

Table of Contents

Constraint Propagation

GCC-Like Restrictions on the <i>Same</i> Constraint	1
<i>Nicolas Beldiceanu, Irit Katriel, and Sven Thiel</i>	
A Note on Bilattices and Open Constraint Programming	12
<i>Arnaud Lallouet</i>	
Pruning by Equally Constrained Variables	26
<i>Igor Razgon and Amnon Meisels</i>	

Search

Trying Again to Fail-First	41
<i>J. Christopher Beck, Patrick Prosser, and Richard J. Wallace</i>	
Characterization of a New Restart Strategy for Randomized Backtrack Search	56
<i>Venkata Praveen Guddeti and Berthe Y. Choueiry</i>	
Dynamic Distributed BackJumping	71
<i>Viet Nguyen, Djamila Sam-Haroud, and Boi Faltings</i>	
A Value Ordering Heuristic for Local Search in Distributed Resource Allocation	86
<i>Adrian Petcu and Boi Faltings</i>	
Automatically Exploiting Symmetries in Constraint Programming	98
<i>Arathi Ramani and Igor L. Markov</i>	
New Structural Decomposition Techniques for Constraint Satisfaction Problems	113
<i>Yaling Zheng and Berthe Y. Choueiry</i>	

Applications

Algorithms for the Maximum Hamming Distance Problem	128
<i>Ola Angelsmark and Johan Thapper</i>	
A System Prototype for Solving Multi-granularity Temporal CSP	142
<i>Claudio Bettini, Sergio Mascetti, and Vincenzo Pupillo</i>	

Computing Equilibria Using Interval Constraints 157
Lucas Bordeaux and Brice Pajot

Constraint-Based Approaches to the Covering Test Problem 172
Brahim Hnich, Steven Prestwich, and Evgeny Selensky

Super Solutions for Combinatorial Auctions 187
Alan Holland and Barry O’Sullivan

Better Propagation
for Non-preemptive Single-Resource Constraint Problems 201
Armin Wolf

Author Index 217
