i>	211
	<i>Appendix D: Breakdown of Sales by Sectors in Firms</i>	212
	<i>Appendix E: Historical Summary of Firms</i>	216
	<i>Appendix F: An Example of an INSPEC Record</i>	287
	<i>Appendix G.1: Questionnaire for the Firms Interviewed</i>	288
	<i>Appendix G.2: Individuals Interviewed</i>	293
	<i>Notes and References</i>	295
	<i>Bibliography</i>	305
	<i>Index</i>	314

# List of Figures

2.1	Different types of competences	18
2.2	Model of bunching strategy of technologies	21
2.3	Relationship between systems, key components and component generic technologies	24
2.4	Elements of the 'Chain-linked' model	33
2.5	The system organization model	34
3.1	Forecast of the optoelectronics market	40
3.2	US patents granted per year	42
4.1	The evolution of R&D organization at NEC	79
4.2	Organizations of STC and GEC	82
4.3	The evolution of R&D organization at Toshiba	85
4.4	The evolution of R&D organization at Hitachi	88
5.1	Phase model and output indicators	106
5.2	A summary of INSPEC bibliometric (percentage) data for four firms	117
5.3	Sumitomo Electric's bibliometric INSPEC data	120
5.4	Competence map of the firms	140
5.5	Dendogram based on measure cosine method using INSPEC data	141
5.6	Dendogram based on centroid method using INSPEC data	142
5.7	Dendogram based on centroid method using patent data	143
6.1	Variation of the types of papers on semiconductor lasers over time	151
6.2	An example of shifting technological trajectories of semiconductor lasers	191

# List of Tables

3.1	Production value of optoelectronics in Japan between 1983 and 1988	41
3.2	Matrix of optoelectronic-related markets and technologies	44
3.3	Relative standing in emerging technologies: US versus Japan and the EC	46
3.4	US patenting in optoelectronics: international comparisons	47
3.5a	Percentage of US patents by country (1963-90)	49
3.5b	Percentage of US patents by country (1986-90)	49
3.6	The three phases of optical communications	53
3.7	Changing technological agenda of semiconductor lasers	65
4.1	Sales breakdown by business activities in 1985	70
4.2	Key statistics on the 11 firms in 1989	71
4.3	Summary of competence-building mode	95
5.1	Grouping scheme of INSPEC data	109
5.2	List of optoelectronics-related patent codes	113
5.3	A summary of Fujitsu's INSPEC bibliometric data broken down into technological fields	119
5.4	Examples of time series $IFTI_{INS}$	121
5.5	Summary of patent counts for Philips	122
5.6	Examples of $IFTI_{pat}$ variation over time	123
5.7	Firms' self-assessment data for the sub-fields in optoelectronics	124
5.8	Cumulative total number of patents and papers	125
5.9	Results of the various tests on cumulative data	126
5.10	Results of the correlation tests involving periodic data	130
5.11	Summary of the correlation tests for each firm	132
5.12	Summary of Siemens' four indicators	133
5.13	The four sets of IFTI for each firm	134
5.14	Evaluated competences of the firms	136
5.15	Areas of strengths of the firms	137
5.16	Correlation matrix of the firms using competence scores	138

5.17	Aggregated competences of the firms	139
6.1	Herfindahl index variation over time	147
6.2	Comparison of the correlations between the same type of IFTI over three periods	149
6.3	Descriptive statistics of the percentages of cumulative publications of the 11 firms	155
6.4	Descriptive statistics of the percentages of patents	156
6.5	Descriptive statistics of the cumulative IFTI <sub>INS</sub>	157
6.6	Descriptive statistics of the cumulative IFTI <sub>Pat</sub>	157
6.7	Descriptive statistics of the percentages of publications over three periods	159
6.8	Descriptive statistics of the cumulative IFTI <sub>INS</sub> over three periods	160
6.9a	NEC's TYPE I Technological Linkage Map	163
6.9b	NEC's TYPE II Technological Linkage Map	164
6.10a	Fujitsu's TYPE I Technological Linkage Map	165
6.10b	Fujitsu's TYPE II Technological Linkage Map	166
6.11a	Sumitomo Electric's TYPE I Technological Linkage Map	167
6.11b	Sumitomo Electric's TYPE II Technological Linkage Map	168
6.12a	Siemens' TYPE I Technological Linkage Map	169
6.12b	Siemens' TYPE II Technological Linkage Map	170
6.13a	GEC's TYPE I Technological Linkage Map	171
6.13b	GEC's TYPE II Technological Linkage Map	172
6.14a	STC's TYPE I Technological Linkage Map	173
6.14b	STC's TYPE II Technological Linkage Map	174
6.15a	Sony's TYPE I Technological Linkage Map	175
6.15b	Sony's TYPE II Technological Linkage Map	176
6.16a	Sharp's TYPE I Technological Linkage Map	177
6.16b	Sharp's TYPE II Technological Linkage Map	178
6.16c	Sharp's TYPE II Technological Linkage Map for LCDs	179
6.17a	Toshiba's TYPE I Technological Linkage Map	180
6.17b	Toshiba's TYPE II Technological Linkage Map	181
6.17c	Toshiba's TYPE II Technological Linkage Map for LCDs	182
6.18a	Hitachi's TYPE I Technological Linkage Map	183
6.18b	Hitachi's TYPE II Technological Linkage Map	184
6.18c	Hitachi's TYPE II Technological Linkage Map for LCDs	185
