

# Table of Contents

---

## Part I Industrial Clearance of Flight Control Laws

---

### 1 Introduction

*Michiel Selier, Udo Korte* ..... 3

### 2 Tasks and Needs of the Industrial Clearance Process

*Udo Korte* ..... 13

---

## Part II Tutorial on Analysis Methods

---

### 3 The Structured Singular Value and $\mu$ -Analysis

*Declan G. Bates, Ian Postlethwaite* ..... 37

### 4 The $\nu$ -Gap Metric and the Generalised Stability Margin

*John Steele, Glenn Vinnicombe* ..... 57

### 5 A Polynomial-Based Clearance Method

*Leopoldo Verde, Federico Corraro* ..... 77

### 6 Bifurcation and Continuation Method

*Mark Lowenberg* ..... 89

### 7 Optimisation-Based Clearance

*Andras Varga* ..... 107

---

## Part III The HIRM+RIDE Benchmark

---

### 8 The HIRM+ Flight Dynamics Model

*Dieter Moormann* ..... 121

### 9 The RIDE Controller

*David Bennett* ..... 141

### 10 Selected Clearance Criteria for HIRM+RIDE

*Federico Corraro* ..... 151

---

**Part IV LFT Modelling of Uncertainty Models**

---

<b>11 An Overview of System Modelling in LFT Form</b> <i>Jean-François Magni, Samir Bennani, Jean-Paul Dijkgraaf</i> .....	169
<b>12 Physical Approach to LFT Modelling</b> <i>Jean-Paul Dijkgraaf, Samir Bennani, GertJan Looye, Jean-François Magni</i> .....	197
<b>13 Uncertainty Bands Approach to LFT Modelling</b> <i>Thomas Mannchen, Klaus H. Well</i> .....	211
<b>14 Flatness Approach to LFT Modelling</b> <i>Franck Cazaurang, Loïc Lavigne, Benoît Bergeon</i> .....	221

---

**Part V Analysis Results**

---

<b>15 Baseline Solution</b> <i>Tobias Wilmes</i> .....	247
<b>16 <math>\mu</math>-Analysis of Linear Stability Criteria</b> <i>Declan G. Bates, Ridwan Kureemun, Martin J. Hayes, Ian Postlethwaite</i> .....	265
<b>17 <math>\mu</math>-Analysis of Stability Margin Criteria</b> <i>Thomas Mannchen, Klaus H. Well</i> .....	285
<b>18 <math>\nu</math>-Gap Analysis of Stability Margin Criteria</b> <i>John Steele, Glenn Vinnicombe</i> .....	313
<b>19 Polynomial-Based Clearance of Eigenvalue Criteria</b> <i>Leopoldo Verde, Federico Corraro</i> .....	333
<b>20 Bifurcation-Based Clearance of Linear Stability Criteria</b> <i>Mark Lowenberg, Thomas Richardson</i> .....	355
<b>21 Optimisation-Based Clearance: The Linear Analysis</b> <i>Andras Varga</i> .....	385
<b>22 Optimisation-Based Clearance: The Nonlinear Analysis</b> <i>Lars Forssell, Andreas Sandblom</i> .....	415

---

**Part VI Conclusions and Recommendations**

---

**23 Industrial Evaluation**  
*Fredrik Karlsson, Chris Fielding* ..... 433

**24 Considerations for Clearance of Civil Transport Aircraft**  
*Robert Luckner* ..... 447

**25 Concluding Remarks**  
*Michiel Selier, Rick Hyde, Chris Fielding* ..... 457

---

**A Nomenclature and Acronyms** ..... 461

**Index** ..... 467
