<b>Antipin A., Vasil'ev F.</b> Regularization Method for Equilibrium Programming Problem with Inaccurate Initial Data .....	1
<b>Attouch H., Champion T.</b> $L^p$ -Regularization of the Non-Parametric Minimal Surface Problem .....	25
<b>Auslender A., Teboulle M., Ben-Tiba S.</b> Coupling the Logarithmic-Quadratic Proximal Method and the Block Nonlinear Gauss-Seidel Algorithm for Linearly Constrained Convex Minimization .....	35
<b>Burachik R. S., Sagastizábal C., Svaiter B.F.</b> Bundle Methods for Maximal Monotone Operators .....	49
<b>Cominetti R.</b> Nonlinear Averages and Convergence of Penalty Trajectories in Convex Programming .....	65
<b>Ferris M. C., Munson T.S.</b> Case Studies in Complementarity: Improving Model Formulation .....	79
<b>Fukushima M., Pang J.-Shi</b> Convergence of a Smoothing Continuation Method for Mathematical Programs with Complementarity Constraints .....	99
<b>Kaplan A., Tichatschke R.</b> Stable Solution of Variational Inequalities with Composed Monotone Operators .....	111
<b>Kiwiel K. C.</b> A Projection-Proximal Bundle Method for Convex Nondifferentiable Minimization .....	137
<b>Lemaire B.</b> Regularization of Fixed-Point Problems and Staircase Iteration .....	151

**Mifflin R., Sagastizábal C.** $\mathcal{U}$ -Decomposition Derivatives for Convex Max-Functions ..... 167**Moudafi A., Théra M.**Proximal and Dynamical Approaches  
to Equilibrium Problems ..... 187**Penot J.P.**Some Links Between Approximation, Nonsmooth Analysis,  
Penalization and Regularization ..... 203**Revalski J.P., Théra M.**

Variational and Extended Sums of Monotone Operators ..... 229

**Tseng P.**

Error Bounds for Regularized Complementarity Problems ..... 247
