

# Contents

<b>1. Introduction</b> .....	1
1.1 Optimization with Multiple Criteria .....	1
1.2 Decision Space and Objective (Criterion) Space .....	3
1.3 Notions of Optimality .....	6
1.4 Orders and Cones .....	7
1.5 Classification of Multicriteria Optimization Problems .....	13
Exercises .....	16
<b>2. Pareto Optimality and Efficiency</b> .....	19
2.1 Pareto Optimal Solutions and Efficient Points .....	19
2.2 Weakly and Strictly Pareto Optimal Solutions .....	28
2.3 Proper Pareto Optimality and Proper Efficiency .....	38
Exercises .....	52
<b>3. Weighted Sum Scalarization</b> .....	55
3.1 Scalarization and Efficiency .....	57
3.2 Scalarization and Weak Efficiency .....	58
3.3 Scalarization and Proper Efficiency .....	60
3.4 Connectedness of $Y_{\text{eff}}$ and $X_{\text{Par}}$ .....	68
Exercises .....	74
<b>4. Other Methods for Pareto Optimality</b> .....	77
4.1 Bounds on the Efficient Set .....	77
4.2 The $\varepsilon$ -Constraint Method .....	82
4.3 Benson's Method .....	85
4.4 Compromise Solutions — Approximation of the Ideal Point ..	90
Exercises .....	100
<b>5. Multicriteria Linear Programming</b> .....	103
5.1 Introduction .....	103
5.2 Theory of Multicriteria Linear Programming .....	111
5.3 A Multicriteria Simplex Algorithm .....	118
5.4 Identifying Scalarizing Vectors and Pareto Faces .....	127
Exercises .....	132

<b>6. Other Optimality Concepts</b> .....	135
6.1 Lexicographic Optimization .....	135
6.2 Max-Ordering Optimization .....	138
6.3 Lexicographic Max-Ordering Optimization .....	141
Exercises .....	152
<b>7. Combinatorial Problems with Multiple Objectives</b> .....	153
7.1 Introduction .....	153
7.2 Finite Problems: The Case $\mathcal{X} = E$ .....	161
7.3 The Shortest Path Problem .....	166
7.4 The Minimum Spanning Tree Problem and Matroids .....	178
7.5 The Assignment Problem .....	193
7.6 The Knapsack Problem .....	204
7.7 The Travelling Salesperson Problem .....	211
Exercises .....	221
<b>Bibliography</b> .....	223
<b>List of Figures</b> .....	229
<b>List of Tables</b> .....	233
<b>Author Index</b> .....	235
<b>Subject Index</b> .....	237
