<i>Acknowledgments</i>	<i>xiii</i>
<i>About the Author</i>	<i>xv</i>
<i>Preface</i>	<i>xvii</i>
Chapter 1 Introduction	1
<i>Understanding J2ME</i>	<i>1</i>
<i>Configurations</i>	<i>3</i>
<i>Profiles</i>	<i>6</i>
<i>Anatomy of MIDP Applications</i>	<i>7</i>
<i>Advantages of MIDP</i>	<i>9</i>
<i>MIDP Vendors</i>	<i>11</i>
<i>Fragmentation</i>	<i>11</i>
<i>Summary</i>	<i>12</i>
Chapter 2 Building MIDlets	13
<i>Tooling Up</i>	<i>13</i>
<i>Creating Source Code</i>	<i>15</i>
<i>Compiling a MIDlet</i>	<i>18</i>
<i>Preverifying Class Files</i>	<i>19</i>
<i>Sun's J2ME Wireless Toolkit Emulators</i>	<i>21</i>
<i>Tour of MIDP Features</i>	<i>23</i>
<i>Packaging Your Application</i>	<i>27</i>
<i>Using an Obfuscator</i>	<i>29</i>
<i>Using Ant</i>	<i>29</i>
<i>Running on a Real Device</i>	<i>31</i>
<i>Summary</i>	<i>32</i>
Chapter 3 All About MIDlets	33
<i>The MIDlet Life Cycle</i>	<i>33</i>
<i>Requesting a Wakeup Call</i>	<i>34</i>
<i>A Bridge to the Outside World</i>	<i>35</i>
<i>Packaging MIDlets</i>	<i>35</i>
<i>MIDlet Suite Security</i>	<i>40</i>
<i>Summary</i>	<i>44</i>

Chapter 4 Almost the Same Old Stuff	45
No Floating Point in CLDC 1.0	45
java.lang	46
Streams in java.io	52
java.util	55
Summary	59
Chapter 5 Creating a User Interface	61
The View from the Top	62
Using Display	64
Event Handling with Commands	65
Screens and Tickers	69
TextBox, the Simplest Screen	70
Using Alerts	73
Summary	76
Chapter 6 Lists and Forms	77
Using Lists	77
Creating Advanced Interfaces with Forms	85
Summary	103
Chapter 7 Custom Items	105
Introducing CustomItem	105
CustomItem Painting	108
Showing, Hiding, and Sizing	110
Handling Events	110
Item Traversal	111
An Example	114
Summary	120

Chapter 8 Persistent Storage	121
Overview	121
Managing Record Stores	122
Working with Records	125
Saving User Preferences	128
Listening for Record Changes	132
Performing RecordStore Queries	132
Using Resource Files	136
Summary	137
Chapter 9 Connecting to the World	139
The Generic Connection Framework	139
Review of HTTP	141
Making a Connection with HTTP GET	142
Posting a Form with HTTP POST	146
Using Cookies for Session Tracking	149
Design Tips	154
Using HTTPS	155
Using Datagram Connections	156
Other Connection Types	158
Responding to Incoming Connections	158
Permissions for Network Connections	162
Summary	163
Chapter 10 Programming a Custom User Interface	165
The Canvas Class	165
Canvas Information	166
Painting and Repainting	166
Drawing Shapes, Text, and Images	168
Key Events	184
Game Actions	184
Pointer Events	186
Double Buffering	187
Multithreading and Animation	188
Summary	193

Chapter 11 The Game API	195
Overview	195
Driving Animation with GameCanvas	195
Polling for Key States	198
Understanding Layers	199
Managing Layers	200
Using Tiled Layers	201
Using Sprites	205
Putting It All Together	212
Special Effects	217
Summary	218
Chapter 12 Sound and Music	219
Quick Start	219
MIDP 2.0 Media Concepts	225
Supported Content Types and Protocols	226
Player Life Cycle	229
Controlling Players	230
Listening for Player Events	231
Tones and Tone Sequences	231
The Mobile Media API	237
Summary	237
Chapter 13 Performance Tuning	239
Benchmarking	239
Diagnostic Tools in the J2ME Wireless Toolkit	240
Optimizing Memory Use	243
Coding for Speed	245
Optimizing Application Deployment	249
Summary	251
Chapter 14 Parsing XML	253
XML Overview	253
MIDP XML Parser Roundup	258
Using kXML 1.21	259
Porting Techniques	260
Using Parsers in the J2ME Wireless Toolkit	261
Summary	261

Chapter 15 Protecting Network Data	263
Cryptography Review	263
HTTPS Is Almost Everything You Could Want	265
The Bouncy Castle Cryptography Package	266
Protecting Passwords with a Message Digest	267
Securing Network Data	279
Trimming Bouncy Castle Down to Size	288
Summary	290
Appendix MIDP API Reference	291
Package <code>java.io</code>	291
Package <code>java.lang</code>	298
Package <code>java.lang.ref</code>	310
Package <code>java.util</code>	310
Package <code>javax.microedition.io</code>	316
Package <code>javax.microedition.lcdui</code>	322
Package <code>javax.microedition.lcdui.game</code>	340
Package <code>javax.microedition.media</code>	343
Package <code>javax.microedition.media.control</code>	345
Package <code>javax.microedition.midlet</code>	346
Package <code>javax.microedition.pki</code>	346
Package <code>javax.microedition.rms</code>	347
Index	351
