Foreword	vii
Preface	ix
Contributors	xi

1	Energy Requirements <i>Raffaele Napoli and Edward S. Horton</i>	1
2	Body Composition <i>Gilbert B. Forbes</i>	7
3	Hunger, Appetite, and Food Intake <i>G. Harvey Anderson</i>	13
4	Obesity <i>George A. Bray</i>	19
5	Carbohydrates <i>Béla Szepesi</i>	33
6	Dietary Fat <i>Scott M. Grundy</i>	44
7	Essential Dietary Lipids <i>Sheila M. Innis</i>	58
8	Protein and Amino Acids <i>Peter J. Reeds and Phillip R. Beckett</i>	67
9	Dietary Fiber <i>Daniel D. Gallaher and Barbara O. Schneeman</i>	87
10	Water <i>Eldon Wayne Askew</i>	98
11	Vitamin A <i>James Allen Olson</i>	109
12	Vitamin D <i>Anthony W. Norman</i>	120
13	Vitamin E <i>Ronald J. Sokol</i>	130
14	Vitamin K <i>John W. Suttie</i>	137
15	Vitamin C <i>Mark Levine, Steven Rumsey, Yaohui Wang, Jae Park, Oran Kwon, Wei Xu, and Nobuyuki Amano</i>	146
16	Thiamin <i>Gianguido Rindi</i>	160
17	Riboflavin <i>Richard S. Rivlin</i>	167
18	Vitamin B-6 <i>James E. Leklem</i>	174
19	Niacin <i>Robert A. Jacob and Marian E. Swendseid</i>	184
20	Vitamin B-12 <i>Victor Herbert</i>	191
21	Folic Acid <i>Jacob Selhub and Irwin H. Rosenberg</i>	206
22	Biotin <i>Donald M. Mock</i>	220
23	Pantothenic Acid <i>Nora Plesofsky-Vig</i>	236
24	Calcium and Phosphorus <i>Claude D. Arnaud and Sarah D. Sanchez</i>	245
25	Magnesium <i>Maurice E. Shils</i>	256
26	Salt, Water, and Extracellular Volume Regulation <i>Friedrich C. Luft</i>	265
27	Potassium and Its Regulation <i>Friedrich C. Luft</i>	272
28	Iron <i>Ray Yip and Peter R. Dallman</i>	277
29	Zinc <i>Robert J. Cousins</i>	293
30	Copper <i>Maria C. Linder</i>	307
31	Selenium <i>Orville A. Levander and Raymond F. Burk</i>	320
32	Fluoride <i>Kathy R. Phipps</i>	329
33	Manganese <i>Carl L. Keen and Sheri Zidenberg-Cherr</i>	334
34	Chromium <i>Barbara J. Stoecker</i>	344

35	Other Trace Elements <i>Forrest H. Nielsen</i>	353
36	Iodine Deficiency and the Iodine Deficiency Disorders <i>John B. Stanbury</i>	378
37	Pregnancy and Lactation <i>Mary Frances Picciano</i>	384
38	Nutritional Requirements During Infancy <i>William C. Heird</i>	396
39	Adolescence <i>Johanna T. Dwyer</i>	404
40	Aging and Nutrition <i>Philip J. Garry and Bruno J. Vellas</i>	414
41	Exercise <i>Elsworth R. Buskirk</i>	420
42	Atherosclerosis <i>Alice H. Lichtenstein</i>	430
43	Nutritional Aspects of Hypertension <i>Howard R. Knapp</i>	438
44	Diabetes Mellitus <i>Edward S. Horton and Raffaele Napoli</i>	445
45	Nutritional Advances in Osteoporosis and Osteomalacia <i>MaryFran Sowers</i>	456
46	Renal Disease <i>Saulo Klahr</i>	464
47	Nutrition in Liver Disease <i>Josef E. Fischer and Timothy D. Kane</i>	472
48	Cancer and Diet <i>Michael C. Archer</i>	482
49	Gastrointestinal Disease <i>Linda V. Muir, Kathleen D. Sanders, and Warren P. Bishop</i>	488
50	Estimation of Dietary Intake <i>Eleanor M. Pao and Yasmin S. Cypel</i>	498
51	Nutritional Epidemiology <i>Valerie Tarasuk</i>	508
52	Nutrition Monitoring in the United States <i>Ronette R. Briefel</i>	517
53	Enteral and Parenteral Nutrition <i>Stephanie Brooks and Patrick Kearns</i>	530
54	Nutrient-Drug Interactions <i>Howard R. Knapp</i>	540
55	Alcohol: Medical and Nutritional Effects <i>Charles H. Halsted</i>	547
56	Nutrition and Immunity: Disruption of Lymphopoiesis in Zinc-deficient Mice <i>Pamela Fraker</i>	557
57	Toxic Substances in Foods <i>Michael W. Pariza</i>	563
58	Nutrient-Gene Interactions <i>Carolyn D. Berdanier</i>	574
59	Macronutrient Substitutes <i>John W. Finley and Gilbert A. Leveille</i>	581
60	Antioxidants <i>Barry Halliwell</i>	596
61	Adverse Reactions to Foods <i>John M. James</i>	604
62	Nutrient Status and Central Nervous System Function <i>John Beard</i>	612
63	Inborn Errors of Metabolism <i>William J. Rhead</i>	623
64	Nutrient Standards, Dietary Guidelines, and Food Guides <i>Susan Welsh</i>	630
