

Table of Contents

Multimodal Cooperative Communication <i>Robbert-Jan Beun and Harry Bunt</i>	1
--	---

Part 1: Multimodal Generation

Generating Textual Diagrams and Diagrammatic Texts <i>Donia Scott and Richard Power</i>	13
--	----

PEDRO: Assessing Presentation Decodability on the Basis of Empirically Validated Models <i>Susanne van Mulken</i>	30
--	----

IMPROVISE: Automated Generation of Animated Graphics for Coordinated Multimedia Presentations <i>Michelle X. Zhou and Steven K. Feiner</i>	43
---	----

Multimodal Reference to Objects: An Empirical Approach <i>Robbert-Jan Beun and Anita Cremers</i>	64
---	----

Part 2: Multimodal Cooperation

Augmenting and Executing SharedPlans for Multimodal Communication <i>Oliviero Stock, Carlo Strapparava, and Massimo Zancanaro</i>	89
--	----

Cooperation and Flexibility in Multimodal Communication <i>Jens Allwood</i>	113
--	-----

Communication and Manipulation Acts in a Collaborative Dialogue Model <i>Martine Hurault-Plantet and Cecile Balkanski</i>	125
--	-----

Relating Imperatives to Action <i>Paul Piwek</i>	140
---	-----

Part 3: Multimodal Interpretation

Interpretation of Gestures and Speech: A Practical Approach
to Multimodal Communication 159
Xavier Pouteau

Why Are Multimodal Systems so Difficult to Build? About the
Difference between Deictic Gestures and Direct Manipulation 176
Michael Streit

Multimodal Cooperative Resolution of Referential Expressions
in the DENK System 197
Leen Kievit, Paul Piwek, Robbert-Jan Beun, and Harry Bunt

Part 4: Multimedia Platforms and Test Environments

The IntelliMedia WorkBench – An Environment for Building
Multimodal Systems 217
*Tom Brøndsted, Paul Dalsgaard, Lars Bo Larsen, Michael Manthey,
Paul Mc Kevitt, Thomas B. Moeslund, and Kristian G. Olesen*

A Unified Framework for Constructing Multimodal Experiments
and Applications 234
Adam Cheyer, Luc Julia, and Jean-Claude Martin
