Contents

Part I Problems

1 Lorentz and Poincaré symmetries 3

2 The Klein–Gordon equation 9

3 The γ–matrices 13

4 The Dirac equation 17

5 Classical field theory and symmetries 25

6 Green functions 31

7 Canonical quantization of the scalar field 35

8 Canonical quantization of the Dirac field 43

9 Canonical quantization of the electromagnetic field 49

10 Processes in the lowest order of perturbation theory 55

11 Renormalization and regularization 61

Part II Solutions

1 Lorentz and Poincaré symmetries 67

2 The Klein–Gordon equation 77

3 The γ–matrices 85

4 The Dirac equation 93

5 Classical fields and symmetries 121

6 Green functions 131

7 Canonical quantization of the scalar field 141

8 Canonical quantization of the Dirac field 161

9 Canonical quantization of the electromagnetic field 179

10 Processes in the lowest order of the perturbation theory . . . 191

11 Renormalization and regularization 211
