Introduction 1 1. What Is Desertification? 7 Desertification defined 8 The distribution of drylands 9 The arid zones 13 Natural deserts and desertification 18 The two main characteristics of desertification 22 The direct and indirect causes of desertification 33 Desertification and civilization 35 Drought and desertification 37
1. What Is Desertification? Desertification defined The distribution of drylands The arid zones Natural deserts and desertification The two main characteristics of desertification The direct and indirect causes of desertification Desertification and civilization Drought and desertification 37
Desertification defined 8 The distribution of drylands 9 The arid zones 13 Natural deserts and desertification 18 The two main characteristics of desertification 22 The direct and indirect causes of desertification 33 Desertification and civilization 35 Drought and desertification 37
The distribution of drylands 9 The arid zones 13 Natural deserts and desertification 18 The two main characteristics of desertification 22 The direct and indirect causes of desertification 33 Desertification and civilization 35 Drought and desertification 37
The arid zones 13 Natural deserts and desertification 18 The two main characteristics of desertification 22 The direct and indirect causes of desertification 33 Desertification and civilization 35 Drought and desertification 37
Natural deserts and desertification 18 The two main characteristics of desertification 22 The direct and indirect causes of desertification 33 Desertification and civilization 35 Drought and desertification 37
The two main characteristics of desertification The direct and indirect causes of desertification Desertification and civilization Drought and desertification 32 33 35 37
The direct and indirect causes of desertification Desertification and civilization Drought and desertification 33 35 37
Desertification and civilization 35 Drought and desertification 37
Drought and desertification 37
Diought and desertification
Questions remain about desertification 61
A complex phenomenon 64
2. The Causes of Desertification 65
Overcultivation 65
Overgrazing 76
Poor irrigation management 90
Deforestation 95
Causes and solutions 105
3. Desertification, People and Policy 107
Population growth 108
Economic development 110
Desertification and underdevelopment 112
The role of government
Famine, poverty and desertification 117
Desertification in developed nations 120
A broader perspective 122
