Preface xiii
Introduction xv

Part One: Meta Analysis

1.1 Introduction 1
1.2 ‘Public’ and ‘policy’ as concepts 2
1.3 The development of the policy approach 16
1.4 Kinds of policy analysts and policy analysis 29
1.5 Varieties of analytical frameworks 32
1.6 Philosophical frameworks 41
1.7 Analysis and the policy process 54
1.8 Models, maps and metaphors 57
1.9 Paradigms lost and found: shifts in the focus and frameworks of policy analysis 67
1.10 Stages and cycles: mapping the policy process 77
1.11 The arrangement of Parts Two, Three and Four 82

Part Two: Meso Analysis

2.1 Introduction 85
2.2 Social problem approaches 92
2.3 Public opinion and public policy 110
2.4 Theories of agenda control 125
2.5 Typologies of policy issues 132
2.6 Pluralism, non-decision-making and the third dimension of power 134
2.7 Neo-Marxist and critical approaches 145
2.8 Knowledge and the policy agenda 153
2.9 Policies and problems as symbols 176
2.10 Networks, streams, advocacy coalitions and punctuated equilibrium 184
2.11 Analysing the boundaries 207
2.12 Globalization and policy-making: the international parameters

Part Three: Decision Analysis

3.1 Introduction
3.2 Decision-making: frameworks and disciplinary contexts
3.3 Power approaches to decision-making
3.4 Rationality and decision-making
3.5 The public choice approach to decision-making
3.6 Institutional approaches
3.7 Personality, cognition and information processing in decision-making
3.8 Policy analysis and public decisions
3.9 Rational decision-making and the quest for knowledgeable governance
3.10 Critiques of policy analysis

Part Four: Delivery Analysis

4.1 Introduction
4.2 The arrangement of Part Four
4.3 Implementation
4.4 Delivery systems
4.5 Evaluation
4.6 Change and continuity in policy-making
4.7 Promise and performance: evaluating impact and outcomes
4.8 Conclusion: Beyond delivery and towards democratization

Bibliography

Figures

1.1 The cycle in the demand for public and private goods 11
1.2 The Eastonian ‘black box’ model 23
1.3 The policy process as inputs and outputs 24
1.4 The Popperian ‘piecemeal engineering’ model 49
1.5 Varieties of policy analysis 55
1.6 The London underground map: the surface of a complex system 59
1.7 The London underground map: Beck’s model 60
1.8 Thinking in terms of organizational models 63
1.9 The policy life cycle 77
2.1 The media and public panic 107
2.2 Professional research and the issue of child abuse 109
2.3 The impact of media attention on the public agenda 113
2.4 Rogers and Dearing’s model of agenda-setting 115
2.5 Downs’s issue attention cycle 115
2.6 Issue cycles and organizational activity 118
2.7 Public attention and policy areas 119
2.8 Cook and Skogan’s model of issue saliency 120
2.9 Measuring issue attention using newspaper citation index 121
2.10 The expansion and control of agendas 128
2.11 Policy types and their costs and benefits 133
2.12 A systems model of agenda control 138
2.13 Dimensions of power compared 143
2.14 Benson’s model of a policy sector 149
2.15 A framework for British think-tanks 166
2.16 Hall’s model of how ideas influence policy 172
2.17 Dimensions of policy style 186
2.18 Sabatier’s model 195
2.19 The policy subsystem 196
2.20 The structure of beliefs 197
2.21 A production possibility frontier 208
2.22 Choices along the curve 209
2.23 Choices off the curve 211
