

## CONTENTS

<b>1</b>	<b>INTRODUCTION</b>	1
<b>2</b>	<b>EXCHANGE RATE PASS-THROUGH</b>	4
2.1	A brief review of the literature	4
2.2	Aggregation, simultaneity and time variation	6
2.3	Time horizon of pass-through and the real exchange rate	7
2.4	Pass-through into consumer prices	9
<b>3</b>	<b>PASS-THROUGH IN EU CANDIDATE COUNTRIES</b>	10
3.1	The model	10
3.2	Statistical representation	12
<b>4</b>	<b>EXCHANGE RATE REGIMES, INFLATION AND REAL EXCHANGE RATE</b>	14
4.1	Exchange Rate Regimes	14
4.2	Nominal exchange rate and inflation developments	15
4.3	Real exchange rate and the Balassa-Samuelson effect	18
<b>5</b>	<b>EMPIRICAL RESULTS</b>	21
5.1	Preliminary data analysis	23
5.2	VAR pass-through estimates	24
5.3	Long-run real exchange rate	26
5.4	Fixed parameter pass-through estimates	28
5.5	Time-varying parameter pass-through estimates	35
<b>6</b>	<b>IMPLICATIONS FOR EXCHANGE RATE POLICY</b>	44
<b>7</b>	<b>SUMMARY</b>	46
<b>8</b>	<b>ANNEX</b>	47
8.1	Nominal exchange rate movements	47
8.2	Measurement of the equilibrium real exchange rate	49
8.2.1	<i>Concepts and methods</i>	49
8.2.2	<i>Some evidence for candidate countries</i>	54
8.3	Some background calculations	56
8.3.1	<i>Seasonality</i>	56
8.3.2	<i>Stationarity</i>	57
<b>9</b>	<b>REFERENCES</b>	61

## LIST OF FIGURES

Figure 1. Czech Republic: Inflation and exchange rate changes	16
Figure 2. Hungary: Inflation and exchange rate changes	16
Figure 3. Poland: Inflation and exchange rate changes	17
Figure 4. Slovenia: Inflation and exchange rate changes	17
Figure 5. Real exchange rate with respect to Germany	19
Figure 6. Labour productivity divergence in the tradable vs. non-tradable sector	20
Figure 7. Labour productivity of GDP	20
Figure 8 (a-f). Czech Republic: Rolling sample single equation coefficient estimates...	31
Figure 9 (a-e). Hungary: Rolling sample single equation coefficient estimates...	32
Figure 10 (a-e). Poland: Rolling sample single equation coefficient estimates...	33
Figure 11 (a-f). Slovenia: Rolling sample single equation coefficient estimates...	34
Figure 12 (a-f). Czech Republic: Time-varying coefficient estimates	38
Figure 13 (a-e). Hungary: Time-varying coefficient estimates	39
Figure 14 (a-e). Poland: Time-varying coefficient estimates	40
Figure 15 (a-f). Slovenia: Time-varying coefficient estimates	41
Figure 16 (a-h). Dynamics of the response to a 1% shock to the exchange rate on certain dates	42
Figure 17 (a-d). Time-varying estimate of instantaneous and long-run response of prices to a 1% shock to the exchange rate	43
Figure 18. Cross-plot of exchange rate variability and pass-through	45
Figure 19 (a-d). Cross-plot of inflation and pass-through	45

*Figures in the annex*

Figure 20. Czech Republic: Nominal exchange rate of the koruna against the official currency basket	47
Figure 21 .Hungary: Nominal exchange rate of the forint against the official currency basket	47
Figure 22. Poland: Nominal exchange rate of the zloty against the official currency basket.	48
Figure 23. Slovenia: Nominal exchange rate of the tolar against the Deutsche Mark.	48
Figure 24 (a-j). Correlogram of fundamental prices, original and seasonally adjusted	56

**LIST OF TABLES**

Table 1. Population, development, growth, openness, foreign direct investment	3
Table 2. Variable definitions	22
Table 3. Impulse response functions derived from three variable VARs	25
Table 4. Estimates of the equilibrium real exchange rate	27
Table 5. OLS estimation of the pass-through model	30
Table 6. Diagnostics of time-varying parameter estimation	37

*Tables in the annex*

Table 7. Current account and foreign direct investment, 1990-99 (% of GDP)	55
Table 8. Czech Republic: Unit root tests	58
Table 9. Hungary: Unit root tests	59
Table 10. Slovenia: Unit root tests	60
