Preface

This volume contains the proceedings of *The 11th International Conference on Theorem Proving in Higher Order Logics* (TPHOLs'98), which was held in Canberra at The Australian National University, between September 27 and October 2, 1998. Each of the fifty-two papers submitted as completed research contributions were refereed by at least three reviewers appointed by the program committee. Because of the limited space in the program and proceedings, only twenty-six could be accepted for publication in this volume. The competition was tough, and many good papers were unsuccessful.

TPHOLs'98 continues the tradition of its predecessors in providing a venue for the presentation of work in progress, where researchers invite discussion of preliminary results by means of a short talk, a display at a poster session, and inclusion of a paper in a supplementary proceedings. For TPHOLs'98, the supplementary proceedings takes the form of a book entitled *Theorem Proving in Higher Order Logics: Emerging Trends, 1998* and published by the Computer Science Department of The Australian National University,

The invited speakers for TPHOLs'98 were Tobias Nipkow and Joakim von Wright; the organizers were delighted that both accepted the invitation and provided original papers for inclusion in the proceedings. Professor Nipkow plays a leading role in the Isabelle community, while Dr. von Wright is noted for his contributions both to theorem proving in higher order logics and to the area of program refinement. This is particularly pertinent since TPHOLs'98 was run in federation with *The 1998 International Refinement Workshop and Formal Methods Pacific* (IRW/FMP'98).

Although the TPHOLs conferences have their genesis in HOL Users Meetings, recent years have seen a high rate of contribution from the other major groups, particularly the user communities of Coq, Isabelle, LAMBDA, LEGO, NuPrl and PVS. Since 1993 the proceedings have been published by Springer as volumes 780, 859, 971, 1125, 1275 and 1479 of *Lecture Notes in Computer Science*. More history of TPHOLs can be found with further information about the 1998 event at `http://www.cs.anu.edu.au/TPHOLs98/`.

Canberra, September 1998   Jim Grundy and Malcolm Newey

Conference Organisation

Jim Grundy (ANU)
Malcolm Newey (ANU)

Program Committee

Mark Aagaard (Intel)
Sten Agerholm (IFAD)
David Basin (Freiburg)
Richard Boulton (Edinburgh)
Albert Camilleri (HP)
Tony Cant (DSTO)
Robert Constable (Cornell)
Gilles Dowek (INRIA)
Amy Felty (Bell Labs)
Mike Gordon (Cambridge)
Jim Grundy (ANU)
Elsa Gunter (Bell Labs)
Joshua Guttman (Mitre)
John Harrison (Intel)

Paul Jackson (Edinburgh)
Sara Kalvala (Warwick)
Thomas Kropf (Karlsruhe)
Tim Leonard (Compaq)
Paul Loewenstein (Sun)
Tom Melham (Glasgow)
Paul Miner (NASA)
Malcolm Newey (ANU)
Sam Owre (SRI)
Christine Paulin-Mohring (LRI)
Lawrence Paulson (Cambridge)
Laurent Théry (INRIA)
Phil Windley (Brigham Young)
Wai Wong (Hong Kong Baptist)

Invited Speakers

Tobias Nipkow (TU München)
Jockum von Wright (Åbo Akademi)

Additional Reviewers

Abdelwaheb Ayari
Robert Beers
Yves Bertot
Michael Butler
Ricky Butler
Victor Carreño
David Cyrluk
Joelle Despeyroux
Ben DiVito
Katherine Eastaughffe
Andy Gordon

Rajev Goré
Trent Larson
Patrick Lincoln
Chuchang Liu
Brendan Mahony
Andrew Martin
Monica Nesi
Michael Norrish
Maris Ozols
Randy Pollack

Peter Robinson
Shankar
Rob Shaw
John Slaney
Srivas
Mark Staples
Myra VanInwegen
Luca Vigano
Jockum von Wright
Jon Whittle
Burkhart Wolff
