

Contents

Part I Quantum Statistical Approaches to Correlations

Quantum Many-Body Theory and Coherent Potential Approximation

Y. Kakehashi 3

Cluster Transfer Matrix Method: A novel Many-Body Technique in Nanoelectronics

S. Chung 23

Dynamical Properties of Quantum Systems

J. Okołowicz, M. Płoszajczak, I. Rotter 39

Variational Approaches to the Dynamics of Mixed Quantum States

R.-A. Ionescu 59

Thermal Non-analyticity in the Damping Rate of a Massive Fermion

P.A. Henning 73

Second Law of Thermodynamics, but Without a Thermodynamic Limit

D.H.E. Gross 95

Part II Description of Nonequilibrium Correlations

Isothermal Molecular Dynamics in Classical and Quantum Mechanics

D. Mentrup, J. Schnack 111

Non-local Kinetic Theory

K. Morawetz, P. Lipavský 125

Collisional Absorption of Laser Radiation in a Strongly Correlated Plasma <i>Th. Bornath, M. Schlanges, P. Hilse, D. Kremp</i>	153
Correlations and Equilibration in Relativistic Quantum Systems <i>W. Cassing, S. Juchem</i>	173
Consequences of Kinetic Nonequilibrium for the Nuclear Equation-of-state in Heavy Ion Collisions <i>C. Fuchs</i>	195
<hr/>	
Part III Response to Short Laser Pulses in Semiconductors	
<hr/>	
Ultrafast Spectroscopy in the Quantum Hall Regime <i>Ch. Schüller, N.A. Fromer, I.E. Perakis, D.S. Chemla</i>	209
Ultrafast Formation of Quasiparticles in Semiconductors: How Bare Charges Get Dressed <i>M. Betz, R. Huber, F. Tauser, A. Brodschelm, A. Leitenstorfer, P. Gartner, L. Bányai, H. Haug</i>	231
Self-Consistent Projection Operator Theory of Intersubband Absorbance in Semiconductor Quantum Wells <i>I. Waldmüller, J. Förstner, A. Knorr</i>	251
Disorder Induced e-h Correlation in Photoexcited Transients in Semiconductors <i>A. Kalvová, B. Velický</i>	273
Excitonic Correlations in the Nonlinear Optical Response of Two-dimensional Semiconductor Microstructures: A Nonequilibrium Green's Function Approach <i>N.-H. Kwong, R. Takayama, I. Rumyantsev, Z.S. Yang, R. Binder</i>	295
Cluster Expansion in Semiconductor Quantum Optics <i>W. Hoyer, M. Kira, S.W. Koch</i>	309
<hr/>	
Part IV Correlations and Dynamics Clusters and Nuclei	
<hr/>	
Analysis of Cluster Dynamics <i>K. Andrae, M. Belkacem, T.P.M. Dinh, E. Giglio, M. Ma, F. Megi, A. Pohl, P.-G. Reinhard, E. Suraud</i>	339

Short Time-Scale Electron Kinetics in Bulk Metals and Metal Clusters	
<i>A. Arbouet, C. Guillon, D. Christofilos, P. Langot, N. Del Fatti, F. Vallée</i>	357
Origin of the Pseudogap in High Temperature Superconductors	
<i>R.A. Klemm</i>	381
Electric Fields in Superconductors	
<i>J. Koláček, P. Lipavský</i>	401
Cluster Emission in Complex Nuclear Reactions	
<i>W.U. Schröder, J. Töke</i>	417
Correlations in Finite Systems and Their Universal Scaling Properties	
<i>R. Botet, M. Płoszajczak</i>	445
Fluctuations and Instabilities in Nuclear Dynamics: from Multifragmentation to Neutron Stars	
<i>M. Di Toro</i>	467
Index	495
