List of illustrations	xv
Foreword by Sir James Munn, OBE, FITD, President of the Institute of Training and Development 1989–92	xvii
Preface to the second edition	xix
Notes on contributors	xxii

PART ONE THE WORLD OF TRAINING AND DEVELOPMENT

1 The changing environment	3
<i>Ian Johnston and Bobbie McClelland</i>	
Prosperity, enterprise and business growth – investing in people – achieving full potential – challenges for the future – how to meet the challenges – government interventions – main resources	
2 The benefits of training and development	12
<i>Rob Sibthorpe</i>	
Training: is it an investment? – maintenance cost – benefits to the task – to the team – to the individual – the need for a link between training and corporate objectives	
3 Training for change: an investment in people	21
<i>John Fricker</i>	
The forces of change – the challenge for training – the challenge for management – shared ownership in training – professionalism in the training function – accountability – demand-led versus supply-driven T & D	

4	Training for quality <i>Hugh Parry</i> Meaning and understanding – focusing training – specific objectives – key tasks – performance criteria – training for life or throughout life? – customer care and total quality management	32
5	Standards in the training context <i>Chris Carroll</i> What are standards? – process standards – independent assessment – output standards – codes of practice – competence-based qualifications – the role of professional bodies, employers and individuals	41
6	The training and development profession <i>George Webster</i> Development of new occupations – establishment of a professional body – expectations – self-regulation – the Institute of Training and Development – the professional trainer – assumptions – code of professional practice	58
7	The need to market training <i>Eugene Donnelly</i> Marketing and training – budgets and pricing policy – demand factor – market research and product policy – marketing and the organizational culture – the trainer's role – determinants of credibility	73
 PART TWO PLANNING AND MANAGING TRAINING AND DEVELOPMENT 		
8	The learning organization <i>Valerie Hammond and Edgar Wille</i> What is a learning organization? – releasing energy and potential – <u>learning teams</u> – total quality as learning experience – communication and culture change – learning <i>through</i> the job – innovation	89
9	Approaches and strategies <i>Margaret Anne Reid</i> The 'flavour of the month' – general approaches – the analytical approach – competences – problem-solving – criteria for appropriate strategies	100
10	The cultural mosaic <i>Phillip Wright</i> Multi-level culture – philosophy – characteristics – effects – support	113

and maintenance systems – training design – orientation and the psychological contract – problems, not symptoms – guidelines

- 11 Practical approaches to culture and learning** 131
Teresa Williams and Adrian Green
 Cultural values – learning content and transfer – cultural influences and diversity – recognizing culture – perceptions – assumptions – breaking the rules – the way forward
- 12 Organizational training needs** 145
Stuart Dalziel
 Characteristics – contexts – economy – technology – resourcing – competences – to whom does a training need apply? – training needs statements – achievement – people and the organization – training provisions
- 13 Job training needs** 154
Leslie Rae
 Job analysis – job descriptions – job specifications – competence standards – key roles – units – elements – criteria – range indicators – obtaining the required information – behaviour and training needs analysis
- 14 The trainer as manager** 169
Peter Bowen
 Statement of purpose – integrating human and business strategies – human resource planning cycle – the corporate training infrastructure – performance-related training – effective delivery – multiskills performance
- 15 Developing effective trainers** 181
Roger Bennett
 Assumptions and roles – checking – developing the roles – provision – consultancy – innovation – reporting – advising – creating – exploring – promoting – assessing – developing – management and competence
- 16 The effective trainer checklist** 194
Roger Bennett
 Trainer competences – trainer characteristics – trainer role orientation – trainer style – trainer roles – organizational culture – needs – purpose of training – overall effectiveness – surviving as a trainer
- 17 Training the sales force** 203
Ken Hill
 Why train the sales force? – field staff training – structuring the

sales training function – research, development and design – off-the-job delivery – on-the-job follow-up – validation – reaction – knowledge – behaviour – the trainer

18 Performance appraisal 214

Andrew Stewart

Varieties of system – performance criteria – system design – training – monitoring and control – identifying potential – problem performers – future trends – performance review sequence

19 Using evaluation techniques 230

Bernard Wynne and David Clutterbuck

The need for auditing – strategic objectives – immediate, intermediate, long-term evaluation – applying evaluation techniques – selection of most appropriate techniques – control groups – self-assessment

20 Training records 243

Keith Marshall and Lindsay Wallace

Training methods and their users – the trainee – personnel staff – the instructor – the training management – the assessor – awarding bodies – lead bodies – vocational examining bodies – funding and licensing bodies – customers – registration and certification

PART THREE WAYS AND MEANS

21 Learning *how* we learn 259

John Giles

Science sheds new light on learning – the Triune Brain – the Thinking Brains – ‘No limits to learning’ – a six-stage model – confidence and motivation – the senses – the natural sequence of learning – the Triarchic Theory of Intelligence – emotional content, an aid to learning and long-term memory – action to demonstrate learning – review and reward

22 Preferred learning styles 274

Peter Honey

Teaching versus learning – learning style preferences – activists – reflectors – theorists – pragmatists – all-round learners – the problem – the choices – the solution – my self-development programme – strengthening

23 Individual and group learning 285

Carol Law

Learning theories – comprehension – memorizing – understanding

- doing – internalized learning skills – blockages – motivation – contracts – styles – trainer-centred and group-centred approaches
- 24 Flexible learning** 304
Hilary Temple
 The rationale for flexible learning – what is it? – strategic change – implications – pace and place – work-related learning – structures – choice – changes of role – what needs to be done? – a good package
- 25 Self-managed learning** 317
Ian Cunningham
 Self-managed learning (SML) in context – the roots of SML – learning approaches – autonomy laboratories – humanistic and holistic education – self-development – work-based management development – other influences
- 26 Computer-based training** 331
Peter Wynn
 Changing patterns in training – what is computer-based training? – how does it work? – what are its advantages? – how do I get started? – the next steps – feasibility – effectiveness – making your own programmes – interactive audio – digital video interactive – ‘multimedia’ – satellite transmission – glossary of CBT and IV terms
- 27 On-line education and development** 345
Vivien Hodgson and David McConnell
 Computer-mediated communications systems – what is needed? – how it works – levels of organization – computer skills required – the role of the conference organizer – characteristics of on-line education and training – uses and conclusions
- 28 Mentoring and coaching** 359
Ed Moorby
 What are mentoring and coaching? – why undertake them? – management process – achievement – removing difficulties – growth – succession – theory into practice – obstacles – lack of time, skill and will – skills of mentoring and coaching – programme framework – benefits
- 29 Using training aids** 373
Chris Bell
 What aids are available? – why use them? – selecting appropriate aids – strengths and weaknesses of overhead projection – design and preparation – paper-based material – handouts – flipcharts – markerboards – audio – slides – video

PART FOUR TRAINING FOR SKILLS

- 30 Communication skills training** 399
Dave Francis
 Personalities – self-insight – assertion – active listening – leadership – systematic approach-counselling – chairmanship – interpersonal problem-solving – trainer competence – creativity – writing – oral communication
- 31 Interpersonal skills training** 409
Annette Bradley and Keri Phillips
 The context – feelings – knowing what one wants – competition versus collaboration – leadership versus teamwork – survival versus growth – the drive for excellence – the growing emphasis on self-development
- 32 Business language training** 424
Michael Woodhall and Ian MacKay
 Corporate objectives – language learning strategy – language services – interpreting – translation – staff language proficiency – learning options – implementation – evaluation – case studies
- 33 Neuro-linguistic programming** 438
Roy Johnson
 NLP as an aid to management – underlying principles – communication – positive intent – outcome thinking – awareness – flexibility – rapport – self-projection – precision questions – perceptual positions – metaphors

PART FIVE MANAGEMENT TRAINING AND DEVELOPMENT

- 34 Effectiveness in management development** 461
Alan Mumford
 Contingent definition – the developmental process – identification of learning processes – forecasting – planning – organizing – motivating – co-ordinating – controlling – reality – results – problem-solving – evaluation – learning processes – successful management development
- 35 Team-building** 478
Bill Critchley and David Casey
 At what price? – at whose cost? – assumptions – team-builders – theoretical considerations concerning management groups – unshared certainty – co-operation – shared uncertainty – processes – the leader's role

36	Developing women managers	490
	<i>Judi Marshall</i>	
	Significant differences – male and female values – social power – development needs – development opportunities – provision – structures – flexibility – dispersed training – self-development groups – training topics – women and men as colleagues	
37	Management development and organization development	506
	<i>Graham Robinson</i>	
	Shifts in thinking on management education and development – background to current management attitudes – organizational development frameworks – values – process – technology – strategy and integration – resolving the dilemma	
38	Action learning: the long haul	524
	<i>John Morris</i>	
	Definition – the meaning of ‘action’ – two kinds of learning – some pitfalls – the lessons of success – issues for the future – ‘know how’ versus ‘knowing about’ – relationships with other forms of learning	
39	Management games and case studies	538
	<i>Ian Debenham</i>	
	Simulation as an aid to learning – simplification – time scales – individual needs – safety – cost – feedback – categories – writing short cases – role playing – problem analysis – substitute tasks – statistical simulations	
40	Choosing resources	551
	<i>Michael Abrahams</i>	
	Cost effectiveness – consultants – consultancies – business schools – management colleges – public training courses – consortium programmes – training packages – appropriateness to the organization	
	Glossary of training terms	569
	<i>Robert J. Kelly</i>	
	Index	587

List of illustrations

6.1	Training cycle – an expanded model	63
6.2	The ITD Code of Professional Practice	66
9.1	A matrix of criteria and training strategies	107
10.1	The multi-level culture concept	115
10.2	Training and the cultural island	119
10.3	Support and maintenance systems	119
10.4	Management of the psychological contract	124
11.1	Cultural influences	133
11.2	Cultural groupings	133
12.1	Training needs matrix	149
13.1	Example of a job description	156
13.2	Example of a job specification	157
14.1	The steps of strategic planning	171
14.2	Typical policy elements of the human resource strategy	171
14.3	People policy building blocks	172
15.1	General trainer roles	182
15.2	Role identification checklist	184
17.1	A stylized field sales accompaniment form	207
19.1	The training cycle	231
19.2	Selection of the most appropriate evaluation techniques	235
20.1	Typical logbook entry taken from EnTra's Training Logbook	250
20.2	Extract from an EnTra Training Specification	251
20.3	Extract from an EnTra Unit of Competence	255
21.1	The Triune Brain	260
21.2	The limbic system	261
22.1	The process of learning from experience	275
23.1	A model of Kolb's learning theory	292

23.2	The four learning styles	292
25.1	The self-managed learning structure	318
25.2	The five-question self-managed learning sequence	320
27.1	Four possible routes to the host computer	346
27.2	Edited transcript of a computer conference item	351
27.3	Outline design of the computer-mediated MA in management learning	356
27.4	The electronic learning environment showing the various conferences used to support the MA programme participants	357
28.1	Estimates of coaching time received	364
28.2	Programme framework	369
29.1	Functional attributes of training aids	376
29.2	'Keystoning' effect on the overhead projector screen	380
29.3	Overhead projector overlays	381
29.4	Information mapping	385
29.5	Interactive handout: example (i)	386
29.6	Interactive handout: example (ii)	387
31.1	The drama triangle	413
31.2	The transition curve	414
31.3	Focusing change	416
31.4	The energy wave	419
31.5	Blocks on the energy wave	420
32.1	A systematic approach to developing language skills	425
32.2	Corporate objectives and language support	426
32.3	The impact of interpreting on the achievement of corporate objectives	428
32.4	The impact of translation of documentation on corporate objectives	429
32.5	Language audit questionnaire: an example	430
33.1	Awareness of non-verbal behaviour	445
33.2	Accessing cues	446
33.3	Thinking and surface structure of words	451
34.1	Effectiveness triangle in management development	462
34.2	Types of management development	469
34.3	The virtuous learning circle	471
34.4	The vicious learning sequence	471
35.1	The more uncertainty in its task, the more any group has to share	482
35.2	Different modes of working require different methods	486
40.1	Consultancy advertisement (i)	556
40.2	Consultancy advertisement (ii)	556
