

Contents

1	Challenges for Today's Production Companies.....	1
	<i>F. Possel-Doelken, L. Zheng</i>	
1.1	The Business Environment	1
1.2	A Shift in Paradigms.....	3
1.3	Objectives	5
1.4	References for Chapter 1	5
2	Cooperation Between Production Companies	7
	<i>F. Possel-Doelken, L. Zheng</i>	
2.1	Definition of Cooperation.....	7
2.2	Cooperation Objectives	8
2.3	Cooperation Types.....	10
2.4	Contents of the Cooperation in Strategic Networks.....	14
2.5	The Cycle of Cooperation.....	18
2.5.1	The Phases of Cooperation.....	19
2.5.2	Success Factors and Problems of Strategic Networks.....	20
2.6	Cooperation Enabling Technologies.....	23
2.6.1	Business Information Engineering	23
2.6.2	Distributed Object Technology	27
	<i>D. B. Tang</i>	
2.7	References for Chapter 2	42
3	Telecooperation	44
3.1	Fundamentals of Telecooperation.....	44
	<i>R. Reichwald</i>	
3.2	Dimensions of Telecooperation	45
	<i>R. Reichwald, K. Möslein, H. Englberger</i>	
3.2.1	Enabler: Communication and Information Technology.....	46

3.2.2	Telework: Media-Supported Distributed Work Processes	47
3.2.3	Telemanagement: Media-Supported Distributed Coordination of Work Processes.....	48
3.2.4	Teleservices: Media-Supported Provision of Services	48
3.3	Strategies and Future Development Perspectives	49
	<i>K. Möslin</i>	
3.4	Benefits of Telecooperation – Experiences in German Industry	52
	<i>H. Englberger</i>	
3.4.1	TWIST: Telecooperation at the BMW AG	53
3.4.2	POLIKOM: Telecooperation in the Government.....	54
3.4.3	Long-term Competitiveness	55
3.4.4	Dispersion of Locations	56
3.4.5	A Look at the Future	56
3.5	Groupware	57
	<i>J. Schlichter, M. Koch</i>	
3.5.1	Introduction.....	57
3.5.2	Groupware Classification.....	58
3.5.3	Classification According to the 3C Model.....	62
3.5.4	Shared Context.....	63
3.5.5	Groupware Architectures	67
3.5.6	Conclusion	70
3.6	References for Chapter 3	71
4	Quality Management in Collaborative Projects	75
	<i>T. Pfeifer, C. Theis, M. Rübartsch</i>	
4.1	Co-operative Basis – Developing a Co-operative Culture	77
4.1.1	Motivate (Sensitize and Raise Awareness)	77
4.1.2	Training.....	80
4.1.3	Delegate Responsibility	82
4.1.4	Characteristics of a Basis for Co-operation.....	84

4.2	Co-operative Marketing – Working out Agreements	85
4.2.1	Approaching Other Companies	86
4.2.2	Definition Phase	92
4.2.3	Harmonization	98
4.2.4	Characteristics of Co-operation Marketing	101
4.3	Co-operation Management – Organizing Joint Work	102
4.3.1	Planning and Organizing (Self-Organization)	103
4.3.2	Managing	106
4.3.3	Communicating and Controlling	107
4.3.4	Characteristics of Co-operation Management	108
4.4	TQM in Company Networks	109
4.4.1	Self-Reinforcing Effects of the System	109
4.4.2	Developing Corporate Networks	111
4.5	TQM-Oriented Co-operation - Summary	111
4.6	References for Chapter 4	112
5	Cooperation in Product Development	115
5.1	Telecooperation in Product Development	115
	<i>H. Luczak, C. Schlick, D. Herbst</i>	
5.1.1	Introduction	115
5.1.2	Telecooperation in Cooperative Product Design	119
5.2	A Feature-Based Approach for Cooperative Product Development	133
	<i>O. Thome, M. Wittmann</i>	
5.2.1	Introduction	134
5.2.2	Feature Technology	134
5.2.3	Tolerance Information System	135
5.2.4	Reference Model for Usage of Distributed Tolerance Knowledge	137
5.2.5	Tolerance Knowledge Base	138

5.2.6	Function-Related Design.....	138
5.2.7	Enlarged Feature Approach.....	140
5.2.8	Conclusion	141
5.3	Product Data Exchange Technologies	142
	<i>L. Tiao</i>	
5.3.1	Product Data Exchange Standards – Introduction.....	142
5.3.2	Fundamentals of the STEP Standard.....	144
5.3.3	Implementation of STEP	150
5.3.4	Typical Examples for the Application of STEP	155
5.4	References for Chapter 5	166
6	Cooperation in Operations Planning	171
6.1	Cooperation With Tool and Fixture Suppliers	171
	<i>W. Eversheim, M. Westekemper, F. Spannemann</i>	
6.1.1	Introduction.....	171
6.1.2	Development of the Tool Making Industry	173
6.1.3	The New Role of the Tool Maker	178
6.1.4	Tool Makers as System Suppliers	184
6.1.5	Win-Win-Situation Through Cooperation.....	187
6.1.6	Call for Action in the Tool Making Industry	192
6.1.7	Vision.....	197
6.1.8	Conclusion	198
6.2	CIMSOURCE.....	199
	<i>R. Grosse Wienker</i>	
6.2.1	Basic Idea and Story.....	199
6.2.2	Contents of CIMSOURCE Global Tool Information.....	202
6.2.3	How CIMSOURCE Supports Operation Planning	206
6.3	Web-based Process Planning for Turning and Distributed Resources.....	208
	<i>L. Zheng</i>	

6.3.1	Introduction.....	208
6.3.2	Overview of the System.....	209
6.3.3	System Information Flow.....	215
6.3.4	Machining Parameter Selection for Turning Processes.....	215
6.3.5	Case Study.....	218
6.3.6	Conclusion	220
6.3.7	Acknowledgements	220
6.4	References for Chapter 6	220
7	Supply Chain Management	223
7.1	Actual Problems in the Supply Chain.....	223
	<i>F. Possel-Doelken, L. Zheng</i>	
7.1.1	Current Rationalization Objectives	223
7.1.2	Weather Prediction and Logistics	225
7.1.3	The Lack in Decision-Support	227
7.2	Objectives and Concepts of Supply Chain Management.....	228
	<i>F. Possel-Doelken, L. Zheng</i>	
7.2.1	What is Supply Chain Management.....	228
7.2.2	Targets of Supply Chain Management.....	229
7.2.3	Logistical Concepts of Supply Chain Management	232
7.2.4	Technologies for Supply Chain Management	234
7.2.5	Strategic Production Networks.....	237
7.3	Reference Modeling.....	238
	<i>F. Possel-Doelken, L. Zheng</i>	
7.4	Advanced Logistic Partnership-Model	240
	<i>P. Schönsleben</i>	
7.4.1	Overview.....	240
7.4.2	Choosing the Strategy of Cooperation	241
7.4.3	Strategic Level: Building Trust and Establishing Principal Legal Relationships.....	242

7.4.4	Technical-Commercial Level: Developing and Introducing Products and Processes	244
7.4.5	Operational Level: Cooperative Customer Order Planning and Execution.....	246
7.4.6	An Example of Practical Application.....	247
7.5	PRO-Net Reference Model for the Technical Order Processing	250
	<i>F. Possel-Doelken, L. Zheng</i>	
7.5.1	Objectives of the PRO-Net Reference Model	250
7.5.2	The PRO-Net Structure	258
7.5.3	The PRO-Net Reference Production Network	259
7.5.4	Cooperation Management	263
7.5.5	Integrated Planning Levels.....	268
7.5.6	Monitoring and Feedback Loops.....	271
7.5.7	The Cooperative Supply.....	278
7.5.8	Subcontracting	284
7.5.9	Distribution	285
7.5.10	Vendor Managed Inventory and CPFR.....	286
7.5.11	The Sample Processing	289
7.5.12	Receipt of Goods.....	291
7.5.13	Complaint Management	293
7.5.14	Further Developments	293
7.6	Supply Chain Operations Reference Model	294
	<i>F. Possel-Doelken, L. Zheng</i>	
7.7	Supply Chain Management in Plant Construction.....	299
	<i>R. Wojanowski, M. Schenk</i>	
7.7.1	SCM in Plant Construction	299
7.7.2	Specific Requirements in Plant Construction.....	303
7.7.3	SCM Potentials in Plant Construction.....	305
7.7.4	Main Task: Cooperation.....	308

7.7.5	Main Task: Process Control	312
7.7.6	Benefit Potentials Through Integrated SCM in Plant Construction	318
7.8	Supply Chain Management Software – State of the art	320
	<i>D. Palm, W. Sihn</i>	
7.8.1	Prospects and Benefits Through the use of SCM Software.....	321
7.8.2	Why are PPC and ERP Systems not Sufficient?	323
7.8.3	Spectrum of Tasks of Supply Chain Management Software.....	324
7.8.4	Supply Chain Planning.....	325
7.8.5	Available-to-Promise	333
7.8.6	Supply Chain Execution.....	333
7.8.7	Supporting Tasks.....	336
7.8.8	Integration of Transaction and SCM Planning Systems.....	337
7.8.9	SCM Software Market	338
7.8.10	Selection and Introduction of SCM Software	342
7.9	Process-Oriented Supply Chain Reengineering.....	344
	<i>K. Erzen, M. Klaschka</i>	
7.9.1	Competition Situation of European Textile Production Networks	345
7.9.2	Objectives.....	348
7.9.3	Project Management.....	350
7.9.4	Project Realization	352
7.9.5	Results	357
7.9.6	Conclusion	360
7.10	References for Chapter 7	361
8	Management of Variable Production Networks	368
	<i>H.-P. Wiendahl, S. Lutz</i>	
8.1	Introduction	368
8.2	Production Networks	369

8.3	Interfaces Within a Production Network	370
8.4	Communication in a Production Network	371
8.5	Types of Subcontracting	373
8.5.1	Classic Subcontracting	373
8.5.2	Stock-on-Hand Curves	374
8.5.3	Capacity Driven Subcontracting	376
8.5.4	Technology Driven Subcontracting	377
8.6	Controlling and Monitoring Requirements in Networks	378
8.7	Applications of the Network Control	380
8.7.1	The Case of Capacity-Driven Subcontracting	380
8.7.2	The Case of a Classic Subcontracting	384
8.8	Constraints and Rules	387
8.9	Conclusion	387
8.10	References for Chapter 8	388
9	Mass Customization	389
	<i>F. Piller, R. Reichwald</i>	
9.1	What is Mass Customization?.....	389
9.2	The Role of Information for Mass Customization	393
9.3	Mass Customization and Electronic Commerce	395
9.4	Empirical Findings.....	396
9.5	The Information Cycle of Mass Customization	398
9.6	Marketing and Configuration Networks for Mass Customization.....	401
9.6.1	Retail and Configuration Channels	401
9.6.2	Intermediaries in Mass Customization Concepts	402
9.6.3	Systematization of Broker Networks for Mass Customization	407
9.7	Production Networks for Mass Customization	409
9.7.1	Implementation of Production Networks	409

9.7.2	New Requirements for PPC Systems	413
9.7.3	Design of Information and Communication Flows	414
9.8	Conclusion	416
9.9	References for Chapter 9	417
10	Virtual Factories and Enterprises.....	422
	<i>G. Schuh, T. Friedli</i>	
10.1	What is a Virtual Factory	422
10.1.1	Definition	422
10.1.2	Background	423
10.1.3	Concept	425
10.1.4	The Dynamic Network	428
10.1.5	The Virtual Factory – From Capacity Exchange to Benchmarking	429
10.2	Establishing Virtual Factories.....	430
10.2.1	Trust as Condition	430
10.2.2	Trustbuilding Between Organizations	430
10.2.3	Conclusion for Establishing Virtual Factories	430
10.3	Running Virtual Factories.....	431
10.3.1	Needed Management Capacities	431
10.3.2	Permanent Improvement and Innovation	432
10.4	The Virtual Factory Euregio Bodensee.....	432
10.4.1	Experiences Made so far	433
10.4.2	The Future of the Virtual Factory – Towards Professionalism	434
10.5	Summary.....	438
10.6	KIM-BaWü – Virtual Marketplace for SME Co-operation	438
	<i>D. Palm, W. Sihn</i>	
10.6.1	The Project: KIM-BaWü.....	439
10.6.2	Virtual Marketplace	440

10.6.3	Elements and Concept of the Virtual Marketplace.....	442
10.7	References for Chapter 10	445
11	Cooperation Networks for Industrial Services	447
	<i>C. Gill, V. Liestmann</i>	
11.1	Current Situation of Small and Medium Enterprises	447
11.1.1	Characteristics of Small and Medium Enterprises	448
11.1.2	Basic Conditions in the Business Environment.....	449
11.1.3	Strategies of Small and Medium Enterprises	449
11.1.4	Limited Resources of Small and Medium Enterprises	449
11.2	Industrial Services	451
11.2.1	Definition and Classification.....	451
11.2.2	Types of Industrial Services.....	451
11.2.3	Targets of Providing Industrial Services.....	453
11.2.4	Provision of Industrial Services by Small and Medium Enterprises.....	454
11.2.5	Developments in Germany.....	455
11.3	Features of Cooperation in Industrial Services.....	456
11.3.1	Cooperation Forms in Industrial Services	456
11.4	Requirements on the Organization of Co-operations in Industrial Services	458
11.4.1	Evaluation-Fields for Enterprises.....	458
11.4.2	Organizational Fields for Cooperation.....	458
11.4.3	Requirements on Cooperation of Industrial Services.....	460
11.5	References for Chapter 11	463
12	Cooperation in Knowledge Management.....	468
	<i>K. Henning, R. Oertel, C. Henrichs</i>	
12.1	Introduction	468
12.1.1	The need for Demand-Orientated Innovation in an Increasingly Complex Global Market.....	469

12.1.2	The Strategy of SENEKA: Cooperation for Utilizing Knowledge in Line With Demand	471
12.2	Model and Hypotheses	472
12.3	How Does SENEKA Work in Practice?.....	474
12.3.1	Virtual Institute: Organizational Development in Networks.....	475
12.3.2	Virtual Institute: Personal Development for Network Participants.....	476
12.3.3	Virtual Institute: Knowledge Management	476
12.3.4	Virtual Institute: Innovation Management	477
12.3.5	The Virtual Platform SENEKA.....	477
12.3.6	Project Activities Empirically Reassessed	478
12.4	Conclusion.....	478
12.4.1	The Current Project Consortium	479
12.5	References for Chapter 12	480
13	Abbreviations	481
14	Authors.....	484
