## **PART I THEORETICAL PERSPECTIVES**

1. Richard Nelson (1992), 'The Roles of Firms in Technical Advance: A Perspective from Evolutionary Theory', in Giovanni Dosi, Renato Giannetti and Pier Angelo Toninelli (eds), *Technology and Enterprise in a Historical Perspective*, Chapter 5, Oxford: Clarendon Press, 164–84 3
2. Keith Pavitt (1992), 'Some Foundations for a Theory of the Large Innovating Firm', in Giovanni Dosi, Renato Giannetti and Pier Angelo Toninelli (eds), *Technology and Enterprise in a Historical Perspective*, Chapter 7, Oxford: Clarendon Press, 212–28 24
3. Jacob Schmookler (1972), 'The Size of Firm and the Growth of Knowledge', in Zvi Griliches and Leonid Hurwicz (eds), *Patents, Invention and Economic Change: Data and Selected Essays*, Cambridge, MA: Harvard University Press, 36–46 41

## **PART II FROM COAL TAR DYES TO IG FARBENINDUSTRIE**

4. John J. Beer (1958), 'Coal Tar Dye Manufacture and the Origins of the Modern Industrial Research Laboratory', *Isis*, 49, Part 2, (156), June, 123–31 55
5. Georg Meyer-Thurow (1982), 'The Industrialization of Invention: A Case Study from the German Chemical Industry', *Isis*, 73 (268), September, 363–81 64
6. Ernst Homburg (1992), 'The Emergence of Research Laboratories in the Dyestuffs Industry, 1870–1900', *British Journal for the History of Science*, 25, March, 91–111 83
7. Ulrich Marsch (1994), 'Strategies for Success: Research Organization in German Chemical Companies and IG Farben until 1936', *History and Technology*, 12, 23–77 104

## **PART III THE RESEARCH LABORATORY AND THE US CORPORATE ECONOMY**

8. Leonard S. Reich (1977), 'Research, Patents, and the Struggle to Control Radio: A Study of Big Business and the Uses of Industrial Research', *Business History Review*, LI (2), Summer, 208–35 161

9. Mark Clark (1993), 'Suppressing Innovation: Bell Laboratories and Magnetic Recording', *Technology and Culture*, 34 (3), July, 516-38 189
10. David A. Hounshell (1992), 'Continuity and Change in the Management of Industrial Research: The Du Pont Company, 1902-1980', in Giovanni Dosi, Renato Giannetti and Pier Angelo Toninelli (eds), *Technology and Enterprise in a Historical Perspective*, Chapter 8, Oxford: Clarendon Press, 231-60 212
11. Michael Aaron Dennis (1987), 'Accounting for Research: New Histories of Corporate Laboratories and the Social History of American Science', *Social Studies of Science*, 17, 479-518 242
12. Walter G. Vincenti (1984), 'Technological Knowledge without Science: The Innovation of Flush Riveting in American Airplanes, ca. 1930-ca. 1950', *Technology and Culture*, 25 (3), July, 540-76 282
13. Eric Schatzberg (1994), 'Ideology and Technical Choice: The Decline of the Wooden Airplane in the United States, 1920-1945', *Technology and Culture*, 35 (1), January, 34-69 319
14. David F. Noble (1978), 'Social Choice in Machine Design: The Case of Automatically Controlled Machine Tools, and a Challenge for Labor', *Politics & Society*, 8 (3-4), 313-47 355

#### PART IV INTERNATIONAL AND COMPARATIVE STUDIES

15. C. Freeman (1963), 'The Plastics Industry: A Comparative Study of Research and Innovation', *National Institute Economic Review*, 26, November, 22-62 393
16. Jonathan Liebenau (1984), 'Industrial R&D in Pharmaceutical Firms in the Early Twentieth Century', *Business History*, XXVI (3), November, 329-46 434
17. Steven W. Usselman (1993), 'IBM and its Imitators: Organizational Capabilities and the Emergence of the International Computer Industry', *Business and Economic History*, 22 (2), Winter, 1-35 452
18. John Cantwell (1995), 'The Globalisation of Technology: What Remains of the Product Cycle Model?', *Cambridge Journal of Economics*, 19 (1), February, 155-74 487

#### PART V THE NOT-SO-PECULIAR BRITISH CASE

19. David C. Mowery (1984), 'Firm Structure, Government Policy, and the Organization of Industrial Research: Great Britain and the United States, 1900-1950', *Business History Review*, 58 (4), Winter, 504-31 509
20. Michael Sanderson (1972), 'Research and the Firm in British Industry, 1919-39', *Science Studies*, 2 (2), April, 107-51 537
21. D.E.H. Edgerton and S.M. Horrocks (1994), 'British Industrial Research and Development before 1945', *Economic History Review*, XLVII (2), 213-38 582

**PART VI THE CASE OF JAPANESE INDUSTRIAL RESEARCH**

22. Yukiko Fukasaku (1992), 'Origins of Japanese Industrial Research: Prewar Government Policy and In-House Research at Mitsubishi Nagasaki Shipyard', *Research Policy*, 21, 197-213 611
23. Hiroyuki Odagiri and Akira Goto (1993), 'The Japanese System of Innovation: Past, Present, and Future', in Richard R. Nelson (ed.), *National Innovation Systems: A Comparative Analysis*, New York: Oxford University Press, 76-114 628
