

Table of Contents

Some Projects and Reflections on Algorithmic Music	1
<i>Rubén Hinojosa Chapel</i>	
Real-Time Beat Estimation Using Feature Extraction	13
<i>Kristoffer Jensen and Tue Haste Andersen</i>	
Towards a General Architecture for Musical Archive Information Systems	23
<i>Loretta Diana, Goffredo Haus, and Maurizio Longari</i>	
The Study of Musical Scales in Central Africa: The Use of Interactive Experimental Methods	34
<i>Fabrice Marandola</i>	
Evolving Automatically High-Level Music Descriptors from Acoustic Signals	42
<i>François Pachet and Aymeric Zils</i>	
‘Ambiguous Live’ – Exploring Collaborative, Dynamic Control of MIDI Sequencers	54
<i>David Eyers</i>	
Characterization of Musical Performance Using Physical Sound Synthesis Models	64
<i>Philippe Guillemain and Thierry Voinier</i>	
Conserving an Ancient Art of Music: Making SID Tunes Editable	74
<i>Gerald Friedland, Kristian Jantz, and Lars Knipping</i>	
“GMU” - An Integrated Microsound Synthesis System	82
<i>Laurent Pottier</i>	
What Are We Looking for?	89
<i>Daniel Teruggi</i>	
Extraction of Structural Patterns in Popular Melodies	98
<i>Esben Skovenborg and Jens Arnsparng</i>	
Musical Pattern Extraction Using Genetic Algorithms	114
<i>Carlos Grilo and Amílcar Cardoso</i>	
Automatic Extraction of Approximate Repetitions in Polyphonic Midi Files Based on Perceptive Criteria	124
<i>Benoit Meudic and Emmanuel St-James</i>	

Deriving Musical Structures from Signal Analysis for Music Audio Summary Generation: “Sequence” and “State” Approach	143
<i>Geoffroy Peeters</i>	
Musical Style Classification from Symbolic Data: A Two-Styles Case Study	167
<i>Pedro J. Ponce de León and José M. Iñesta</i>	
<i>FMF</i> (Fast Melody Finder): A Web-Based Music Retrieval System	179
<i>Seung-Min Rho and Een-Jun Hwang</i>	
The Representation Levels of Music Information	193
<i>Hugues Vinet</i>	
“Leçons”: An Approach to a System for Machine Learning, Improvisation and Musical Performance	210
<i>PerMagnus Lindborg</i>	
About the Role of Mapping in Gesture-Controlled Live Computer Music . .	217
<i>Leonello Tarabella and Graziano Bertini</i>	
Designing Musical Interfaces with Composition in Mind	225
<i>Pascal Gobin, Richard Kronland-Martinet, Guy-André Lagesse, Thierry Voinier, and Sølvi Ystad</i>	
Author Index	247
