## XML-Based Data Management (XMLDM)

### XML and Metadata

A Software Architecture for XML-Based Metadata Interchange in Data Warehouse Systems .....	1
<i>Gunnar Auth, Eitel von Maur</i>	

Metrics for XML Document Collections .....	15
<i>Meike Klettke, Lars Schneider, Andreas Heuer</i>	

A Web-Oriented Approach to Manage Multidimensional Models through XML Schemas and XSLT .....	29
<i>Sergio Luján-Mora, Enrique Medina, Juan Trujillo</i>	

### Extraction of Structure Information and Transformation of XML-Documents

Evolving a Set of DTDs According to a Dynamic Set of XML Documents .....	45
<i>Elisa Bertino, Giovanna Guerrini, Marco Mesiti, Luigi Tosetto</i>	

XML-Based Applications Using XML Schema .....	67
<i>Martin Kempa, Volker Linnemann</i>	

A Structural Numbering Scheme for XML Data .....	91
<i>Dao Dinh Kha, Masatoshi Yoshikawa, Shunsuke Uemura</i>	

XPath: Looking Forward .....	109
<i>Dan Olteanu, Holger Meuss, Tim Furche, François Bry</i>	

### Querying of XML

Grouping in XML .....	128
<i>Stelios Paparizos, Shurug Al-Khalifa, H.V. Jagadish, Laks Lakshmanan, Andrew Nierman, Divesh Srivastava, Yuqing Wu</i>	

Time to Leave the Trees: From Syntactic to Conceptual Querying of XML .....	148
<i>Bertram Ludäscher, Ilkay Altintas, Amarnath Gupta</i>	

Algorithms for Temporal Query Operators in XML Databases .....	169
<i>Kjetil Nørvåg</i>	

XML-SQL: An XML Query Language Based on SQL and Path Tables . . . 184  
*Tadeusz Pankowski*

**XML Database Systems and Performance Evaluations**

Management of XML Documents in Object-Relational Databases . . . . . 210  
*Thomas Kudrass, Matthias Conrad*

Extraction of XML from Relational Databases . . . . . 228  
*Bryn Lewis*

ERX: An Experience in Integrating Entity-Relationship Models,  
Relational Databases, and XML Technologies . . . . . 242  
*Giuseppe Psaila*

Storing and Querying XML Data in  
Object-Relational DBMSs . . . . . 266  
*Kanda Runapongsa, Jignesh M. Patel*

**Multimedia Data Document Engineering (MDDE'02)**

**Video Retrieval**

Population and Query Interface for a Content-Based Video Database . . . . 286  
*Edoardo Ardizzone, Marco La Cascia, Umberto Maniscalco,  
Daniele Peri, Roberto Pirrone*

ShotWeave: A Shot Clustering Technique for Story Browsing  
for Large Video Databases . . . . . 299  
*Junyu Zhou, Wallapak Tavanapong*

Extending a DBMS to Support Content-Based Video Retrieval:  
A Formula 1 Case Study . . . . . 318  
*Milan Petković, Vojkan Mihajlović, Willem Jonker*

A Pre-viewing Step in Video Retrieval . . . . . 342  
*Eric Vachon*

**Multimedia Retrieval**

Multi-level Weighting in Multimedia Retrieval Systems . . . . . 353  
*Ingo Schmitt, Nadine Schulz, Gunter Saake*

Towards Enhanced Compression Techniques for Efficient  
High-Dimensional Similarity Search in Multimedia Databases . . . . . 365  
*Sören Balko, Ingo Schmitt, Gunter Saake*

A Relaxed Algorithm for Similarity Queries Performed with  
High-Dimensional Access Structures . . . . . 376  
*Andreas Henrich*

Adaptive Cycle Extension in Multimedia Document Retrieval . . . . .	391
<i>Youjip Won, Kyungsun Cho</i>	

## **Intelligent Document**

Intelligent Image Clustering . . . . .	406
<i>Gregory Fernandez, Abdelouaheb Meckaouche, Philippe Peter, Chabane Djeraba</i>	

Mining HTML Pages to Support Document Sharing in a Cooperative System . . . . .	420
<i>Donato Malerba, Floriana Esposito, Michelangelo Ceci</i>	

Modeling a Corporate Information System to Improve Knowledge Management . . . . .	435
<i>Birgit Zimmermann, Melanie Gnasa, Karin Harbusch</i>	

## **Web Documents**

A Document as a Web Service: Two Complementary Frameworks . . . . .	450
<i>Shahram Ghandeharizadeh, Frank Sommers, Kuntal Joisher, Esam Alwagait</i>	

Mobile Access to Distributed Data Sources . . . . .	462
<i>Alessandro Andreadis, Giuliano Benelli, Pasquale Fedele, Giovanni Giambene</i>	

Cooperative Navigation in Multimedia Systems . . . . .	472
<i>Maxime Wack, Nathanael Cottin, Rachid Bouyekhf</i>	

ABM: Looping Reference-Aware Cache Management Scheme for Media-on-Demand Server . . . . .	484
<i>K.W. Cho, Y.S. Ryu, Youjip Won, Kern Koh</i>	

## **System Architectures**

An Architecture for Retrieval of RDF-Described Scientific Data Semantics . . . . .	501
<i>Goran Soldar, Dan Smith</i>	

Living Documents – Micro Servers for Documents . . . . .	512
<i>Ralf-Dieter Schimkat, Wolfgang Kuchlin</i>	

Remote Conferencing with Multimedia Objects . . . . .	526
<i>Ehud Gudes, Carmel Domshlak, Natalia Orlov</i>	

## Young Researchers Workshop (YRWS)

### Query Processing

Multi Query Optimization Using Query Pack Trees .....	544
<i>Stijn Dekeyser</i>	

Impact and Potential of User Profiles Used for Distributed Query Processing Based on Literature Services .....	555
<i>Bethina Schmitt</i>	

QoS-Driven Load Shedding on Data Streams .....	566
<i>Nesime Tatbul</i>	

### Internet and Databases

Profile-Based Data Delivery for Web Applications .....	577
<i>Laura Bright</i>	

Secure Publishing of XML Documents .....	587
<i>Barbara Carminati</i>	

Supporting Evolving Ontologies on the Internet .....	597
<i>Michel Klein</i>	

### Adaptable Databases

An Adaptable Infrastructure for Customized Persistent Object Management .....	607
<i>Luciano García-Bañuelos</i>	

Defining an Adaptable Mobile Transaction Service .....	616
<i>Patricia Serrano-Alvarado</i>	

Query Processing in Self-Profiling Composable Peer-to-Peer Mediator Databases .....	627
<i>Timour Katchaounov</i>	

### Large Databases

Compression Techniques Based on Concave Cluster Geometries for Efficient High-Dimensional Nearest Neighbor Retrieval .....	638
<i>Sören Balko</i>	

<b>Author Index</b> .....	651
---------------------------	-----
