## 1 Introduction

1.1	Overview	1
1.2	Theories of development and its disorders	2
1.3	Family influences	12
1.4	Classification and prevalence of psychiatric disorders	17
1.5	Assessment and diagnosis of psychiatric disorders	24
1.6	Psychological assessment	35

## 2 Maltreatment in the family

2.1	Physical abuse	43
2.2	Munchausen syndrome by proxy	48
2.3	Neglect	50
2.4	Emotional abuse	51
2.5	Sexual abuse	54
2.6	Outcome following child maltreatment	59

## 3 Neurodevelopment and neuropsychiatric disorders

3.1	Motor development and disorders of movement	61
3.2	Normal language and speech development	68
3.3	Intelligence and learning disorders	84
3.4	Attention and attention deficit hyperactivity (hyperkinetic) disorder	110
3.5	Pervasive developmental disorders	120
3.6	Sensory development	132
3.7	Chromosomal abnormalities	138
3.8	Disorders of the central nervous system and muscle	149
3.9	Metabolic disorders	169

## 4 Development and developmental psychopathology

4.1	Fetal and infant development	172
4.2	Feeding and eating control disorders	186
4.3	Sleep and its disorders	201
4.4	Emotional development and disorders of mood	207

4.5	Social development and antisocial behaviour	235
4.6	Bowel and bladder control	251
4.7	Prepubertal sexual development	262

## **5 Adolescence and psychiatric disorders often beginning in adolescence**

5.1	Adolescence	267
5.2	Sexual development in adolescence	269
5.3	Early pregnancy	272
5.4	Anorexia nervosa	273
5.5	Adult-type psychiatric disorders	280
5.6	Psychoses	295
5.7	Drug use and abuse	304
5.8	Personality disorders	313

## **6 Child–adult continuities in psychiatric disorders**

6.1	Introduction and definitions	314
6.2	Findings	315

## **7 Psychosocial aspects of physical disorders: general**

7.1	Psychosocial causes of chronic physical disease	318
7.2	Impact on parents	319
7.3	Impact on the child	322
7.4	Impact on the sibs	326
7.5	Principles of psychosocial management of physically handicapped children and their families	326
7.6	Hospitalization	330
7.7	Care of the dying child	334
	Further reading	337

## **8 Psychosocial aspects of specific physical non-neurological conditions**

8.1	Stillbirth and neonatal death	338
8.2	Sudden infant death syndrome (cot death)	339
8.3	Malformations	341
8.4	Injuries to children	344
8.5	Infectious diseases	349
8.6	Metabolic disorders	356

8.7	Endocrine disorders	359
8.8	Blood disorders	364
8.9	Respiratory disorders	370
8.10	Genitourinary disorders	378
8.11	Organic gastrointestinal disorders	382
8.12	Congenital heart disease	383
8.13	Skin disorders	386
8.14	Immunodeficiency disorders	389
8.15	Juvenile chronic arthritis	390

## **9 Prevention and treatment**

9.1	Preventive approaches	392
9.2	Treatment	400

## **10 Services**

10.1	The estimation of service needs	455
10.2	Health services for children with mental health problems	455
10.3	Social services and child protection	466
10.4	School influences and special education	479
