

# TABLE OF CONTENTS

<b>CUSTOMER SATISFACTION REPORT</b> .....	vi
<b>OVERTURE</b> .....	ix
<b>Act One: ENLARGING THE PLAYING FIELD: OPERATIONAL CHALLENGES OF GLOBAL ENTERPRISES</b> .....	I-1
Global Pressures .....	I-2
Types of Globally Operating Firms .....	I-3
Conclusion .....	I-6
<b>Act Two: A FOCUS ON SERVICE OPERATIONS</b> .....	II-1
A Model of Service Operations .....	II-2
Classification of Services .....	II-3
Service Strategies .....	II-6
Designing Service Operations .....	II-7
Layout Planning for Service Operations .....	II-11
Designing Service Products .....	II-18
Designing Service Processes .....	II-19
Designing Customer Contact Operations .....	II-19
Blueprint for Services .....	II-20
Managing Service Processes .....	II-22
Scheduling Human Resources .....	II-24
Scheduling High-Contact Services .....	II-25
Forming and Managing Project Teams .....	II-26
Evaluating Service Performance .....	II-30
Conclusions .....	II-31
<b>Act Three: THE POM STORYTELLER</b> .....	III-1
Team Design in Half the Time .....	III-1
Walking Back to the Future .....	III-5
TQM: Strong Medicine for Hospitals .....	III-9
Banks Learn Their ABCs .....	III-13
Performance Measurement Reaches New Heights At Space Center .....	III-16

Banking on Strategic Forecasting .....	III-21
Moving beyond Just-in-Time .....	III-25
The Fast Track to Project Management .....	III-29
Quality Function Deployment: Driving Successful Product Design .....	III-33
Reliability and Maintainability: Keys to Process Availability .....	III-37
Reengineering: The Basics .....	III-41
On-Line SPC .....	III-45
Innovations Keep Ticking over at Swatch .....	III-49
Managing the Heat of Production .....	III-52
It's Déjà Vu All Over Again .....	III-56

**Act Four: THE POM DECISION TOOLS: AN OVERVIEW .....** IV-1

Module I: Modeling .....	IV-2
Module II: Linear Programming .....	IV-5
Formulating the Problem .....	IV-7
Finding the Optimal Solution .....	IV-9
Sensitivity Analysis .....	IV-31
Module III: Special Types of Linear Programing Problems .....	IV-37
The Transportation Model .....	IV-37
Special Cases .....	IV-47
The Assignment Problem .....	IV-52
Module IV: Queuing Models .....	IV-57
Characteristics of a Queuing Model .....	IV-57
Infinite Source Queuing Models .....	IV-61
Single Server, Constant Service Time .....	IV-65
Other Queuing Models .....	IV-72
Module V: Simulation .....	IV-73
Advantages and Limitations of Simulation .....	IV-73
An Example of Monte Carlo Simulation .....	IV-73
Random Number Procedure .....	IV-76
Running the Simulation .....	IV-77
The Experimental Plan and Sensitivity Analysis .....	IV-82
Testing the Validity of the Model .....	IV-83
Special Computer Simulation Languages .....	IV-83

<b>Act Five:</b>	<b>THE COMPLEMENTARY STUDENT MANUAL</b>	V-1
Chapter One and Supplement:	Operations Management and Global Competition/The Evolution of Operations Management	V-1
Chapter Two:	Organizing Operations for Competition	V-8
Chapter Three and Supplement:	Operations Strategy/ Competitive Benchmarking	V-14
Chapter Four:	Demand Management	V-21
Chapter Five:	Managing for Product Quality	V-31
Chapter Six and Supplement:	Designing-In Product Quality/QFD and Taguchi Applications	V-38
Chapter Seven:	Capacity Strategy	V-47
Chapter Eight:	Facility Location and Layout	V-54
Chapter Nine and Supplement:	Process Design/Advanced Operations Technologies	V-60
Chapter Ten and Supplement:	Job Design/Setting Time Standards with the MODAPTS System	V-68
Chapter Eleven and Supplement:	Process Quality and Improvement Tools/Acceptance Sampling	V-76
Chapter Twelve and Supplement:	Project Management/Forming and Managing Project Teams	V-88
Chapter Thirteen:	Managing Inventories: Independent Demand Systems	V-98
Chapter Fourteen:	Aggregate Planning	V-108
Chapter Fifteen:	Material Requirements Planning	V-115
Chapter Sixteen:	Just-in-Time (JIT) and Synchronous Operations	V-122
Chapter Seventeen:	Shop Floor Management	V-129
Chapter Eighteen:	Upstream-Downstream Materials Management	V-137
Chapter Nineteen and Supplement:	Performance Measurement/ An Operations Perspective on Cost Accounting	V-142
Chapter Twenty:	Global Enterprise Integration	V-147
