
| | |
|--|------------|
| Periodic Motions | 67 |
| 2.2 Resonant and Quasi-Resonant Oscillations of Vibroimpact Systems | 75 |
| 2.2.1 Oscillations of Conservative Systems with One Degree of Freedom | 75 |
| 2.2.2 Resonant Oscillations of Systems with Several Degrees of Freedom | 81 |
| 2.3 Optimal Periodic Control for Vibroimpact System, Linear between Impacts | 82 |
| 2.3.1 Control for the Fixed Oscillation Period | 82 |
| 2.3.2 The Choice of Optimal Period between Impacts | 86 |
| 2.3.3 Determination of Optimal Clearance (Press Fit). | 87 |
| 2.3.4 Optimal Control in Systems with Double-sided Symmetric Limiters | 89 |
| 2.4 Optimal Control for Quasi-Resonant Systems | 92 |
| 2.4.1 General Equations of the Method of Successive Approximations for Search of Periodic Solutions for Vibroimpact Systems . . | 93 |
| 2.4.2 Optimal Control of Quasi-Resonant Motions of Vibroimpact Systems | 97 |
| 2.4.3 Choice of Minimal Duration of Working Cycle | 103 |
| 2.4.4 Control of Non-Autonomous Quasi-Resonant Systems . . | 104 |
| 2.4.5 Approximate Optimal Control Synthesis for Vibroimpact Systems | 106 |
| 2.4.6 Control of Asymmetric Vibroimpact Systems. | 108 |
| | |
| 3 The Averaging Method in Oscillation Control Problems | 111 |
| 3.1 Optimal Control for Finite Time Interval. Problems of the Optimal High-Speed Action | 112 |
| 3.1.1 Motion Equations for Systems with Weak Control | 112 |
| 3.1.2 Problem Formulation. General Equations | 113 |
| 3.2 Periodic Control | 124 |
| 3.3 Processes of Oscillation Settlement in Vibroimpact Systems | 131 |
| 3.3.1 General Equations and Replacement of Variables | 131 |
| 3.3.2 Main Equations of Motion Control | 136 |
| 3.3.3 Periodic Control of Quasi-Conservative Systems | 142 |
| 3.3.4 Partial Averaging. | 144 |
| 3.3.5 Main Motion Equations of the System with Double-Sided Constraints | 146 |
| | |
| 4 Oscillations in Systems with Random Disturbances | 149 |
| 4.1 Stochastic Differential Equations. | 150 |
| 4.2 Limit Theorems for Stochastic Differential Equations (The Diffusion Approximation Method) | 157 |

| | |
|--|------------|
| 4.3 Stationary Regimes in Systems with Random Disturbances | 171 |
| 4.3.1 General Definitions | 171 |
| 4.3.2 Convergence of Disturbed Motion to a Limit Homogenous Diffusion Process | 172 |
| 4.4 Oscillations of Vibroimpact Systems at Random Disturbance | 177 |
| | |
| 5 Some Problems of Optimal Control for Systems with Random Disturbances | 183 |
| 5.1 Program Control in Systems with Random Disturbances | 184 |
| 5.1.1 Necessary Conditions for Optimal Program Control in Stochastic Systems | 185 |
| 5.1.2 Program Control for Systems with Wide-Band Disturbances | 188 |
| 5.1.3 Periodic Control of Parametric Disturbances of Linear Systems | 191 |
| 5.2 The Method of Dynamic Programming for Optimal Control Synthesis for Disturbed Systems | 197 |
| 5.2.1 Equations of Dynamic Programming | 199 |
| 5.2.2 Optimal Control for Systems with Wide-Band Random Disturbances [79] | 202 |
| 5.2.3 Periodic Control for Systems with Disturbances | 207 |
| 5.3 Control for Stationary Motion under Random Disturbances | 213 |
| 5.3.1 Stationary Quality Criterion | 213 |
| 5.3.2 Control for Stationary Motion in Systems with Wide-Band Random Disturbances | 217 |
